### Louis-Farr Fight Rained Out Today

Tommy Farr, Welsh fighter, got a last-minute "reprieve" today and will not face "execution" at the hands of Joe Louis, U. S. heavyweight champ, at Yankee Stadium tonight in New York. The "reprieve" came as result of a downpour which caused the fight to be postponed until next Monday night.

Radio Amateurs To Meet  
HOUSTON, Tex. (U.P.)—Hundreds of amateur radio operators of the western gulf district will meet Aug. 20-21 for the annual convocation of the American Radio League.

### City and MWD Taxes Adopted

Adoption of the 1937-38 city tax ordinance which fixed the rates at \$1.10 for district No. 1 (the original city) and \$1.07 for district No. 2 (later annexations) was voted by the city council Tuesday night following second reading of the measure.

At the same time the council passed a resolution authorizing the Metropolitan Water District to collect its annual assessment over the entire city at the rate of 40 cents per \$100 assessed valuation.

### Mayor and Chamber to Plan Dinner

Mayor William H. Tolson was authorized by the city council Tuesday night to act with the Chamber of Commerce directors in planning a dedicatory dinner to open the new Civic Administration building now under construction adjoining the Civic Auditorium on El Prado.

"Dummy" Police Serve  
FALL RIVER, Mass. (U.P.)—Life-sized wooden effigies of traffic officers are stationed in the road in front of the public schools here with "Go Slow" warnings attached.

### First Flights Made on New Cross-Country Air Route.

The photo at left shows one of T. W. A.'s airliners on a survey flight over the new southern coast-to-coast air route from San Francisco to the East. The plane is shown here as it passes over Meteor Crater, near Winslow, Ariz. The new route also will include flights over the Grand Canyon, Yosemite and Sequoia national parks. At right is Miss Lois York of Atlanta, Ga., who took the preview flight in her capacity as "Miss Aviation, 1937."

### HARBOR EXPO SITE ONE OF 17 IN RACE

Having made what he later learned was one of the most impressive presentations of proposed sites for the 1940 Los Angeles Trade exposition on behalf of the "Figueras-Vernmont-Normandie-Midway" locale north of Torrance, Secretary L. J. Gilmeister eagerly scanned Los Angeles newspaper reports of subsequent action this week.

The entire matter of selecting a site for the \$35,000,000 exposition is now in the hands of a Los Angeles Committee of 15. The final choice is to be made by the Los Angeles Bureau of Water, Light and Power, it is understood. There were 21 proposals submitted to the Committee of 15 but four were eliminated almost at once.

"Two were found to be not in the Los Angeles city limits and two others did not meet the minimum requirement—at least 300 acres," Gilmeister said Tuesday. "Others are to be weeded out because they lack some other desirable essentials. Then I expect, from what I have heard, that citizens of Los Angeles will be called upon to vote for a choice."

The Harbor district offer embraces 333 acres, with a 1,000 additional acres adjoining which would be available for use, all within the Los Angeles city limits. Full details, even including several hundred feet of motion picture film especially taken on the scene for the purpose, were submitted to the Committee of 15 by Gilmeister on behalf of the South Los Angeles Exposition committee.

### Amend License Law; Regulate Trailer Camps

Two new ordinances were adopted by the city council Tuesday night and will become effective within 30 days. The first pertains to the business license law and amends that measure to include a license fee of \$5 per year for certain firms having only one employee. A second change in the license ordinance provides for the collection of a \$120 yearly fee from persons or firms dealing exclusively in the sale of used cars. Such persons or firms must post a \$2,000 bond with the city.

The second new law regulates the establishment of trailer camps in Torrance. Such camps must accommodate from 20 to 25 trailers with ample ground space, all necessary sanitation facilities and meet certain specifications to be adopted by the council. The city governing body has the sole power to issue permits for operation of such camps.

### Car Thieves Concentrate On Light Equipment

Petty thieves who operate as car-strippers in this vicinity appear to be concentrating on spot-lights and fog-lights at the present time, judging from police reports. Here are two thefts reported during the early part of the week.

Percy Phoenix of 1504 Acacia had two amber fog-lights removed from his car while it was in the garage at his home. The door to the garage was unlocked.

A. W. Daniels of Los Angeles lost his nickel-plated spot-light when it was removed from his car while he was attending the nightclub game Monday at the city park diamond.

### Steel Plant to Open Restaurant

As a part of the employee welfare program of the Columbia Steel company, E. M. Barber, general superintendent of the Torrance plant, announced today that a restaurant will be opened at the local plant next month. The purpose of the plant restaurant, Barber explained, will be to furnish good food to employees at a minimum cost.

The restaurant will accommodate 60 people and will operate on a 24-hour basis. Arrangements have been made to lease the restaurant to an experienced operator, the superintendent stated.

Dog Saves Dog  
BAD ISCHL, Austria (U.P.)—The hero of a local dogdom is a little dachshund which rescued a fox terrier pup playmate when the small animal was drowning.

### Highway of Many Names May Soon Have But One

Proposal that the name of "Pacific Coast Highway" be applied to that section of state highway No. 60 recently completed through Wilmington and Harbor city, in the city of Los Angeles, was pending today before the city planning committee of the Los Angeles city council.

As soon as the Los Angeles city council gives its approval, the city of Long Beach will be asked to change the name of that section of the highway within its city limits, where it is now known as State street. Simultaneously, a similar request will go to Torrance, where the important state highway extends through the southern part of that city under the name of Wilmington-Redondo boulevard, and often referred to as Sepulveda boulevard or Roosevelt Highway at the western edge of the city, where it extends through Redondo Beach. Cities all along the route,

### R. R. Express History Rotary Topic Tonite

"The History and Development of the Railway Express," will be the topic of an interesting talk to be given tonight at the Torrance Rotary club by B. V. Fansler of the traffic department of the railway express at Los Angeles. William Bratton, local Pacific Electric agent, arranged the program.
