## Full time operation! ELECTROLUX Gas Refrigerator provides continuous freezing!

Refrigeration is no STOP and GO procedure with an ELECTROLUX

The chilling process is continuous. Just set the control for the degree you want. Electrolux maintains that temperature more evenly than any other refrigerator.

UPPER CHART... illustrates the wide temperature variation in the freezing compartment, required by motor-driven refrigerators.

LOWER CHART... shows the slight temperature variation of Electrolux freezing compartment.

ELECTROLUX Principle of Refrigeration ICE FORMS HERE WHEN HEAT APPLIED HERE

BECAUSE it requires no compressor mechanism—no motor to stop and start many times a day—there is no interruption in the cycle of Electrolux refrigeration.

And Electrolux is efficient, not only the first year; it is efficient every year during a lifetime that is unbelievably long. Moreover, Electrolux is permanently silent.

Through its superior performance, long life, silence and low operating cost (it uses natural gas) the modern Electrolux brings you important advantages embodied in no other automatic refrigerator. See the new models at your dealer's or gas company.

Electrolux continues to outlast any other automatic refrigerator in Southern California.

## SOUTHERN CALIFORNIA GAS COMPANY

### Bruins Are Boomed for Coast Title

(Continued From Page 4-B) school education in Los Angeles. Harris has been converted from an end in recognition of his exceptional blocking ability.

A spirited fight will be conducted for the left half spot. Hirsch and young Spaulding are regarded as tops for the position. Hirsch is an uneasy open runner of the Cheshire type. Spaulding also is fast and can pass better than anyone on the squad. The coach's son has been handicapped two years by injuries, but doctors say he is fit for the 1936 campaign. Several other outstanding backs will contest for the post, which is the key to Coach Spaulding's offensive.

#### Heavy Schedule

The Bruins, like all coast conference teams, play a "killer" schedule this fall. Opening in a double-header with Pomona and Occidental, UCLA plays Washington the third week of the season, California the next Saturday, Stanford on the sixth playing date and Southern California on Thanksgiving Day.

The U. S. C. Bruin renewal is the first since UCLA reached "big time." The game is expected to draw 105,000 fans into the Coliseum after a lapse of six years playing between the two Los Angeles institutions.

### Singing The Blues

(Continued From Page 4-B) Southern California, at Los Angeles.

Sizing up the Irish opponents, Layden said: "Carnegie Tech has Judge Wally Steffan back coaching actively after serving several seasons in an advisory capacity. Tech started six sophomores against us last year and led, 3 to 0, at the half.

"Washington U. has been coming along fast in recent years and will throw a big, fast, experienced team in our path.

"Wisconsin has experienced a revival of spirit under Harry Stuhldreher (who used to call signals for the Four Horsemen) and undoubtedly will provide stiffer competition than last year.

#### Pitt May Be Stronger

"Jock Sutherland of Pitt told me that his team will have more experience and should be stronger than last year when we squeaked out a 9 to 6 victory on Marty Peters' last-minute place-kick.

"Ohio State has lost some valuable men and will be weakened for its early season games. We meet them in mid-season, however, and the Columbus writers say they should be as strong as ever by that time. We won't have Pliny, Shakespeare, Miller and some of the others we had around for that last quarter stampele last fall.

"Navy has lost only 13 lettermen and last year it had three teams of almost equal strength. The Middies are participating the best team of their history.

"Army publicity releases say the Cadets will have as strong a starting team and more reserves than last year when we tied, 6-all, after Army led up to the last minute.

"Northwestern, the only team to beat us last year, promises to be stronger than ever now that Lynn Waldorf has had a year to advance his teachings. The Wildcats are being picked, for the first time since 1930, as a serious conference threat.

"Southern California, which lost by one touchdown to us last year, when our seniors collaborated on some last minute heroics, is proud of telling the world that six or seven of the 10 regulars returning are likely to be replaced by powerful sophomores."

### Boulder Power Inaugural

Formation of a committee of leading citizens of the Southwest has been announced to take charge of the "Boulder Power Inaugural," the night of Oct. 9 in the civic center and on downtown streets of Los Angeles.

The event will celebrate the placing in active service of the world's greatest transmission system, 266 miles in length, and the first main units of the great Boulder power plant, which will furnish electrical current to Los Angeles and certain nearby cities.

Appointed as honorary chairmen for what will be an outstanding event in the history of the Southwest, are Mayor Frank L. Shaw and Senators Hiram W. Johnson and William Gibbs McAdoo.

### Agriculture and Livestock Vie for County Fair Honors

Los Angeles County Fair at Pomona Sept. 18 to Oct. 4 will be notable this year for its outstanding display of livestock and agricultural products. Over 7000 head of large and small stock comprising the cream of the flocks and herds of the west and mid-west, will be exhibited while practically every variety of fruit and vegetable grown in the civilized world will be represented. Right is Miss Artimus Hudson comparing her bundle of prize piglets to agricultural entries charmingly presented by Juel Biglet (top), Dolores Barnes and Eloise Sheets.

### Noted Harness Horses to Race At County Fair

Well-Known Stables Send Pick of Stock to Big Annual Meet

POMONA.—Not only does the 15th annual horse racing meet to be held in conjunction with Los Angeles county fair in Pomona, Sept. 18 to Oct. 4, promise to be notable because of the large number of new stables, but because of the new material added to the stables whose names are already outstanding on the Western Circuit, according to Racing Secretary Frank Liegner.

