**State Inspector Praises Mortuary**

"A very fine establishment, which complies in every respect with the laws and rules of the department," said Harrie E. Stewart, representative of the state board of funeral directors, on inspection of the new mortuary opened in Lomita at 25001 Narbonne avenue, by A. M. Gamby. Mr. Stewart, of the department of professional and vocational standards, called at the Gamby Mortuary this week, and gave Mr. Gamby a very fine recommendation after thoroughly inspecting the premises.

The new mortuary is completely equipped and conveniently arranged, with a fine chapel for holding services, slumber room, separate quarters for the relatives of the deceased, office and workrooms. All departments open to the public are tastefully furnished, and the workrooms are equipped with modern appliances.

**Worrells Enjoy Trip Thru Snow**

While the inhabitants of Southern California have been sweltering in heat and humidity, eastern style, S. S. Worrell and his family who are on a vacation trip to the north have been driving thru snow tunnels 20 feet high, so Worrell says in a postcard to Charles Drury, who is carrying on at the hardware store in the proprietor's absence.

Mr. Worrell says, "We have just returned from the circle trip around Mt. Hood. We took in Grant's National Forest, Lake Tahoe, Carson City, Reno, Nev., Mt. Shasta, Mt. Lassen and Crater Lake. Lots of rain up here. We drove thru snow tunnels 20 feet high at Lassen, Shasta and Crater Lake. Everything is green and fine. We expect to be in Seattle July 13."

**Former Manager Of Land Co. Here**

G. B. Ochiltree, formerly manager of the Dominguez Land Company in 1914, and later assistant to the president of the Los Angeles Home Telephone Company, 1912-1917, visited Torrance yesterday and spent several hours trying to find some of the old landmarks of the days when he actively engaged in the development of the town-site. "I haven't found any," he said. "This city has made so much progress in the past 22 years that there aren't any landmarks left."

Ochiltree visited Torrance C. Welch and his family while here. He is vacationing in Laguna Beach.

**Stone & Myers Ambulance Burns**

Fire which started from an undetermined cause destroyed the Stone & Myers ambulance Sunday and caused damage from smoke and flames to the walls of the garage at the mortuary, 1280 Cravens avenue.

Charles F. Myers had just returned with the ambulance from Lomita where the car had been parked in front of their building on Narbonne avenue. He believes that the equipment of blankets and cot in the machine was already on fire when he returned the ambulance to the garage, although the blaze was not discovered until some time later. The car and equipment was destroyed but the machine was covered by insurance and will be replaced immediately.

**What happens WHEN SIX RIDE IN YOUR CAR?**

Does somebody have to "straddle" gear and brake levers in front? Somebody in back have to sit with one foot up and one foot down because there's a "hump" in the rear floor? Do elbows poke into ribs and are shoulders cramped for room because seats aren't wide enough? Not in a Hudson! Not in a Terraplane!

**Plenty of Room in Hudson or Terraplane**

Have you ever ridden, three in front, with the floor all clear of gear and brake levers? You can in a Hudson or Terraplane with the Electric Hand... an optional extra... found in no other popular cars built today.

No car can be really comfortable for six unless it has this clear front floor... unless the rear floor is flat, with no "hump" to stumble over... unless the seats are as wide as they are in these "biggest cars ever priced so low"... and unless there's a rear luggage compartment big enough to hold bags and baggage for all six.

Then there's the new smoothness of Hudson's Rhythmic Ride... long, gentle springs which have nothing to do but cushion your ride.

What else do you want in your next car? Power? Performance? Smoothness? Style? Economy? Ruggedness? You will find more of all in a Hudson or Terraplane than in other cars anywhere near them in price. Let one drive prove it.
