NEW DANCING CLASSES OPEN WED., SEPT. 9

Zabelle Dancing Studio Begins Its Fourth Successful Year in Torrance

New dancing classes for children of all ages will begin Wednesday afternoon, September 9, it was announced today by Murielle Zabelle of the Zabelle Dancing Academy. The classes begin at 3:30 p. m. and 4:30 p. m., and will be held regularly at these hours each Wednesday, in the Moose Hall, 1961 Carson street.

The Torrance studio is under the personal supervision of Mrs. Zabelle, who has conducted the Torrance studio for over three years and has won an enviable reputation among her host of satisfied patrons. Complete courses in dancing, dramatics, singing, radio and screen personality are offered. The high calibre and thoroughness of Mrs. Zabelle's instruction is recognized by leading motion picture studios, which frequently call upon her for talent, and a number of her pupils have received attractive positions in the motion picture industry.

A number of pupils from the Zabelle studio were presented at the opening of the new Torrance civic auditorium and received enthusiastic applause for their finished performances.

In addition to the classes for smaller children, Mrs. Zabelle also gives instruction to junior high and high school students in ballroom dancing and social etiquette. The popular new swing rhythm and routines are taught. Further information may be obtained by calling Torrance 363-J any time, Mrs. Zabelle states.

Forensic Leaders Plan New League

Successful in their past activities in the debate field, this year the members of the Torrance high debate squad hope to increase the schedule of their meets.

Plans are being formulated to organize a new high school league which will include Washington, San Pedro, Banning, Narbonne, and the Redondo Beach schools, it was learned today.

Last year the team was coached by Miss Irene Mills and Mrs. Charlene Allen. The local squad won its only debate of the season by defeating Washington high school.

Night School Popular Among Torrance Folk

With an enrollment last year that reached the 600 mark, adult education has proven to be a popular feature among Torrance people.

Conducted at the Torrance high school under the direction of Guy Leroy Mowry, many citizens of the city have taken advantage of the diversified courses of study to supplement their past education.

Work offered in the night classes covers a wide variety of subjects and this year will include:

Commercial Typing, Shorthand (beginning and advanced), Comptometry, Shops (wood and machine), Mechanical Drawing—Monday, Wednesday and Thursday.

English, Beauty Culture, Agriculture, Civic Center (men)—Monday and Wednesday.

Sewing, Dramatics and Public Speaking—Monday and Thursday.

Women's Physical Training, Thursday.

Other subjects that may be added to the curriculum, depending on the enrollment, include Spanish, Arts and Crafts, First Aid, Home Nursing, Parent Education, Home Management and Physical Training for Men.

NARBONNE HIGH SCHOOL

Expecting to open the Narbonne high school this year with an enrollment of about 975 students, Principal Clementina de Forest Griffin announced the addition of another teacher to the faculty, bringing the number now employed to a total of 42.

Although at one time last year the enrollment reached a high point of 990 students, Principal Griffin explained that an increase in attendance is anticipated this year which will boost the number enrolled to well over the thousand mark.

In addition to employing a new teacher, six other replacements are expected. Teachers who will leave the school include: John Lee Vincent, mathematics instructor; Jane Wittech Bennett, nursing and girls' hygiene teacher; Jessie Way Hardie of the dramatics department; Elizabeth Bishop Moore, music and sewing instructor; Mrs. Laura Best Fisk and Mrs. Myrtle Sears Schwartz, English teachers. The names of the teachers who will replace these people have not been announced by the Los Angeles Board of Education.

Of those who are leaving, John Vincent, Jane Bennett, and Jessie Hardie have been transferred to other schools in the county system; Mrs. Laura Fisk is accompanying her husband to Oklahoma on an extended leave of absence; Elizabeth Moore is to be married; and Mrs. Myrtle Schwartz has an extended leave of absence and is traveling in Europe.

Perry Elementary School

•Oldest school now within Torrance city limits. Opened in December, 1905. In 1913 had 32 pupils and two teachers. Present building erected 1924. Present enrollment 159; faculty six. William Earl Brown, principal. Located on Prairie avenue in McDonald Tract.

The Truth About Cheap Shoes

The leather in the shoes you wear comes from the steer whose meat you have for meals.

In leathers there are as many different grades as there are different grades of meat.

Strangely the good leather comes from over the part of the animal which is the best part for eating.

Now when you buy a cheap piece of meat you do not expect it to cook as well or taste as good as top grade meat.

The same is true with shoes. A cheap shoe made from poor grades of leather cannot be expected to wear as long or look as well as a good grade of footwear.

In turn the same is true in the material used for shoe repairing and half soles.

In every case the man is money ahead who buys first grade shoes and has them repaired by a skilled workman in a first class shop.
