Changes Due In Tax Rebate Measure

Deputy Counsel Informs Co. Supervisors of Legislation

Several changes will have to be made in a legislative bill pertaining to tax rebates, as proposed to the county supervisors by a so-called tax expert, before it could be introduced into the 1937 legislature, Deputy County Counsel J. H. O'Connor told the supervisors this week after examining the plan. The proposal was to provide a means for the county to credit any refunds on 1933-34 taxes against the tax payments of future years.

"In co-operation with representatives from the offices of the auditor, tax collector and treasurer, we have considered the proposed legislation and while we are ready to approve the principle underlying the proposed bill, we believe it should be revised," O'Connor stated. "We believe you should authorize the county counsel to prepare legislation embodying the general scheme submitted, and adding any detail as may be advisable."

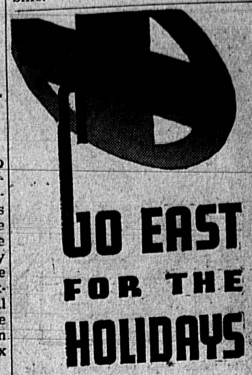

Two Cases Pending For instance, it would be necessary to establish the identity of the person who paid the 1933 tax with the person who pays the tax in the year of refund, unless the bill were drafted, O'Connor said. Also, some parcels that were subdivisions in 1933 have since been reduced to acreage, and some acreage has been subdivided.

There are two cases now pending in the California Supreme court and O'Connor said there probably would be two other cases, and the attorney suggested a provision that the credit be made in the year following the final decision of the Supreme court, but said it was necessary to specify which case.
