Meeting of Ladies Guild, Wednesday noon.

CHRISTIAN SCIENCE CHURCHES

The question, "Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon on Sunday in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

The Golden Text is from Jeremiah: "The Lord hath redeemed Jacob, and ransomed him from the hand of him that was stronger than he."

One of the Bible selections in the Lesson-Sermon includes the passages from Genesis: "In the beginning God created the heaven and the earth... And God saw every thing that he had made, and behold, it was very good." And these verses from the Psalms are cited: "Bless the Lord, O my soul, and forget not all his benefits: who forgiveth all thine iniquities: who healeth all thy diseases."

The Lesson-Sermon presents also these words from "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "There is but one primal cause. Therefore there can be no effect from any other cause, and there can be no reality in aught which does not proceed from this great and only cause."

Christian Science reading room at 1208 El Prado. Public welcome.

Tippling Law Stands

SAN JOSE, Cal. (U.P.)—Research workers have unearthed an ordinance, still unrepealed, passed in 1860, standardizing the legal degree of intoxication.

The latter becomes illegal only when the person is "unable to walk or so stupid as to be incapable of self-locomotion."

GO GLOBE-TOURING

Richard Halliburton sweeps you over the world in his lectures May 3 at the Civic Auditorium. Tickets at The Herald office.

HOME COOKED MEALS

ALL the food served here is prepared in home style—not cooked in huge quantities all at once.

STEAKS, CHOPS, GREEN VEGETABLES, HOME BAKED PASTRIES, ICE CREAM

GOOD COFFEE

We invite you to eat with us. Open 6 A. M. to 12 P. M.

Daniels Cafe

1625 CABRILLO

Congressman Colden at the Capitol

By CHARLES J. COLDEN

WASHINGTON, April 3, (Special to The Herald)—Easter Sunday in Washington is not what it used to be.

This year was too cold to go barefooted for the first time in the Spring.

and I had no potatoes to plant on Good Friday. Washington has adopted the California

smudge pots in order to keep the cherry blossoms from freezing. I did not roll eggs either in the White House backyard, but about 50,000 other people did.

Mrs. Colden had a lot of fun about my White House reception shirt that blew out of the apartment window. I had to laugh on Easter Sunday when her hat blew off and went rolling down the street for a couple of blocks, ribbons and flowers flapping gaily in the breeze.

But my laugh was brought to a sudden pause when I discovered she would have to have a new one.

The Easter breeze lifted the hat of another woman who was standing on a corner just as President Roosevelt was returning from church. When the woman threw her arm wildly in the air to grab her bonnet the President mistook her gesture and waved back at her with a broad smile. Surprise, pleasure and a comical expression flitted over the woman's face.

BUREAUCRACY

You have heard about the bureaucrats—they are the people who have held jobs in the various departments so long that they think the government belongs to them. In the course of time, nearly every bureau becomes organized in clicks and clans endeavoring to promote themselves and to kick out others. These bureaucrats become wedded to certain policies and it is most difficult for the President, or Congress, to jar them loose from the opinions and prejudices which they hold.

Years ago a law was passed that civil service appointees should be apportioned among the various states. California never has had the right and proper allotment. Californians in these bureaus frequently get

kicked-out for no reason at all. They see favorites promoted ahead of them. The sad part of the story is that no one seems to be able to give them relief. Congressmen may storm and shout and swear but bureaucracy rules on and on with an iron hand, and you cannot be in Washington long before you feel the power and influence of the bureaucrats.

ONE-MAN RUCTION

The last political war on the floor of the House broke out from the state of Illinois. A Republican member started the war, Congressman Church made a vicious attack on Congressman Sabath of Chicago and his special investigating committee on real estate bonds. Church poured vials of wrath and suspicion on this venerated dean of the House. Sabath has been a member for 30 years. Now the vials of wrath are being refilled and repoured on Church.

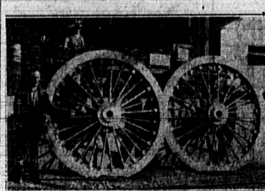

The war is still on and there seems to be plenty of ammunition for a continued battle against the lone member who started the one-man ruction.

HOOT AND PEPPERY

The Supreme Court has given Congress, as well as the country, another surprise by reversing its former decisions and upholding the law of the state of Washington to regulate minimum wages; also recognizing the right of railway labor to organize for collective bargaining; and further, in upholding the Frazier-Lemke farm-moratorium law. The Supreme Court reversed three former decisions all in a row. There is considerable badgering between the pros and cons over the new decisions of the Supreme Court. Those for the Roosevelt program state that the Supreme Court is feeling the sting of public criticism and is getting in line with the New Deal. The other side point with pride to the fact that the Supreme Court is not reactionary as has been claimed by the critics.

The fight on the President's program before the Judiciary committee of the Senate continues to be hot and peppery. The recent attack against the President by Senator Glass of Virginia and the defense of the President by Floor-Leader Senator Robinson of Arkansas has created much comment in Washington. The battle seems to be a Democratic fight. The Repub-

These Were Made In Torrance

—Courtesy "Steel Blade"

This picture shows two bicycle sheaves used in hoisting skips in mines. These were made at the Columbia Steel plant for Phelps-Dodge Corporation. The hub and rim are made of cast steel while the spokes are inch and one-quarter rolled steel. The latter were cast into the hub and rim.

