Chief Calder Issues Supplementary Set of Regulations for Police

Indicating that Police Chief G. M. (Jerry) Calder is determined to keep his department personnel on the high standard which it has occupied in the past—a fact attested to by many complimentary remarks, oral and written, from outside police authorities—a supplementary set of rules and regulations was posted this week at headquarters.

"The additional regulations are perhaps not new but they will serve to keep our men on their toes at all times," Chief Calder said. Perhaps the most interesting, from the public's standpoint, are these three rules culled from the list:

"Each member of the department is hereby made responsible for his personal appearance. Uniforms will be kept clean and neat at all times. Inspection will be called from time to time. "Members will conduct themselves courteously. The public acquires its respect (or disrespect) for the law mainly from the manner in which the agents of the law conduct themselves in their relations with citizens. "Complete reports on each arrest will be filed by the arresting officer or officers. These reports will set out in detail everything that happened, including a complete list of all of the witnesses, a memorandum of all statements made relative to the case and any suggestions or remarks that the officer deems material.

"These reports should paint a word picture of the complete affair, the incidents leading up to the act, the act itself and the following events. Each case should be prepared with the thought that the officer may be called upon to prove the charge to a jury against a smart lawyer. The time to get evidence is right away."

BECAUSE COOKED WITH GAS

The kind of fuel you use in cooking has a great deal to do with flavor and texture. It takes uniform oven heat, for example, to roast fowl evenly. Where the heat is not uniform, some portion may be overdone, while other portions are not cooked enough.

Only natural gas, in the modern automatic gas ranges, gives you uniform temperature throughout the oven. There are no "hot spots," no "cool spots." That's one reason why gas-roasted meats taste better.

Here's another reason: gas gives you the exact degree of heat you need. This is important because fowl, like most other foods, has a certain temperature at which it roasts best. Heat that varies will not produce best results. With a modern gas range, all you have to do is to set the temperature regulator!

And what's more, it costs far less to cook with gas. See the 1937 gas ranges at your dealer's or your gas company, today.

TORRANCE HIGH LIGHTS . . . by Alice Taylor & Dorothy Elder

Holiday Highlights . . . Arrowhead and Big Bear

For many students during the Memorial holiday, Marion Sears, Azalee Harrison, Gerald Templeton, Bill Keefer, Irma Shaffer and Jack Evans enjoyed the brief vacation at this mountain resort . . . Max Coast, Dorothy Elder and friends were also seen at Big Bear . . . Dining and dancing at Balboa entertained Jeanne Streitzweiser, Barbara Hall, Carl Gilbert and Jack Isaacs . . . Martha George, Helen Smith, Perry Mendenhall and Curnal Javens spent the holiday at Piru Canyon . . . The real reason for the holiday was not the commemoration of Memorial Day as you may imagine, but really the celebration of James Ralph Herlett Jr.'s 17th birthday. A surprise party gotten up by Max Coast was attended by Louis Madore, Richard Miller, Kenny Hull, Bob Sleeth and some visitors from out of town was also held Sunday evening. Saturday afternoon Principal Elson went to Ocean Park and got on a launch and went fishing. He said that he caught plenty of fish and had a very delightful time. He also lost one of those long ones that you have probably heard about. He spent Saturday night at a friend's cabin and came home Sunday afternoon. Monday night he took his niece from University of California at Berkeley out to dinner and a show . . . Mrs. Hitzler and her husband spent the holidays in Sequoia . . . Donna Toler, a graduate this summer, became engaged to Wilbur Howard and is to be married in July.

Nominees Chosen . . . One member who had been elected from each senior high homeroom met second period Friday to nominate persons to run for associated student officers. The list of nominees is not yet complete. Those who are running for Junior High student body president are as follows: Donald Hitchcock, Charles Standman, Joan Ramskill, Richard Miller, Jr., and Jenoyne Barkdull.

Test Given . . . Thursday morning the Junior A's came to school with worried looks on their faces for they had to take the dreaded Senior English examination.

Thrift of Metal Brings Fines

Fines of \$100 each with \$75 suspended on their good behavior were assessed Thomas Quesada, 70, and his two middle-aged sons, Simon and Francisco, of Los Angeles by City Judge Robert Lessing late last week. They pleaded guilty to theft charges.

The Quesadas were arrested after they assertedly took scrap metal from the huge pile at the rear of the Columbia Steel plant. Two trucks were used by the men in making the haul.

POSTPONE MEETING
 The scheduled meeting of the North Torrance Improvement association has been postponed until June 18 because of the class play, June 4, and the graduation exercises at the grade school on June 11.

The Torrance Laundry company, thru its attorneys, Cupp and Culp of Los Angeles, filed a petition for an injunction in Superior Court Tuesday against 36 persons, the United Laundry Workers Union, the Laundry Workers International Union and local No. 29 of the International Association, located at San Pedro.

A hearing was set for June 11 at 10 o'clock on the laundry's application for a permanent order to prevent the unions, affiliated with the C. I. O., from molesting its business on Carson street here, in Long Beach, San Pedro, Gardena and Hermosa Beach, according to reports received from Los Angeles.

The temporary restraining order, it is reported, enjoins the defendant unions from compelling any employee to leave his or her employment or to join any labor union against the will or consent of the employee.

The complaint asks that the defendants be restrained from "injuring, threatening or harassing" the plant in Torrance and the firm's locations in the nearby cities and also asks that pickets be prevented from stationing themselves at any of the locations.

Before Judge Wilson Supporting the complaint for the injunction are a series of affidavits. These were signed by George W. Henderson, who asserted he witnessed the activities of "between 25 and 125" pickets at the main plant and declared that many of them carried light sticks or clubs; Lydia K. Brown, an employee of the firm for 14 years, who claimed she was heckled by pickets here when she tried to return to her job; Hazel and Thomas Kulp, employees; Eleanor Jurkovich, L. S. McCluer, Agnes Sartin and Johnny Favala. Superior Judge Emmett H. Wilson will hear the pleas for injunction in Department 34, which is on the 20th floor of the City Hall tower.

Supply Workers' C.I.O. Lodge Installed

Formal installation of Lodge No. 1623, Amalgamated Association of Iron Steel and Tin Workers, a C. I. O. affiliate, among employees of the National Supply company here was accomplished last Friday afternoon and evening. Different groups of workers attended the two sessions, held at the McDonald hall on Carson street and the American Legion clubhouse.

John Hammond was inducted as president of the local lodge and his supporting officers were also seated. These were: Robert Zeller, vice-president; Harland Wade, recording secretary; Joe Lukes, financial secretary; A. E. Stone, treasurer; Joe Box, guide; D. G. Desmond, inside guard; and Lathie Davis, outside guard.

William Dalrymple, field director for the S. W. O. C. and regional director for the C. I. O. in California, presented the National Supply affiliate's charter and made short talks at both meetings. He said that the local plant was "organized C. I. O. 100 percent."

William Dalrymple, field director for the S. W. O. C. and regional director for the C. I. O. in California, presented the National Supply affiliate's charter and made short talks at both meetings. He said that the local plant was "organized C. I. O. 100 percent."
