

As Actors Won Closed Shop

Robert Montgomery, president of the Screen Actors' Guild, confers with Aubrey Blair, guild business manager, at the Hollywood mass meeting of screen celebrities, at which time it was voted not to strike with scenic artists and makeup men following producers' capitulation to guild demands for a closed shop and pay increases for "bit" players.

Strawberries Are "In" Now!

The first strawberries always strike the palate with the joy of a new discovery. How delicious they taste! The housewife's pleasure in the new berries is often tempered by the budgetary effect of high priced new arrivals. Wise women will reserve strawberries and cream for later on, and serve the early strawberries as one ingredient in desserts which make the strawberries go farther. Here are two suggestions:

Strawberry Loaf
2 cups halved strawberries
1/2 cup sugar
1 package strawberry-flavored gelatin
1 pint hot water
6 marshmallows, finely cut
1 cup cream, whipped
Combine strawberries and sugar and let stand 10 minutes. Dissolve gelatin in hot water. Chill until cold and syrupy. Place in bowl of cracked ice or ice water and whip with rotary egg beater until fluffy and thick like whipped cream. Fold in remaining ingredients. Turn into mold. Chill until firm. Unmold. Serve in slices. Serves 12.
Springtime Delight
4 tablespoons sugar
1 cup sliced fresh strawberries

Sego Coupons to Be Issued at Cooking School

Jack Payne, representative for the Sego Evaporated Milk company, will give away certificates good for 10 Sego premium coupons to each woman attending The Herald's all-electric cooking school today and Friday at the Civic Auditorium.

These coupons may be redeemed at the Los Angeles premium store for a choice of hundreds of attractive articles or at the Torrance Electric shop, B. J. Scott, owner, where they may be redeemed for Pyrex custard cups.

Payne will have a Sego Evaporated Milk display at the cooking school and will also distribute free samples of this food product that has won high acclaim for its purity and general usage.

1 package strawberry-flavored gelatin
1 pint hot water
Add sugar to berries and let stand 10 minutes. Dissolve gelatin in hot water. Chill. When slightly thickened, fold in berries. Turn into mold. Chill until firm. Unmold. Garnish with whole berries. Serves 4 to 6.

Black Widow Spiders Said Increasing

"Five years ago when I started termite control work we rarely found a black widow spider under a house. Today we are coming in contact with hundreds of them," Ernest C. Har-

ber, head of the Harbor Termite Control operating in this city, declared yesterday.

"However, up until this week we never had a man bitten by one of the poisonous insects. Then one of our workers was bitten on the wrist. He killed the insect on his arm and got out from under the house we were treating for termites in a hurry."

"We bathed his wrist in common household ammonia, placed a tourniquet on his arm and rushed him to a doctor. Evidently the ammonia is a good first-aid deterrent to the venom because he suffered no ill effects from the bite," Harbor said.

All reasonable precautions are

taken by Harbor Termite Control workers against accidents while working under houses. When they encounter an unusually large number of spiders, they gas them into the far corners of the building. The gas does not kill the insects but forces them to seek shelter in recesses of the structure.

COURSES EXPLAINED

A speaker from Metropolitan high school in Los Angeles addressed local high school students Tuesday on the commercial courses available at that center of business studies.

GRANT PERMIT

Permission was granted F. B. Cole and associates at city coun-

cil meeting Tuesday night to erect a topping plant on the industrial site originally occupied by the Export Oil company for several years.

Eggs Shaped Like Peanut CLEVELAND (U.P.)—Mrs. J. R. Dean owns a hen which regularly lays eggs the size and shape of a peanut.

For Your Health's Sake

Eat Pellissier's

FRESH YOGHURT

Daily

FRESH YOGHURT is the result of a selected fermentation produced by bacilli in pure form. Unlike sour milk or clabber, which allows many kinds of bacilli to grow and possibly become harmful, the selected strain of bacillus bulgaricus culture, which is obtained from the Pasteur Institute in Paris and used in PELLISSIER'S FRESH YOGHURT, assures a scientific souring of milk with all its beneficial advantages.

So much illness today is due to auto-intoxication—in other words, self poisoning caused by the putrefaction of food in the colon brought about by harmful bacterial action upon the end products of digestion.

It has been proven that PELLISSIER'S FRESH YOGHURT, when taken regularly, will introduce a flora of bacilli in the intestinal tract which lessens the putrefaction of foods, acts as a powerful disinfectant of the intestine and a marvelous regulator.
