REFRIGERATOR will eliminate FURNACE SOON

ITHACA, N. Y. (U.P.)—The same machine which supplies your refrigeration will pick up the heat from the outdoors and warm your home, eliminating furnaces in the future, according to Prof. H. W. Riley, of the New York State College of Agriculture.

"This is not a fantastic feature," he insisted. "Before long, home owners may use refrigerating machines to heat their homes by a very simple process.

"The heat will be picked up from outdoors and discharged into

the house. No coal or wood will be needed and the furnace may no longer will have to shake down the grates and carry out the ashes."

Asked how the machine would obtain "heat" from the outdoors, when temperatures fell to below freezing and below zero, the professor replied:

"The mercury would have to drop to about 460 degrees below zero before all the heat would be missing."

The professor described the heating apparatus of the future as one in which copper tubing, an expansion valve and a charge of gas will be used to select the heat from the air and bring it inside to warm the house.

San Diego Fair May Outshine Chicago Exposition, Says Banker

LOS ANGELES.—The California Pacific International Exposition which opens at San Diego, May 29, will continue in many respects the World's Fair at Chicago, and certainly will be an exposition to which every resident of California should pay an extended visit, according to Dr. A. H. Glannini, chairman of the general executive committee, Bank of America. The San Diego exposition will draw more than 5,000,000 visitors, which Dr. Glannini believes is a very conservative estimate.

"San Diego has a way of doing things in a magnificent manner," said Dr. Glannini. "As a city of 38,000 population, it raised \$1,000,000 and put on 'The Exposition Beautiful' in 1915-16. Today it has more than 180,000 residents. It organized the first community chest on the Pacific coast, and was the first city in the country to develop a nationwide advertising program. Seemingly, San Diego knows how.

"In beautiful Balboa Park, about the nucleus of permanent buildings of the earlier exposition and amid superb horticultural plantings, rose gardens and exotic blooms, San Diego is adding numerous other buildings of concrete construction to house the 1935 exposition. This construction is far advanced and only a few major buildings remain to be completed.

"That one may grasp the scope of the California Pacific International Exposition, it needs only mention the participation of the Ford Motor Company. This company plans to expand more than \$2,000,000 on their San Diego exhibit, installing one much larger and more comprehensive than that at the Chicago Fair. Both Henry and Edsel Ford plan to make an extended visit to San Diego.

"Bank of America has built a permanent concrete building with vault and full equipment to house its 'Exposition Branch' at the entrance to the grounds. This branch will not be in the nature of an exhibit, but a full-fledged branch which will render a complete banking service to exhibitors and to more than 5,000,000 visitors."

SPECTACULAR show of flowers IN DEATH VALLEY

Due to the unusually heavy rainfall of two and one-half inches this season in the Death Valley National Monument area one of the most spectacular wildflower displays in years will soon greet visiting motorists, according to predictions received by the Automobile Club of Southern California from park authorities. Added to the galaxy of color created by myriad brilliant blossoms will be the scarlet, purple, yellow and rose of the desert cacti. Many of the sturdier flowers will remain for days, but the more fragile are destined to burst forth in brief brilliant hues and fade as quickly. Large fields of poppies are now making their appearance about three-quarters of a mile east of Fairmont, 18 miles west of Lancaster.

For Lenten Meals

Corn and Oyster Scallop
1/2 pint oysters.
1 can corn, number two can.
15 soda crackers.

Arrange in greased baking dish about one-third of the corn. Add half of the oysters, reserving the liquid. Crumble between the hands three of the crackers as a third layer. Dot with prepared mustard. Continue with corn, oysters and crackers, finishing off with corn and crackers. Dot with mustard and butter. Sprinkle with 1/4 teaspoonful salt, 1/4 teaspoonful white pepper. Pour over all the oyster liquid. Bake at 325 degrees for 30 minutes or 350 degrees for 25 minutes.

Oysters Escalloped (Jane Friendly)
3 tablespoonfuls quick cooking tapioca.
1/2 teaspoonful salt.
Dash of pepper.
1 1/2 cups of milk scalded.
1 cup oysters, cut in half.
1 egg yolk slightly beaten.
1 egg white stiffly beaten.
4 tablespoonfuls cracker crumbs.
2 tablespoonfuls butter.

Add the quick cooking tapioca, salt and pepper to the milk and cook in double boiler ten minutes, stirring frequently. Add oysters and cook five minutes longer. Fold egg yolk into egg white and add to tapioca mixture. Remove from fire. Pour into greased baking dish, top with crumbs, dot with butter and bake in moderate oven (350 degrees F.) 40 minutes.

Pickle for Salmon
Take equal parts of vinegar, white wine and water. Boil these with a little mace, a clove or two, a bit of ginger root, one or two whole peppers and some grated horseradish. Take out the last named ingredient when sufficiently boiled and pour the pickle over the salmon, which has been boiled previously in strong salt water.

Salmon Souffle (Serves four)
(Can be used for left-overs)
Hive ready one cupful of cooked salmon separated into flakes and seasoned with one-fourth teaspoonful of salt, one-eighth teaspoonful of paprika and two teaspoonfuls of lemon juice. Cook one-half cup of soft bread crumbs in one-half cup of milk for five minutes, add prepared salmon and three well-beaten egg yolks, then out and fold in the stiffly whipped whites. Turn into a well-buttered baking dish, set in a pan of boiling water and bake in a moderate oven until firm. This is delicious served with a Spanish sauce.

Gloppino
For this dish use a firm, solid fish, such as large sole, striped bass or rock cod, but do not use halibut or salmon. Fry one finely chopped onion until a golden brown in just enough oil to prevent it burning. Add a little chopped parsley and garlic and let cook slowly for five minutes. For two pounds of fish allow four tomatos or the equivalent in stewed tomatoes. Chop the tomatoes and add to the first mixture then add the fish and stir gently to mix the ingredients. Season with salt and pepper to taste and cook over a moderate fire 20 to 25 minutes without stirring.

For crab use half fish and half crab or one-third each of crab, fish and shrimps.
