

Maytag Ships Trainload of Washers to Pacific Coast

NEWTON, Iowa—Officials of the Maytag Company today announced the shipment of a trainload of washing machines to dealers in the Pacific coast states. The train consisted of 45 carloads containing more than 4,000 Maytag washers, valued at nearly one-half of a million dollars. This is the largest single shipment from the Maytag factory since 1928.

Included in the train were approximately 1,000 washers for California dealers. The train will proceed as a unit to Salt Lake City from which point distribution of the cars will be made to dealers. Maytag washers are sold in Torrance by the Miller Furniture Co., 1220 El Prado.

NOTICE
To members of the Utopian Society: The regular meeting of the Utopian Society scheduled to be held on Monday night, March 11, will be held instead on Wednesday night, March 13.

H. P. RAYMOND,
Chairman.

HARVEL ASKS radio fans to TUNE IN KFI

Of unusual interest to all radio fans in this vicinity is the announcement made today by Harvel Guttenfelder, 31 F. Goodrich dealer located at 1618 Cravens avenue in Torrance, that his company will be on the air starting Friday, March 8.

The program, 45 minutes long, will be heard every Friday night over every available National Broadcasting Company station.

For citizens of Torrance, the best available station from which to hear the programs is believed to be KFI, from 8:30 to 9:15 p. m. Titled "Circus Night in Silvertown," the program will carry along a dramatic story of compelling interest, played by a large cast.

Starring the bill is the inimitable comedian Joe Cook, headliner in three musical comedy successes, as well as a favorite for years on the vaudeville circuits.

B. A. Rolfe will direct the Goodrich Silvertown orchestra during the programs.

Besides Cook, Rolfe and the Silvertown orchestra, there will be a large supplemental cast to carry out the dramatic story, as well as a vocal chorus of many voices.

Bluebeard?

Louis Gosden, Oakland, Calif., plumber, in his cell in the Alameda County Jail where he is being held while police investigate the deaths of two of his wives.

Young Couple Wedded At St. Andrew's Church Last Thursday Evening

Miss Ethel Sleppey, daughter of Mr. and Mrs. John Sleppey, and Mr. Damon Jacobson, chemist on the General Petroleum staff, were joined in the bonds of holy matrimony, Thursday, February 28, at 8 p. m. The ring ceremony took place in St. Andrew's Episcopal church with

Chamber Heads Recommend \$100 For Ball Team

Directors Also Lend Aid to Movement to Build Group Dwellings

Recommendation that the city appropriate \$100 from the promotion fund for the Torrance baseball team was made at the regular meeting of Chamber of Commerce directors Monday afternoon. It was stated by Secretary Gilmeister that the recommendation was made with the understanding that the team would be made up of local players.

Chamber directors also voted to support the movement for encouraging the construction of houses and other dwelling units in Torrance on a large scale in order to relieve the acute housing shortage.

Opposition to the publication of income tax returns was voiced in a resolution addressed to congressional members from this district. Consideration of bills before the state legislature was deferred until an analysis of pending bills could be studied.

New chamber members welcomed at the meeting were E. P. Dalton of the Fire Extinguisher Maintenance Company of Los Angeles and H. J. Summers, assistant city engineer.

CITY APPOINTS plumbing-electrical INSPECTOR

Appointment of O. D. Butterfield as city electrical and plumbing inspector was authorized by the Torrance city council Monday evening. In order to relieve the pressure on the city engineer's office, Mayor Ludlow stated. In the past the inspection work has been done by Assistant City Engineer H. J. Summers, who will now be free to devote his entire time to the engineer's office. Mr. Butterfield has been employed by the city in the park department for a number of years, and was formerly a building contractor, Mayor Ludlow states.

Evening High School

The Torrance evening school has prepared an interesting survey of the student's birthplaces. The results of this study show the cosmopolitan character of the community. Among the foreign countries, England is the chief contributor, with a total of six students of English birth. The remainder of the British Isles is represented by two from Scotland and one each from Wales and Ireland. Germany has three representatives, while Belgium and Czechoslovakia have each contributed two of their students. The variety of birthplaces is further increased by one native each from the countries of France, Russia and Sweden.

Heading the list of those who claim closer regions for their birthplace, are the three students from Mexico and the two from Canada. Also there is one from Nova Scotia, one from the Hawaiian Islands, and one from Alaska.

California tops the list of state contributors with a total of 30 natives, two of whom were born in Torrance. Illinois holds second place with her group of 15. Ohio and Kansas tie for third place with a total of 12 each; and Colorado follows closely with 11 natives. From Iowa there are nine representatives, while Pennsylvania and Minnesota each contribute eight. Missouri sends the school seven and New York six. Texas and Oklahoma contributions fall to only four each. Oregon, Washington and Montana tie with three each.

Only two natives were registered from the following states: Arkansas, Arizona, Michigan, Massachusetts and New Hampshire, and one each from the states of Alabama, Kentucky, North Dakota, Mississippi, Nebraska, Tennessee, New Jersey and Wisconsin.

Meanwhile, the evening school is anticipating the registration of students who are natives of the other 48 states that are not now represented and of the unrepresented foreign countries, to prove that Torrance is a truly cosmopolitan community.

The students and faculty of the evening school are happy that they are again permitted to use the regular classrooms. It has been rather humorous to think of having art in a biology room, and typewriting, stenography and bookkeeping in the gymnasium. But such has been the case. Now they have returned to their regular quarters and find them much better adapted to use.

In the art class Miss Holt is starting work in basketry. She will be pleased to have many more enroll for it or other work along that line.

The band, which has been meeting in the gym on Thursday night will be transferred to the music room. Mr. Brisson will be pleased to welcome any one who is interested. The school has been trying to work up a big group to form a real organization that will be a credit to Torrance. If those who play will come, Mr. Brisson will be able to develop a band that will give Torrance some very good programs, using the new band stand in the City Park.

The horticulture class has lost Mr. Pieters as its teacher, but the principal has secured the services of Mr. Huntington, who promises to be nearly as good. It is hoped that all those interested will continue to attend. If the number should warrant it, an extra evening each week may be added.

The woodshop and machine shop are running full force now, with a very nice enrollment.

PIONEER DRUG STORE IN TORRANCE

Several pre-nuptial showers were given in compliment to Miss Sleppey, among them being a most delightful one at the home of Mrs. Geo. P. Shilder, where the choir of St. Andrew's church and additional friends of the bride-to-be were entertained by their charming hosts.

The Women's Guild also gave a shower for Miss Sleppey, who was likewise complimented by a very lovely affair by Mrs. Edmonds, of Los Angeles. Many beautiful and useful gifts were presented at these parties.

Too Much Fletcherizing
SEATTLE (U.P.)—Failure to eat paper fast enough was one reason Alvin Harrison, 33, got a two-year prison sentence. He was charged with burglary and denied he had had any money for months. When detectives caught him chewing a paper, they made him cough it up. It was a receipt for a \$20 suit, purchased the day before.

13 Useless Spades
MILLEDGEVILLE, Ga. (U.P.)—Thirteen spades in one bridge hand—but 13 useless spades. Recently Mrs. J. H. Ennis, wife of a state legislator, drew "the perfect bridge hand" in a game here. But her adversary bid a seven-no-trump.

Buy, build or modernize, with a Bank of America LOAN

Thoughtful thousands are now repairing or modernizing their homes, business structures, and farm buildings—or buying and building new residential property through loans under the National Housing Act—on one of the most convenient and practical plans of repayment ever offered.

Bank of America is cooperating wholeheartedly with the government's great building program through its 424 branches in 256 California communities. Obtain complete information at any branch.
