

Meals and Memories on Memorial Day

There may be Paraders in your family today. There may be sad visits to last resting places. There may be cheerful, youthful salutes to the photographs of family heroes. There may be nothing more than relaxation and reflection.

But the inner man must be served. Dainties are expected on Memorial Day—especially if the usual Memorial Day guests arrive.

Strawberry Brazil Nut Charlotte

1 pint strawberries
1 cup sugar
1 tablespoon gelatin
1 cup cold water
1 cup sliced Brazil nuts
Salt

1 cup cream
6 whole Brazil nuts

Wash and pick over strawberries and reserve half a dozen for garnishing. Hull remaining berries and crush with sugar. Set in a warm place until sugar is dissolved.

Soak gelatin in cold water a few minutes and stir over hot water until dissolved. Stir into strawberry mixture, stir occasionally until mixture is cool and add sliced Brazil nuts. Add salt to cream, whip and fold into strawberry mixture. Pour into mold, chill several hours until set, turn out of mold and garnish with strawberries and whole Brazil nuts.

Pineapple-Sabayon

2 egg yolks
2 tablespoons sugar
1/4 cup Hawaiian pineapple juice
Pinch of salt
1 teaspoon lemon juice
1 teaspoon vanilla

Few drops rum flavoring

Beat yolks of eggs until thick and creamy, add sugar and place in top of double boiler and continue to beat. Add the pineapple juice, salt and flavoring. Remove beater and stir well with a wooden spoon for 2 minutes longer.

Keep water in bottom of the double boiler below the boiling point or the mixture will curdle.

Serve hot in small sherbet glasses and with several lady fingers on the plate. This may also be used as a sauce for bread or fruit puddings. 2 average servings.

Italian Spaghetti Sauce

1 can tomatoes (strained)
1 can tomato paste
2 onions (sliced)
2 tablespoons butter
Salt and pepper

Cook above ingredients for about an hour, or till thick, stirring frequently. Boil spaghetti, macaroni or egg noodles till tender, in plenty of salted water. Drain. Pour sauce over boiled spaghetti and serve hot.

Meat Sauce

To the ingredients for the meatless sauce, add a half pound of ground fresh or left-over meat. Cook as directed.

(1) A more elaborate sauce is made by adding such flavoring elements as mushrooms, pimentos, garlic, celery, sage, thyme, bay-leaves, allspice, etc.

(2) Put surplus sauce in a tight jar; keep in cool place for later use, re-heating as needed.

On Your Doorstep

On your doorstep this morning is an extra supply of milk—for your guests or perhaps for your first picnic of the season. Parade or no parade, picnic or no picnic, guests or no guests, modern methods of distributing this healthful food, insure delivery. Milk is one of the oldest foods known to man. In the Bible the story of the Promised Land visioned—not gold—but a land of "milk and honey." Milk provides almost every type of nourishment needed by the human body. Truly your milk supply is as dependable as daybreak.

Lomita Amaranths to Initiate Four

Four new members are to be initiated by the Lomita court. Order of Amaranth next Monday night at the Odd Fellows hall in the adjoining community. Mrs. Martha Gasser, Royal Matron, will be in charge of the rites.

INTERNATIONAL FETE OPENS GOLDEN GATE SPAN MAY 27

SAN FRANCISCO, May 20 (UP)—The suspension bridge across the Golden Gate, called the greatest engineering achievement in history, will be opened to traffic May 27 with a huge international festival memorializing completion of San Francisco's dream of 50 years.

For a full week official delegations of foreign nations, the massed U. S. battle fleet, representatives of western states and cities and a host of entertainers will participate in a mighty display of pageantry celebrating opening of the gigantic span which took \$33,000,000, four years, and 10 lives to build. The Golden Gate bridge is a

single deck suspension bridge, the longest single clear span in the world. It is 6,450 feet in length from end to end, and 4,200 feet from center to center of piers. The span is three times the length of Brooklyn Bridge in New York, and 700 feet longer than the greatest single span ever built to date, the George Washington Memorial bridge

across the Hudson River at New York. The Golden Gate Bridge, surpassed only by the San Francisco-Oakland Bay bridge—a scant two miles distant—crosses over San Francisco Bay waters at a height of 250 feet and connects San Francisco by highway directly with the Redwood Empire of Northern California.

Amount of Steel In Use Tops Billion Tons for First Time

The total tonnage of steel in use in this country, in all forms, has topped the one billion-ton mark for the first time in history, according to the American Iron and Steel Institute. The total represents an average of 17,800 pounds in use for every person in the country.

If all the steel now in use were to be sold as scrap at present prices its value would approximate \$18,500,000,000, or a sum greater than the entire stock of money, including stocks of gold and silver bullion, and currency in circulation in the United States. Several times that amount of money would be required to replace the nation's stock of steel with new steel.

About 984,000,000 tons of steel were in use during 1936, equivalent to about 17,000 pounds per capita. The increase in 1936 represents not only the production of steel ingots during the year, but also reflects the great tonnages of steel still in use that were put into "permanent" services, such as bridges, buildings and pipe lines, during the early years of the century. In addition, the life of steel is becoming increasingly longer as a result of progress in manufacturing, fabricating and preserv-
