"WHERE YOUR CREDIT IS GOOD"

Alondra Refunding Being Held Up

Refunding proceedings designed to scale down the outstanding bonded indebtedness against property in the special Alondra Act district formed for the purchase of the 300-acre Alondra Park site have not been instituted because signatures of owners of 50 percent of the property have not been obtained on petitions, it was learned this week.

Well Folks,

I am not surprised that so many of you are doing such good work with a brush. Most women have had plenty of experience.

This Is Brush Week!

The Brush was first used to sweep the floor of a cave dweller and it was made of a handful of brush. Later of feathers and then of animal hair. 'Tis a long story and very interesting.

We use Brushes for Painting, Scrubbing, Sweeping and Hair Dressing. I carry a complete stock from 10c to \$15.00 each.

LAWN MOWERS
GARDEN SPRAYS
INSECTICIDES

Seniors to Visit U. S. C.

Fatigue produced by the ergograph, used in similar scientific studies of tired automobile drivers, athletes, and factory workers, is seen being demonstrated to Betty Conzelman by Dr. John W. Todd, psychologist of the University of Southern California. This and similar apparatus will be on exhibition by the 24 schools and colleges of U.S.C. when the university holds its annual open house to seniors of high schools and junior colleges of Southern California, April 24. A special public preview will be held on the campus the day before.

FORMER RESIDENT CHOSEN DELEGATE

Mrs. Leonora Evans, formerly of this city and now a resident of Inglewood, this week was elected delegate of the W. R. C. lodge of that city to the state convention at Stockton. Mrs. Evans has been musician of the lodge and assistant to the past department president in conducting initiations.

TORRANCE HIGH LIGHTS . . . by

Alice Taylor & Dorothy Elder

Educational Trip . . . Last Thursday Mrs. Young's Economics class, comprised mostly of seniors, made a trip into Los Angeles to visit the courts, jail, and stock exchange. The trip is an annual feature for the Economics classes. Many of the students also visited Olvera street for their lunch.

Plan Observance . . . On April 29, at the Civic Auditorium, there will be a combined program for the Public Schools Week with the Fern Avenue, Torrance Elementary, Torrance Junior and Senior high schools and the Parent Teachers Association assisting.

Attends Parley . . . Thomas Elson, principal of Torrance high, attended some modern educational conferences last Saturday at L. A. high school. There was a report of the work of schools experimenting with new ideas in school work. Some of these new ideas may be used here next year.

Campaign Closes . . . The English campaign which was held for three weeks was ended with many perfect records. Each student was given a card at the beginning of each week and whenever he made an error in English while talking in the presence of a teacher, the teacher punched his card.

Had to Choose One . . . The G. A. A. has been invited to two play days—one at Banning and the other at Narbonne. However, the girls have already attended three play days this year and they can only accept one more invitation. The G. A. A. decided to except the Narbonne bid because it would give them more time to prepare for it as it will be in the first part of June.

Enjoy Movies . . . Through the courtesy of the Chevrolet company, the students were entertained with some motion pictures last week. Among the fine variety of pictures there were an educational showing the technical side of automobiles, a comedy, and a cartoon in technicolor.

Depression Reason . . . The reason why so many students left school in such a depressed manner last Monday wasn't because they were sick or anything like that; they had just received their grades on their report cards.

Channel Urged as Drainage Project

Dormant for the past year, the long-sought inland channel to Torrance was revived this week by its two principal backers, C. T. Rippey and F. M. Andreani, and suggested to the county board of supervisors as a solution of the drainage problem that has troubled Gardena, Keystone and surrounding communities during the past winter.

Industrialist

FRANK STRONG began his railroad career with the Union Pacific Railroad as an engineer on location in 1910 and following successive advancements was appointed industrial engineer over the railroad's extensive industrial interests in southern California. He has just been promoted to manager of industrial development, vice-president of the Las Vegas Land and Water company and president of the Overland Terminal Warehouse, the latter two companies being Union Pacific subsidiaries. He will make his headquarters in Los Angeles.

Backers Rippey and Andreani sent a letter to the county officials asserting that the channel to an inland industrial harbor in this vicinity would drain the entire area from Alondra Park to the sea at a cost of about \$3,000,000.

The improvement, it was further pointed out, would cost considerably less than the two major drainage projects now being considered for the depressed areas surrounding Torrance. The estimated cost of those two works is about \$2,000,000 each.

Until about a year ago, the inland channel idea was the subject of considerable agitation although it is nothing new to pioneers in this area. Consideration of the construction of such an artery to an inland harbor here has been a topic of much speculation for the past 25 years.

Camera Studies By Atty. Welch On Exhibit Here

(Continued from Page 1-A)
a year ago while the attorney was in the east.

An interesting supplement to the exhibit is a collection of books and pamphlets on photography gathered by Mrs. Dorothy Jamieson, librarian, for the instruction of local camera craftsmen. Among the collection are the following: "Pictures of Paradise" by Blanding, "Pictorial Photography in America" in two volumes, "Modern Photography for 1932 and 1936-37," two volumes; "Photography and Fine Art" by Bailey, "An Elementary Course in Photography," "Fine Art of Photography" by Anderson and several other instructive books.

PLAYGROUND PREPARED FOR SUMMER GAMES

The Recreation playground at 1916 Border avenue is undergoing a spring clean-up. New swing ropes, teeter boards and slides are being installed. The attendance is constantly increasing. Wood-cervicing and painting are two of the main attractions for the artistically-inclined.

HOT WATER for HEALTH

Plentiful supplies always
on tap with an Automatic
GAS Water Heater

EVEN more important than the soothing relaxation of a warm bath every day is the health it safeguards. And for the same reason it's more than a matter of pride to have dishes that sparkle, linen snowy white, woodwork that gleams. Of course, these require plenty of hot water!

That's why an automatic gas water heater is so necessary in every home. It provides gallon after gallon of hot water at a turn of the faucet, heating new supplies of cold water faster than does any other type.

If you act quickly, you can buy one of these heaters on unusually attractive terms. Note the easy payment plan. Then call on your dealer or gas company right away—before it's too late!

SOUTHERN CALIFORNIA GAS COMPANY

Look for this Seal of Approval

TERMS AS LOW AS

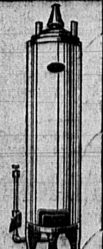

\$1.50

A MONTH

ON NEW AUTOMATIC GAS WATER HEATERS

—no down payment required!
—generous trade-in allowance on your present heater!
—installation without extra charge, when premises are suitably piped.

Easy terms, too, on heaters with tanks of Meneel metal or of Ensteel copper. Tanks constructed of these metals last longer. Ask about them!
