Church Acquires Theatre Organ at "Gift" Price

EYE-OPENERS—by Bob Crosby

Contrary to general belief, army bombers do not aim for the superstructure when trying to sink a battleship. By dropping the bomb alongside, the explosion occurs beneath the water, and the resulting concussion is more effective than a hit above deck.

"A Bee Line for Home" originated from the Bee's direct path to his hive at the first sign of rain.

One thousand years before Christianity, the Apollo oracle at Delphi was worshiped by ardent pilgrims. The "sacred flame" which they worshiped was a natural gas spring. Throughout the old world, similar jets of ignited natural gas were worshiped as a supernatural spirit. Today, natural gas in California serves a population of 5,000,000 for cooking, water heating, house heating, and refrigeration.

CHRISTIAN SCIENCE CHURCHES

"Soul and Body" is the subject of the Lesson-Sermon on Sunday in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.
Among the Bible citations in the Lesson-Sermon are the verses from Matthew: "And, behold, there was a man which had his hand withered. And they asked him, saying, Is it lawful to heal on the sabbath days? he said unto them, What man shall there be among you, that shall have one sheep, and if it fall into a pit on the sabbath day, will he not lay hold on it, and lift it out? How much then is a man better than a sheep? Wherefore it is lawful to do well on the sabbath days. Then saith he to the man, Stretch forth thine hand. And he stretched it forth; and it was restored whole, like the other."

A correlative passage from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states: "If we follow the command of our Master, 'Take no thought for your life,' we shall never depend on bodily conditions, structure, or economy, but we shall be masters of the body, dictate its terms, and form and control it with Truth."

St. Andrew's Members Surprised At Outside Response to Fund

The first church pipe organ in Torrance is about to become a reality. The generosity of Albert Mellinkoff and Harry Millstein, new owners of the Torrance theatre, have made this possible because they are selling the theatre's large organ to St. Andrew's Episcopal church at a price that almost amounts to a gift.

Catholic Church Plans Socials to Raise Fund

During the coming months of summer and fall the Catholic Church of the Nativity will sponsor a number of social events for the purpose of establishing a building fund for a proposed new church here, according to Father Joseph Fitzgerald, pastor. This evening a card party in the rectory at 1447 Engracia will be the first of these entertainments.

The sponsors of tonight's party are Mrs. Jack Murray, Mrs. Gus Ray, Mrs. J. Carlin and Mrs. H. McManus. Bridge, 500 and many other games will be played and refreshments served. Valuable prizes will be awarded those holding high scores.

On Thursday evening, May 27, a turkey dinner will be held at the Woman's clubhouse, 1442 Engracia. Tickets may be obtained at the rectory or by phoning 332. The members of the parish are in charge of this event and a number of committees are already functioning to make it a success. Everyone is cordially invited to attend these socials and it is hoped that many will participate.

The instrument is to be completely renovated, revoiced and installed by Robert Morton Organ company within 60 days. It is expected that Bishop D. D. Gooden will attend for a special dedicatory service when the organ is completed.

The total cost of this acquisition to the church and community will be about \$850. A large dent has already been made in the obligation by subscription and cash. The response that has come from business interests and from people outside the church membership has been a pleasant surprise, showing the widespread civic interests in the project, it is reported.

A whirlwind campaign was set in motion at a church meeting held Monday evening presided over by H. J. Bishop, warden. Wallace Post at the Torrance National Bank is acting as treasurer for the fund.

Silent Grip Tire Is Latest Western Auto Product

(Continued from Page 6-A)

Murchison: "From the many tests continually being made there, it was found that the large fenders which enhance the streamlined appearance of the new cars greatly amplified the slightest sound made by ordinary tires. This caused a disturbing noise very audible inside the car."

Backed by Guarantee

"In spite of these features, there is no compromise of the expense of safety and comfort. Non-skid protection is scientifically attained through careful designing of the tread with burrs and shoulder blocks, for a firm grip on any highway under any condition.
"Of particular importance, to the prospective tire buyer is the fact that new tire by Western Auto meets the firm's usual high standards of quality materials and workmanship in production, and is backed by our typical all road hazard guarantee, and service at all of our nearly 200 stores in the West."

location and modern store interior, the concern is sponsoring an eleven day "Get-Acquainted" sale event, featuring scores of greater savings through especially reduced prices on any motoring needs. Economical car owners will find this event most timely, according to Murchison, for its special trade-in allowance on tires and batteries affords an opportunity to equip the car for summer touring now at a saving.

The event, which began Tuesday, will continue until 9 p. m. Saturday night, May 29.
