Crocodile Tows Dinghy
 SYDNEY (U.P.)—A 20-foot crocodile towed a dinghy, with an aborigine entangled in the rope, for several hundred feet in the Gulf of Carpentaria after it was wounded.

Coeds' Ankle Sox Scored
 BERKELEY, Calif. (U.P.)—University of California authorities have undertaken to restore girl's full-length stockings to their former high standing.

Iron Ore Seen Yielding Less

PITTSBURGH, Nov. 23.—(U.P.)—Altho there need be no alarm over general exhaustion of iron ore reserves, the day probably will come when the steel industry must depend upon a lower grade of ore to keep its mills operating.

That and several other interesting findings are expounded by Marion Worthing, writing in a publication of the Bureau of Business Research of the University of Pittsburgh.

Pittsburgh is conceded to be the center of the steel industry in the United States, but Miss Worthing says that a shift in the locale of iron ore mining might put Pittsburgh at a disadvantage. The article confined itself chiefly with the ore industry of the Lake Superior region due to the fact that a large part of the iron ore used in the United States is produced there.

One of the most interesting of Miss Worthing's discoveries is that there has been a steady decrease in the amount of iron ore consumed per ton of iron and steel produced. In 1913 about one and one-half tons of ore were used for each ton of iron and steel, whereas in 1935 only about nine-tenths of a ton of ore was used for each ton of iron and steel.

This change has come about, Miss Worthing says, because of increases in the proportion of scrap charged in steel furnaces.

Townsend Club Activities

As Reported By Beth Paige

We were glad to see some of our missing members recovered and able to be at club once more. But we missed others and here's best wishes for a complete recovery for them.

The song leader had to take the piano work over last week, and what she lacked in piano technique she tried to make up for in surprising sound effects.

You old-time members miss a lot of fun when you only come once in a while. You are going to miss a lot more in the next three months if you stay away. The petitions will soon be here; the play is already received; we shall have a speaker Dec. 3, and that might an important announcement will be made. Come and bring someone who is interested and wants to join.

A merry group attended Lomita Townsend Club Monday evening. Another group goes to San Pedro to hear another forceful speaker this Tuesday evening.

Business Index Up 13 Percent

Western States At Highest Level In Five Years

Bank of America's index of business conditions in the eight far-western states for October reached the highest level since July 1931. The October index registered 78.3 being 13.5 percent above that of one year ago.

The value of October retail sales of 102 western department stores showed a gain of 11 percent over the sales of 1935. All areas revealed increases. The value of sales made at wholesale by nine representative lines during the first nine months of 1936 was 15.9 percent above the value of sales during the same period of 1935.

Fifty-one cities in eight far-western states reported the value of building permits issued during the month were 114.2 percent above the value of permits for October, 1935. The gain in the principal cities of California for the same period was 118.7 percent. Electric power production throughout the West increased 12.8 percent over the same month of last year.

Bank debts, which according to this survey are indicative of business activity, increased \$496,994,000 or 18.6 percent over October, 1935. The index reports

Mail Goes Through

Union freighters at Los Angeles show cargo being shifted long enough to unload 638 bags of mail from the Orient. The assignment arrived aboard the Japanese motorship Nagisa Maru. Other cargo remained in the ship's hold.

that October employment in California's manufacturing industries gained eight percent over 1935. Payrolls were up 18.9 percent and employees' earnings up 8.3 percent.

County Rich In Oil
 MARTINEZ, Cal. (U.P.)—Contractors of experts have calculated that this county alone produces one-eighth of the world's output of refined petroleum.

Lomita School Is Quarter Finished

35 Employed Now On PWA Project

More than 25 percent complete, the new Lomita elementary school is the scene of great activity now as 35 workmen employed on the PWA-Los Angeles city school project began catching up on the construction schedule. When completed, the structure will be the largest in the Lomita area, 72 by 185 feet in size, two stories high containing 14 classrooms and other offices.

A. I. Johnson of 1945 West 240th street is the inspector on the job. He also supervises the Narbonne gymnasium project. Lomita building craftsmen are used on both works if they can handle the type of work to be done, Johnson says. He pointed out that the class of labor necessary on the elementary school project is higher than common labor and is paying 62 1/2 cents per hour as contrasted with WPA labor at 50 cents.

The inspector expects that the regular construction schedule will be followed from now on as most of the foundations have been laid. The main entrance to the building will be on 267th street, with a secondary entrance on the north side along Narbonne avenue for the kindergarten department.

Union Services In Torrance and Lomita Are Well Attended

With song, prayer and inspiring messages, representative groups of Torrance and Lomita residents gave devout thanks to their Creator for the guidance thru another year at union Thanksgiving Day devotionals held in the civic auditorium and Lomita Community Presbyterian church yesterday morning.

The Torrance devotional was under the direction of the Ministerial Union and six pastors, a union choir, Methodist choir and the Mothers' P. T. A. chorus participated. In Lomita, pastors of four churches, a combined choir and soloists were enrolled in the service.

Local pastors who offered prayer, counsel and thanks before a group of several hundred were Revs. R. M. Thomas, E. W. Metz, E. C. Brewster, Ellis T. Brooks, C. M. Northrup and George Elder. Lomita church leaders in the service there were Revs. Urban Hall, H. P. Rothgeb, J. E. Orr and David Shank.

"THANKS A MILLION" FOR MORE THAN A MILLION

America has bought 1,130,000 Chevrolets during the past twelve months, thereby giving Chevrolet the greatest year in its history and the greatest measure of buyer preference it has ever enjoyed.

The builders of Chevrolet are thankful for many things, but most of all for the warm friendship of the American people. And so again at this Thanksgiving season we say, "Thank you, America," for you have given Chevrolet a measure of good-will without parallel in the annals of modern industry.

Consider, for a moment, all that you have done to inspire Chevrolet's appreciation during the past twelve months: You have purchased 1,130,000 Chevrolets; you have made Chevrolet your favorite car for the seventh time in the past ten years; you have given Chevrolet strong preference in every section of the

country; you have conferred this same high honor upon Chevrolet trucks by purchasing more than 205,000 commercial units; you have made 1936 the most successful year in all Chevrolet history.

And now, to climax these expressions of friendship, you are displaying even more marked preference for the new Chevrolet for 1937.

It is difficult to express adequate appreciation for gifts so great and so generous as these.

All we can say is, "Thanks a million" for more than a million cars in 1936; and all we can do is offer you the still finer Chevrolet of 1937 in return for the finest friendship ever bestowed upon any motor car manufacturer.
