Local Dealer Displays New 1936 Plymouth

Smart Streamlining Noted In New Models; Forty Other Improvements Made

Styled to emphasize smart streamlining, the 1936 Plymouths, which made their bow last Saturday at the Torrance Auto Sales Company, look bigger and more massive than their predecessors. The long, low contours of the body emphasize its greater length and width. Interiors are roomier and more luxurious, with four and one-half inches more passenger space lengthwise. Seven "deluxe" and three "business" body types are included in the 1936 line. Forty new design features are advertised in the new Plymouths, including rubber-cushioned body, double-strength frame, shockless steering and a new headlight system, as well as improvements in the safety steel body, self-equalizing hydraulic brakes, ride stabilizer and other developments.

The new Plymouths for 1936 are now on display at the show-rooms of the Torrance Auto Sales Company, 1420 Cabrillo avenue, and the prices of the various models are given in an advertisement printed elsewhere in this issue.
