**Fine Business Structure Completed****Popular Dentist Opens Offices Today in Two-Story Building on Marcelina Avenue; Others to Locate There**

Ready this week for occupancy is the new two-story Ingold building at 1425-27 Marcelina, a \$10,000 structure built by Dr. C. L. Ingold, optometrist. First new tenant to occupy the enlarged building was Dr. R. A. Bingham, dentist, whose many friends, professional and otherwise, joined in wishing him continued success.

Others to occupy the building will be Miss C. B. Parrot, who is moving her ice cream and candy store at 1915 Carson street to the ground floor quarters next to the Southern California Edison company office. She plans to open her store about August 10. Perry Kincheloe will establish this city's first upstairs beauty salon and barber shop on the second floor at No. 1425 1/2 Marcelina next week.

Dr. Bingham is resuming practice in a five-room, second floor suite after an enforced vacation of more than five months as result of seri-

ous injuries suffered in an automobile accident. Yesterday he said: "It's like starting all new—with a new location, a new office and a new neck!"

The popular dentist has been practicing here since 1928. Affable and efficient, he has won a wide clientele among Torrance people and residents of the surrounding vicinity.

In addition to the office and store rooms, the Ingold building contains a five-room apartment on the second floor which will be occupied by the owner, his wife and son. The structure has 43,000 feet of floor space, is constructed of reinforced concrete and is modern thruout. A penthouse on the roof will be occupied by the Ingolds' son.

Some of the builders of the structure were: George Beckwith, general contractor; Tom Watson, plasterer; Glen Babcock, flooring; Bob Richhart, painting; Torrance Plumbing company and Torrance Lumber company.

**Friends Welcome Dentist's Return**

DR. R. A. BINGHAM  
... friends hail return

The congratulatory messages published on this page indicate in no uncertain manner that the well-known dentist has many friends among the professional group here as well as other residents.