The J. B. Reynolds stable, of Kansas City, will be back to Pomona this year with three additions to the splendid talent raced here last year. The number includes Orpha, 2:06, who headed a number of summaries as a 3-year-old over the country last year; Grac McComas, a 3-year-old eligible to the 2:20 class, and Taffy Hall, a good 3-year-old trotter by The Laurel Hall, dam Taffeta Silk by Moko.

Little Giant Ben Horine, of Carthage, Mo., has in addition to such favorites as Hante G and Calumet Dallas, some very promising new talent. He recently purchased a splendid trotter in Little Martin, 2:05, a son of Martinque. Last season on the northern circuits he won the enviable title of "Little Giant" because he won 21 out of his 22 starts. Mr. Horine states

### SPORT SHOTS

(Continued From Page 4-B)

that by Sept. 10, the first day of practice, some additional first-year men may augment the present squad.

"Bears" To Be Good Again This Year

The San Francisco bay region leads the state in contributing potential varsity football players at the University of California.

Thirty-six of the 88 gridlers, signing up for fall football practice, give the bay area as their home. Los Angeles county, the center of population in the state, contributes 24 players.

San Bernardino county has six, Orange county four, with three each from San Diego, Kern and Siskiyou counties. Two each are registered from Santa Barbara and San Joaquin, with one each from Solano, Kings, Santa Clara, Merced, Fresno, Monterey, Tulare, San Luis Obispo, Colusa and Sonoma counties. Out-of-state entrants are from Wisconsin, Colorado and Arizona, with two from Portland, Ore.

By taking total heights, weights and ages of all players and dividing by the number of players the average varsity prospect is shown to be 20 1/2 years old, five feet 11 inches in height and weighs 151 pounds.

Russia Plants Tea

MOSCOW (U.P.)—Tea has been planted this year in Kazakhstan as an experiment. The tea bushes are developing normally.

### Trumpeter Swan Is Coming Back

"Refuges"—as applied to safe spots for migratory waterfowl—are indeed such for trumpeter swans. The bugle-like call of these birds used to be heard in many parts of the western United States before they were almost wiped out by hunting and development of the country.

Reports to the United States Bureau of Biological Survey indicate that numbers of trumpeter swans have been slowly increasing the last two years. A recent count of swans at the Red Rock Migratory Waterfowl Refuge in southwestern Montana showed 30 adults, 28 cygnets or young swans, and several nests with eggs yet unhatched. The total of 58 swans thus far at this refuge is a larger number than could be counted last year when the refuge was started.

Trumpeter swans also nest in the western provinces of Canada and Yellowstone Park in northwestern Wyoming. They are one of the three white varieties in this country. The other two are those in city parks, the native whistling swan and the European mute swan. This latter species was imported originally as an ornamental bird for parks and zoos, but in some parts of New York state it has gone wild.

### Coming Events At Civic Auditorium

September 12 Merchants' amateur show and dance.

September 15-16 Mexican Independence Day program.

September 18 Harbor City Japanese Athletic Club dance.

October 1 Betsy Ross Star Club, show.

October 28-29-30 Torrance Herald-Union Ice cooking school.

October 31 Social dance, N. B. P. W. Club.

### Street Car Hits Automobile

Richard Stevens and a passenger escaped injury Monday noon when Stevens' car was struck by a P. E. passenger car at 220th and Cabrillo avenue. The boys failed to see the south-bound car and attempted to cross in front of it. The automobile was badly damaged.

2 Reasons why I'm going EAST via S.P.

I'll See More Southern Pacific than just one route East, it has four—all different and all scenic and interesting. I'll go East one way and come back another, seeing new places, and twice as much.

I'll be Comfortable Every Southern Pacific train East is completely air-conditioned, with everything you could wish for in the way of comfort and convenience, and cheerful, friendly train employees, who are always thinking of little ways to make you more comfortable.

\* SUMMER ENDS OCT. 18 \* Last day of reduced back East fare. Make reservations now.

## "The Universal Car"

ONE NAME comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service.

That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists.

Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile.

The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. It depreciates slowly because it is made to last. There is no other car like it.

### Only the Ford V-8 Gives You These Fine-car Features

1. V-8 ENGINE PERFORMANCE WITH ECONOMY
2. SAFETY GLASS ALL AROUND AT NO EXTRA CHARGE
3. SUPER-SAFETY MECHANICAL BRAKES
4. CENTER-POISE RIDING COMFORT
5. WELDED STEEL BODY... STEEL STRUCTURE AS WELL AS STEEL SURFACE
6. NEW INTERIOR APPOINTMENTS

## FORD MOTOR COMPANY

LOW MONTHLY TERMS—\$25 A MONTH, AFTER USUAL DOWN-PAYMENT, BUYS ANY MODEL 1936 FORD V-8 CAR—FROM ANY FORD DEALER—ANYWHERE IN THE UNITED STATES. ASK YOUR FORD DEALER ABOUT THE NEW 1/4 PER MONTH UNIVERSAL CREDIT COMPANY FINANCE PLANS.
