Belligerent Drunk Wrecks Restaurant

After annoying a woman restaurant keeper at 10125 Hawthorne boulevard several times Tuesday night, Walter Charles Holberg, 3836 West 110th street, is reported to have come back to the place for the fourth time at 10:45 p. m., and deliberately drove his car through the south side of the building, injuring five persons.

Later he was apprehended by Inglewood police and turned over to deputy sheriffs. En route to the county jail, Holberg is alleged to have attempted to escape from the sheriff's car by beating an officer accompanying him over the head with his handcuffs. He was subdued and continued his journey. Holberg is charged with hit-and-run driving and driving while intoxicated.

Mail Raiders Sought

Damage In Lomita By Youngsters Must Stop "Or Else," Postmaster Says

Promising to "make it tough" for any youngster caught in the act or proved to have been involved in the periodic raids, Postmaster Birda Paddock at Lomita said this week that damage and destruction of mail, mailboxes and locks and posters in the postoffice lobby must stop "or else."

The latter words referred to the minimum penalty for tampering with Uncle Sam's postal property which is a fine of \$300 or term in a Federal prison or both. Postmaster Paddock has interviewed a number of parents

and has also requested the aid of Lomita teachers to curb the malicious activities of children who are meddling with mail, mailboxes or the postoffice lobby.

"This occurs every year but we seem to have more complaints now than in the past," she said. "Mail has been destroyed or defaced and mailboxes disfigured or smashed. The damage has been occurring in all parts of the community so we believe it isn't the work of an organized band of youngsters who think that is one way to have fun."

September Steel Jobs Gain, Set New Record

Employment in the steel industry broke all records in the history of the steel industry in September with a total of 526,700, it has been announced by the American Iron and Steel Institute. This is an increase of 223 percent over September of last year when 429,200 were employed, and compares with 522,400 in August of this year.

Payrolls of the industry in September amounted to \$65,611,000 against \$46,893,000 in September 1935. For nine months of 1936, total payrolls were \$540,779,000, compared with \$557,794,000 for all of 1935.

Of the 97,500 who have been added to steel payrolls during the past year approximately 91 percent were wage-earning em-

ployes, while seven percent were in the clerical departments. Two percent were administrative and sales employes.

In 1929 the Census of Manufactures reported 419,500 wage earners employed in the steel industry, a record which has been exceeded in every month since April of this year, although none of these months has steel output reached the 1928 level.

Robber Steals Kiss

PASADENA (U.P.)—Beauty Queens beware. Miss Barbara Nichols, queen of the 1936 Tournament of Roses, was awakened at 3 in the morning by a robber who stole a kiss from her.

Driver, Fined, Likes Idea

INDEPENDENCE, Mo. (U.P.)—A traffic rule violator paid his dollar fine and told the judge "I think this is a good thing. It makes for community progress and safety."

PICKET BAN LAW OFFERED

(Continued from Page 1-A)

able by a \$300 fine or 150 days in jail or both.

Like Other Laws

When Rippy finished reading the proposed law, which was drawn up because of asserted unofficial picketing carried on here sporadically in recent weeks by building trades workers, Powell sounded his protest. He declared that "I can't see anything in that ordinance that deserves my support . . . it infringes on the rights of individuals and in a court test would be found unconstitutional." He urged that protection of this nature should be denied persons "forcing down living conditions and making it difficult for legitimate contractors here."

Councilman McGuire, the only member of the board to speak in defense of the measure, questioned the advisability of a delay in its passage, saying: "It is the same kind of anti-picketing law that is in force in many other cities."

Klusman Aims Views

In part, the proposed ordinance prohibits persons to "stand, loiter, parade, patrol or picket" or to "cry out or proclaim in a loud or unusual voice" in front of a place of employment "for the purpose of inducing any person from entering" or "annoy or intimidate or interfere with peaceable relations with any employer or person entering his place of business."

The provision that such a law was effective "except in case of strikes" was emphasized by Attorney Rippy in his summary of the measure. Besides the part taken by councilmen in the discussion, W. T. Klusman, one-time mayor, injected a few salty remarks from the audience about the "loud tone" of voice provision.

FORM CORPORATION

Articles of Incorporation for the Woman's Christian Temperance Union of Southern California have been filed with the county clerk in Los Angeles, listing a number of prominent temperance workers as directors.

Letters to the Editor

ASSEMBLYMAN WRITES

Editor, Torrance Herald:

May I be permitted to use the medium of your valuable paper to express my thanks and appreciation to the people of the 68th Assembly district for their splendid support rendered to me in the election just past. And also to thank your readers for the excellent vote for our great leader, President Roosevelt.

In accepting this office I am not unmindful of the grave responsibilities that the office entails, but I assure you that I shall be ever mindful of the interests of the people of this district and the people of the state as a whole. I feel assured that one cannot go far wrong if they adhere to the principle of the greatest good to the greatest number.

FRED REAVES.

Yule Mailing Deadlines Told

Both postmasters of Torrance, Earl Conner, and Lomita, Birda Paddock, called attention this week to the Christmas mailing schedule, declaring that the postoffice department has issued the latest dates of dispatch possible in order for mail to reach its destination in time for the "greatest holiday of the year."

Deadlines for mailings from Pacific ports to countries bordering on the Pacific range from Nov. 18 for Australian mail to Dec. 15 for Hawaiian shipments.

From New York for European and South American nations, mail should be in the hands of the local postal workers from Nov. 18 on. The list of "last dates" to all countries is too long for publication but those contemplating dispatch of gifts abroad should consult the Torrance or Lomita postal workers at once to learn their respective deadlines.
