

Plan Survey to Extend Street Through Hills

Hawthorne and Prairie Avenue Extension South Is Expected

A survey to extend Hawthorne and Prairie avenues southerly through the Palos Verdes hills to the Crest road will be made shortly by the county surveyor's department, upon instructions given last week by the board of supervisors, on motion of Supervisor John R. Quinn.

The survey will be used in preparation of an SERRA application for labor to grade the roads later on, according to Alfred Jones, county surveyor.

Both Hawthorne and Prairie avenues would intersect Palos Verdes drive, graded by CWA and SERRA forces, and completed only a few months ago. The Crest road connects with the coast highway, Granvia La Costa.

Regarding the necessity for the survey for extension of Hawthorne and Prairie avenues southerly from their present termini, ordered last week, Director William Fox of the commission wrote:

"These surveys are necessary to establish the exact alignment and connections to Palos Verdes drive near Portuguese Bend in preparation for land development about to begin in this area.

"The county has a definite interest in the alignment of its major highways through this area," Fox explained.

Street Car Emulated Worm

SAN JOSE, Calif. (U.P.)—Even a street car, like a worm, can turn. On its last run before being supplanted by a bus, a street car knocked down Manuel Garcia, 30, and sent him to the hospital.

Dog and Cat Finally Quarrel

ANTIOCH, Calif. (U.P.)—For years a pet cat and dog lived together here without a quarrel. Recently, however, the cat had kittens and the first argument developed over who would mind the kittens.

Mary Finds Him Quite Contrary

Plans for the Village of Tomorrow, a model community built on a one-eighth scale which is to be one of the features of the National Housing Exposition, are rapidly taking shape. Here we have Mary Gates, film player from the Hollywood Studio Club, apparently trying to crash the gate at the puppet theater which is to have a place in the village. Though Mary seems to be having a bit of difficulty in getting by the ticket-taker both she and the guardian of the gates seem to be taking it all in good part. The Exposition, which is to open in Los Angeles May 18, will be held in the Pan-Pacific Auditorium on Beverly Boulevard just east of Fairfax.

Aided Baby 11 Times

EVERETT, Mass. (U.P.)—Eleven times Joseph De Lello has submitted to blood transfusions to save the life of his baby son, born with anemia. The father has suffered no ill effects from the operations. The baby now is more than two months old.

Czechoslovakia Seeks Furs

OTTAWA, Ont. (U.P.)—Negotiations for the purpose of obtaining \$1,000,000 worth of Canadian furs, hides and fish oil have been opened here by Hugo Jellinek, chief buying agent for a Czechoslovakian shoe and leather manufacturing firm.

Western Governors Invited

SAN FRANCISCO, (U.P.)—Public safety officials of all the western states have been invited by Governor Frank F. Merriam to the western safety conference here June 11, 12 and 13. Industrial, home and traffic accident problems are to be considered.

Hints For Motorists

(The Herald today presents another of a series of instructive articles, based on recent court decisions concerning motor vehicle operation in California, as prepared by Ivan Keiso, Automobile Club of Southern California general counsel.)

Another grade crossing collision. These occur with awful frequency. Two women and a Ford were the victims. They had stopped, looked and listened before attempting to pass over a railroad grade crossing, but unfortunately they stopped at a point where their view of the tracks and trains upon them was obscured by a row of eucalyptus trees. After stopping, looking and listening, but seeing no train approaching, they went on slowly but from that point heedlessly. They had stopped about 50 feet back from the crossing. When they looked to their left they could see for nearly a half mile and saw no train. They took their time about getting under way and moved slowly until they reached the tracks simultaneously with the train. They claim to have heard no whistle blown and no bell was rung, which probably was the case since independent witnesses testified likewise. However, the driver was not permitted to recover.

Few rules in the law of negligence are plainer written than the one which requires operators to stop, look and listen before passing over a railroad grade crossing. Not only must we stop, but we must stop at a place where it is safe to do so and from which a reasonably clear and unobstructed view of approaching trains is obtainable. Not only should we look, but we should see that which can be seen within a reasonable distance. Not only should we listen, but we should hear that which can be heard by the ordinary prudent person.

The court said in this case that while the operator stopped, looked and listened, she stopped at a point so far from the tracks that it was her duty to look and listen again before she actually reached the tracks because between the time when she started up and when she reached the tracks danger might well threaten, and her duty was to look again and avoid the danger if she could do so by the exercise of ordinary care. Since she was moving slowly and could have stopped in a distance of three or four feet, the court found her guilty of negligence as a matter of law. The rule is STOP, LOOK AND LISTEN, to which we might add "and see that which can be seen and hear that which can be heard." The strict observance of this rule will practically eliminate grade crossing collisions.

Making a "U" turn at a street intersection is such a hazardous proceeding that strict adherence to the rules is required in order to escape civil liability if an accident results. One of our appellate courts recently considered the respective rights and duties of two parties to a collision which occurred while one was attempting to make a "U" turn.

