About 1830 in America, gas for illumination met such objections as "the fear of darkness will vanish, depravity will increase, horses will be frightened, thieves emboldened."

Today, in California, a population of 5,000,000 is served natural gas for cooking, water heating, house heating, and refrigeration.

DETOUR

By BETSY BYRNES

"Row, row, row your boat Gently down the stream; Merrily, merrily, merrily, Life is but a dream."

—Old Round.

The old round is fun to sing. We know, however, that life is more than a dream. Life is reality, glorious reality!

QUESTIONS
Who wrote the music of that stirring hymn, "Onward Christian Soldiers?"

What is the most common commercial metal?

And who, dear friends, was Till Eulenspiegel?

TODAY'S PROVERB
"Money calls, but does not stay."

It is round and rolls away. To make a good proverb you must use sense.

Add wit and wisdom. Mix well. Condense.

ANSWERS
The music of "Onward, Christian Soldiers" was written by the composer of "Pirates of Penzance," "Mikado" and many other light operas. The composer's name, as you know by now, is Sir Arthur Sullivan. Rev. Sabine Baring-Gould wrote the words of the hymn. It was written for an English school festival.

The most common commercial metal is iron. Iron has been used since remote times. We just learned something else about iron yesterday that we now pass on to you. Iron comprises almost five percent of the earth's crust!

Till Eulenspiegel was the mad son of a German peasant who lived in the 14th century. Many are the tales written about him and his merry pranks. Wish we had space to give at least one of them here.

ADIOS
"Let time that makes you homely, make you sage, The sphere of wisdom is the sphere of age." —Parnell

H. S. Students Hear Alcohol Lectures

A scientific explanation of the effects of alcohol on the human body was given all high school boys in regular physical education classes Tuesday by T. R. Newman, according to Principal Thomas Elson. The same instruction was given girls on Wednesday.

"The lectures were confined to the physical properties of alcohol on the human system and did not cover the moral issue of temperance," Elson said. "We believe that is the only method schools should employ to bring the value of abstinence to the attention of students."

Rew tomatoes grown in the county will be ready for market before June 15, and a normal crop is expected with acreage considerably increased from 1936. All vegetables are maturing about four weeks late.