SCOUT MOTHERS PLAN BENEFIT DANCE

Scout Mothers' Auxiliary to Troop No. 219, Boy Scouts of America, met Monday evening at the home of Mrs. E. A. Miles, 2303 Andros avenue. Twelve

were present and formulated plans for a dance which will be held in the civic auditorium some time in May. Proceeds from the affair will assist in sending Scouts to camp this summer. Mrs. Charles Woodcock, president of the group, will serve as chairman.

lean big-shots in Congress have been strangely mute. They are probably keeping still for fear it becomes a partisan fight. Since the Republicans are in such a small minority, they probably have decided that if the Democrats can be divided somewhere near an equal number that the Republican minority would be able to furnish the votes to defeat the President's program. There are a lot of clever politicians in Washington and they are all lined up on one side or the other waiting for the decisive moment.

No Change In Theatre Prices

Albert Mellinkoff, co-operator with Harry Milstein in the management of the Torrance theatre, today declared that reports of a pending increase in admission prices at the local show-house were without basis. No change is contemplated in the present admissions of 25 cents for adults and 10 cents for children, he said. Mellinkoff also announced that the new ventilating system has been thoroughly inspected and found to be working perfectly. This improvement was made by the new managers shortly after they took over the theatre on March 1.

CONSTIPATED 30 YEARS

"For thirty years I had stubborn constipation, awful gas bloating, headaches and pains in the back. Adlerika helped right away. Now, I eat sausage, bananas, pie, anything I want and never felt better."—Mrs. Mabel Schott. At all Leading Druggists.

"Everywhere that Betty went The Goat was sure to go"

MY GOAT—by Betty

"One day when I went shopping with Mother, we passed a goat dairy and I saw a baby goat and I asked Mother please could I have the baby goat and Mother said no we don't want any goats. Then we put the goat in the back seat and paid the man 50 cents and I called her Etta. When we got home I washed her in the bathtub until her fleece was white as snow. When Daddy came home and saw the ring on the tub he said, "Which of you kids has been taking a bath and didn't clean the tub?" I love my goat. She follows me everywhere I go and she can even climb trees. She likes Pat, our airedale, too, and she follows him when I'm not around and he acts kind of embarrassed and growls sometimes. I have a hard time keeping her from eating things she shouldn't eat. Mother says she's as bad as I am, wanting to eat things that are not good for her."

DO YOU like to think back to your childhood days?

Those songs like "The Old Oaken Bucket" were never written about city homes. A home at Rolling Hills fills the minds of the youngsters day by day with an ever-growing fund of wholesome memories that will prove a strengthening influence through the years.

City influences are not always good. Out here among these clean hills Nature seems to transmit something of her own simple purity and strength. Eyes take on a new lustre, voices ring with a new life.

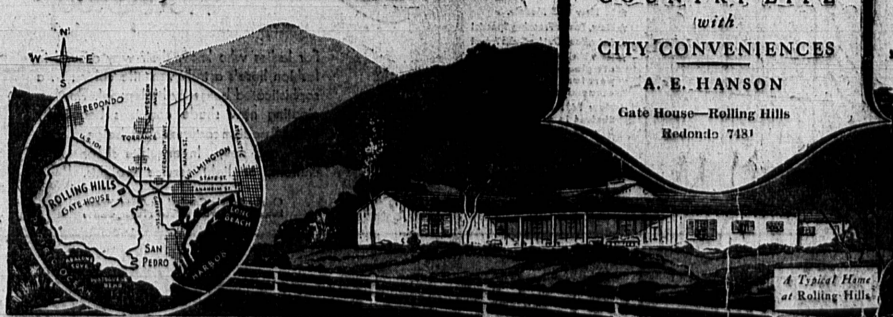

You can find "cheaper" places than Rolling Hills — and many far more costly. To get down to case, you can own a home similar to the one pictured below, with four acres of ground, a barn for malle horses, coral, orchard and landscaping, well-located, for \$12,000.

Why not embark on a little adventure in contentment today and drive on out to Rolling Hills? Many folks have found out that here is the gate to a happiness they have never known before. Maybe it's the thing for you and yours. There's a cordial welcome waiting for you at the Gate House. The map shows you how to go.

AT ROLLING HILLS YOU GET:

- Space and Privacy—The heart of a great 12,000-acre Rancho. Individual homesites range from 2 to 10 acres in size.
- Neighbors of the Kind You Will Enjoy—The qualifications for ownership in Rolling Hills are as high as those of any fine club.
- Good Architecture Without Excessive Cost—All embracing, common-sense architectural restrictions guaranteeing buildings and improvements in harmony with their surroundings.
- Horseback Riding—Over thousands of unspoiled, unfenced acres.
- A Limitless Play-Yard for Your Children—With no end of interesting things for them to do.
- Golf—Membership in one of Southern California's finest golf clubs is included with the purchase price of many of the Rolling Hills homesites.
- Safe Swimming—And a variety of beach games at Abalone Cove.

SOME PIECES AS LOW AS \$2500