The accident happened on a street which was a well traveled thoroughfare. The boulevard stop signs posted at intersections leading into it. The plaintiff's son was driving a truck along the boulevard and the defendant was driving a sedan along the same boulevard but in the opposite direction. The driver of the sedan, upon reaching the intersection, proceeded to make a "U" turn. He swerved first to his right to give him a little more room and then to his left and had nearly completed the turn when the right front of the sedan and the left front of the truck collided. The truck veered off to its right and went over an embankment into a canyon and its driver was killed.

The driver of the sedan attempted to defend himself on the ground that the truck was moving too fast, but the jury found against him and the appellate court said, in sustaining the verdict of the jury: "When a motorist, such as appellant (driver of sedan), undertakes to make a 'U' turn on such a thoroughfare, approaching drivers may assume that he will be governed by the provisions of section 181 of the California Vehicle Act, which requires that the motorist turning to the left shall yield to any vehicle approaching from the opposite direction which is so close to the intersection as to constitute an immediate hazard."

The court further said that, while it might be true the truck was approaching at too high a speed, nevertheless it was not the speed of the truck which was the proximate cause of the accident but the act of the driver of the sedan in turning in front of it at a time when it was so close to the intersection as to constitute an immediate hazard.

Roosevelt Orders Rowboat SANDUSKY, O. (U.P.)—A 13-foot rowboat, ordered for President Roosevelt, has been shipped to the President's Hyde Park estate by the Lyman Boat Company here. The craft will be used on the Hudson river. W. H. Lyman, company president, was advised.

Posed "As Minute Man BOSTON. (U.P.)—Arthur G. Mather, who posed for the world-famed statue "The Minute Man" at the Old North Bridge, Concord, is foreman of the engraving department of a Boston newspaper.

Cleopatra's Bath In Milk Duplicated

Women attending the Union Ice-Torrance Herald cooking school this week were given samples of a new beauty aid, Creme de Milk, which is being marketed in Torrance by the Mayfair Creamery. Creme de Milk is the newest scientific product for milady's dressing table, and its development dates back to the experiments of a group of scientists three years ago. It is a well known historical fact that the women of Cleopatra's time, and through succeeding generations until recent years, depended upon lactical fluids for their beauty creams. Cleopatra's milk bath is famous and to its wonderful properties is ascribed the great loveliness of the Egyptian queen. Today milk is being used for the same purpose, with this difference, that it is scientifically treated, concentrated and prepared to do even more efficacious work in preserving woman's beauty than it did years ago.

Evening High SCHOOL

The class in arts and crafts at Torrance evening high school will start making flowers Thursday evening, May 2. They are called "ice box" flowers and are made of rice straw grown on the island of Formosa. The flowers made from this material, even on close inspection, have a life-like appearance. When they become crushed and dry they can be freshened by dampening and placing them in the ice box. Many different varieties of flowers are made at a cost of from five to ten cents each, according to size. They look equally well for potted plants, in vases, for corsages or on hats. The class is open to all who wish to learn. We have 16 class sessions yet this year which is ample time to learn the art. The

1 Year For Stealing Locomotive

WELCH, W. Va. (U.P.)—Robert Pearson was sentenced to one year in the penitentiary here for stealing a locomotive from the Norfolk & Western railroad yards. The locomotive was derailed a mile out of the yards.

Stewed Fruits to Blame

CETINJE, Yugoslavia. (U.P.)—Yussuf Kozhar, who died here recently at the reputed age of 136, attributed his longevity to the fact he lived solely on stewed fruit and milk. Kozhar claimed water never had touched his lips in 55 years.

class meets every Monday and Thursday evening.

The evening high school is open on Monday, Wednesday and Thursday evening and is offering work in commercial subjects, wood and machine shop, sewing, beauty culture, English and women's physical education. It is not too late to enroll as we have eight weeks before the end of the school year.

Arrowhead Punctured Tire

CRAWFORD, Neb. (U.P.)—When James Calame, Crawford rancher, brought a tire here for repairs, a flint arrowhead was extracted from the tube. He was thought to have picked up the arrowhead near a big spring, used by Indians as a camping ground.

Gives Up After 18 Years

RALEIGH, N. C. (U.P.)—J. C. Walker, 52 and white haired, walked into Central state prison here and told the warden he wanted to serve 26 years. Walker was convicted in 1916 in connection with the slaying of a sheriff. Sentenced to 30 years, he served four, then escaped.

Huge Alligator Slain

SPRING, Tex. (U.P.)—Three fishermen killed an alligator which was 12 feet long, 22 inches broad and weighed 800 pounds, while fishing on Spring Creek, near here. They said it had lived in the creeks for several years.

The Universal Car

ONE name comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service. . . . That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists. . . . Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile. . . . The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. There is no other car like it.

FORD V-8

\$495 up, f. o. b. Detroit. Standard accessory group including bumpers and spare tire extra. Small down payment. Easy terms through Universal Credit Company. All body types have Safety Glass throughout at no extra cost.
