### Silent Grip Tire Designed to Eliminate Noise, Increase Safety

Outstanding among the line of 12 different types of tires sold by the recently opened Western Auto Supply company store at 1273 Sartori avenue, according to E. E. Murchison, manager, is the new Western Giant Silent Grip. With complete silence of operation without sacrifice of safe traction and ultra-modern appearance, the new tire affords automobile owners comfort, style and safety that is in keeping with the newest mode of automobile design.

"The research laboratories where our tires are designed are always alert for new ways of improving tire satisfaction," as (Continued on Page 8-A)

## Over 5,000 Items are Carried in Stock Here

A new entry into Torrance business was marked with the opening of the Western Auto Supply company store in the heart of the business district at 1273 Sartori avenue this week. E. E. Murchison, local manager, invites residents of this city and vicinity to visit the firm's new location here, and acquaint themselves with the high standards of quality and low prices which mean greater values for auto owners.

The new Torrance store has been completely remodeled inside and out to suit the requirements of the firm, and is said to be one of the most modern accessory stores in a city of this size in the West. For the convenience of the customer in finding things he wants to buy and that best suit his particular need, the store presents all goods grouped by departments in cafeteria-type bins, open shelves and display stands. This is in keeping with the Western Auto aim of making this store a place where car owners will enjoy making their purchases.

The local Western Auto store has been stocked with more than 5,000 items. This assortment not only includes tires, batteries, oils and auto accessories, but also repair needs and tools, car and house radios, fishing tackle, camping and outing equipment, and bicycles.

#### Started In 1916

With over 200 Western Auto stores now serving motorists in the principal cities of the 11 western states, the company is the largest and oldest exclusive retailer of auto accessories, the new manager states.

The present size of the company differs greatly from the modest little one room store which opened in 1916 and was the beginning of the company in the west. But Murchison declares that the present policies of service and savings to motorists remain the same today as they were then. It is to this consistent adherence to fundamental principles that the amazing steady growth of the firm is attributed.

"Our business, when founded 20 years ago by George Pepperdine, present executive head, was established on the foundation of honesty, satisfaction and a customer-is-always-right policy," asserts Murchison. "We have always guaranteed every article purchased from us to be exactly as represented, and if the customer was not entirely satisfied, we refunded his purchase price."

Salesmen are Trained  
"There has been no deviation from this policy since the com-

pany has been in business. Today these same principles govern every transaction at all Western Auto Supply company stores. And millions of car owners have learned from experience with our firm that this policy is their assurance that they always "Save With Safety" at Western Auto stores.

"One of the outstanding features of this Western Auto guarantee is that it does not matter from which store our customer makes his purchase because more than 200 other stores in the West stand solidly behind our warranty of satisfactory service."

"An outstanding feature of any Western Auto store is the service our salesmen are enabled to give customers as a result of the training these men receive before they represent the company on the sales floor," Murchison asserts. "They are instructed in the service that our firm pledges itself to give, and every man is made to realize that the basic principles of our relations with the public are truth and sincerity. A Western Auto salesman is a specialist in his work—he understands the problems of the (Continued on Page 8-A)

### NEW TIRE INTRODUCED HERE

The introduction of a beautiful, new white sidewall tire to the famous Western Giant line was recently announced by the Western Auto Supply Company. Hal E. Baker, Vice-President and General Manager of the concern, is pictured explaining the features of the wide, longer lasting tread to pretty Leora Lathrop.
