Townsend Club Activities

A gala picnic and social time was enjoyed by members and friends of the Torrance Townsend club at the city park with more than 200 attending. H. F. Kenny, organizer for the South half district, an eloquent and sincere speaker, was master-of-ceremonies and led the community singing. He introduced the following speakers: Mr. Glidden, president of the Torrance club; E. E. MacDonald, president of the district board; Mr. Wilcox, assistant to Chairman Arthur L. Johnson of the legislative committee; Mr. Ferren, who is in charge of Townsend mass meetings; and Edgar Dix, national district organizer.

All had worthwhile things to say and expressed confidence that the "General Welfare Act of 1937"—H. R. 4199, would soon be brought up for discussion on the floor of the House.

Mrs. Laura B. Everhardt entertained by playing the accordion and pantomiming a "song story" which was very clever. Afterwards she presented a splendid angel-food cake, as a birthday gesture to Mrs. E. E. MacDonald who is secretary-treasurer of the district board. The audience acknowledged the birthday with a song and Mrs. Gallagher, soloist from Townsend club No. 113, rendered two lovely numbers.

Congressman Colder at the Capitol

By CHARLES J. COLDER
WASHINGTON, May 20, (Special to The Herald)—The metropolitan newspapers and unfriendly columnists

and feature writers have been making many severe attacks on Congress for the purpose of conveying to the public that this is a "do-nothing session." These critics have picked on the House particularly. It is an old newspaper custom and these critics have been quite active during the administration of President Roosevelt.

Sam Rayburn of Texas, Democratic floor leader, reviewed the work of the House of this session in reply to these critics. He stated that the business of the House was in better shape at this time than in any comparative period in his 24 years of service in the House. Practically all the appropriation bills have been passed by the House with the exception of the relief appropriation bill. Here are some of the important bills that have been passed by the House to date:

(1) The Reconstruction Finance Corporation bill extended;

(2) The Guffey-Vinson coal bill;

(3) The reciprocal trade agreements measure; a new lease on life;

(4) The neutrality bill; been passed by the House;

(5) The stabilization fund bill;

(6) The retirement of the Justices of the Supreme Court on full pay after they reach the age of 70. This was bait offered to persuade some of the judges to retire;

(7) The Posttellig bill, one permitting railroads to charge more for a short haul than a long one was passed by the House. This bill, if passed by the Senate, will probably unfavorably affect intercoastal shipping and not do Southern California any good. It was passed

by the House at the last Congress, but did not get through the Senate. Here's hoping it will get "stuck" again. I opposed this bill.

(8) The House passed a bill to authorize the Attorney General to intervene in behalf of the prevention of the pollution of rivers, harbors and beaches, which has a far-reaching effect on the health of the country, and

(10) The anti-lynching bill.

COURT TAKES TIME . . . In addition to the above major bills, the House has passed 351 private bills and approved 168 bills on the Consent Calendar. This does not include numerous other bills that were considered and rejected.

As Speaker Bankhead very pointedly stated, when Congress hurries legislation it is accused of passing "half-baked measures" and when we move slowly we are accused of "sit down strikes." It is a case of "be damned if you do and be damned if you don't" in Congress, or elsewhere. And don't forget we have spent a lot of time cussing and discussing the Supreme Court reform program.

Auditor Protests Placing County Workers on Boards

Disclosure that a number of county employees have been serving on election boards throughout the country in recent elections caused County Auditor H. A. Payne to ask the board of supervisors this week to see, in effect, "that it doesn't happen again."

Payne said that when the fact was disclosed to his office that warrants were disappearing because a regularly-employed county employee is ineligible to serve on election boards and cannot be paid for such services. "I have recommended to Registrar W. M. Kerr that he instruct his inspectors of election boards to challenge various members of the board and that they immediately discharge a member not eligible to serve," the auditor added.

Paris Styles

MARY FENTRESS

PARIS (U.P.)—One of the outstanding evening gowns in the Molyneux mid-season collection is of quilted chintz. The chintz is a pale dusty pink and is printed with a design of black flowers. It is made with a square décolleté, back and front, held by narrow quilt shoulder straps. The skirt is extremely full, falling in loose folds to the floor. The belt is of shiny black patent leather.

Many of the summer evening gowns at Molyneux are trimmed at the bodice or at the waist with sprays of artificial flowers or with crisp bows of taffeta or organza. The bodices of some of the gowns are almost entirely covered with flowers.

A great many of the evening creations are in gold and silver lame, a Coronation influence. Gold lame has been the most popular choice, having been selected by Princess Juliana of Holland as well as by many British peeresses.

One of Molyneux's gowns in this material is dotted with gold sequins cut in the shape of stars in all sizes. The gown is made with a draped front bodice supported by narrow gold straps. It has an accompanying jacket of the same starred gold lame that is made on tailored lines with small revers.

Another in silver lame is embroidered all over with small silver beads. It is made with a train, banded in silver beads, and is worn with a white tulle headress.
