## For Women and Children Only!

The latest development in new, lightweight stainless steel chair cars now being placed in service on the Santa Fe's Scout—for exclusive use of women and children passengers. Of the same size as the 80-seat standard chair cars, the new cars are roomier, the seating capacity being limited to only 52 passengers, and air-conditioned and spotlessly clean. A uniformed registered courier-nurse assists Mothers traveling with babies and children on this train.

Interior showing restful, re-  
clining chairs, broader windows,  
individual lights, and new type  
baggage racks.

Dressing rooms and lounges of the new chair cars

Pullman cars.

## Four-Month Strike Brought by Laundry Union Said Near End

If the four-month-old strike  
directed at the Torrance Lau-  
ndry and Dry Cleaning company  
by C. I. O. laundry workers is  
not a thing of the past; at least  
it is near a voluntary end on  
the part of the strikers, it was  
learned yesterday and today  
from sources close to the union.  
At the same time, President

William Rojo of the laundry  
concern, revealed that he has  
employed three of the former  
strikers and Monday expects  
two more to return to the jobs  
they left May 28.

At a meeting of the striking  
workers Tuesday night at the  
union headquarters on Cabrillo  
avenue off Carson street, the  
matter of strike-relief funds  
from other C. I. O. unions, four  
or more weeks over-due, was  
the principal topic discussed and  
several present are reported to  
have declared in favor of call-  
ing off the controversy. Three  
of the workers who have taken  
leading parts in the strike  
were in Los Angeles yesterday  
confering with Mike Shulman,  
C. I. O. laundry workers' union  
head, about the missing relief  
funds. Shulman would make no  
statement to The Herald for  
publication.

"The workers who have re-  
turned to their jobs appear to  
be very glad to get back on  
our payroll and we are happy  
to have them with us once  
more," Rojo said yesterday.  
"They are very proud of their  
jobs and we are expecting more  
to return in the next few days.  
We have experienced no trouble  
with the few strikers on the  
picket line during the past sev-  
eral weeks and are confident  
that the whole difficulty is now  
at an end."

## Iris Brand Is Symbol of Food at Best

How long must a home-maker  
study in order to become an ex-  
pert in selecting foods for the  
table? The answer is many  
years, unless she is wise and  
takes the shortcut which mod-  
ern food packers have provided  
for her. The study is a long  
and tedious one, otherwise, and  
one that, even when mastered,  
does not provide means for as-  
suring choicest vegetables and  
fruits.

Now, here's where Iris foods  
come into the picture to save  
the day for the particular pur-  
chaser. Iris foods are not only  
selected by experts who have  
devoted a lifetime to finding out  
just where everything grows  
best and tastiest, but they are  
picked and packed at just the  
right time to assure you of the  
finest qualities.

The staff of Iris food buyers  
are never satisfied with accept-  
ing a substitute for the very  
peak of quality. More than that,  
they do not have to accept in-  
ferior quality, because they are  
constantly in touch with all sec-  
tions of the country and know  
when a crop is better one place  
than another. They then pro-  
ceed post haste to that section  
of the country and buy the crop  
for Iris.

**September Total**  
**\$21,436; Year**  
**Is \$1,017,481**

New construction in Torrance  
during the past nine months of  
this year more than tripled  
building here for the same pe-  
riod in 1936.

The wave of construction that  
began swelling over this city  
from the first day of January  
has already passed records for  
every full year up to 1928 and  
if the sound of hammers and  
saws maintains its crescendo for  
the remaining three months,  
that year's total will no longer  
be the all-time title-holder for  
new building here.

September building, smallest  
of the year so far, amounted  
to \$21,436, bringing the total for  
the past nine months up to  
\$1,017,481 as compared with  
\$321,334 for the same period  
last year. The whole year of  
1936 saw but \$153,976 worth of  
construction here and 1928's re-  
cord of \$1,668,979, is almost cer-  
tain to be discarded before 1937  
finishes its career.

The comparative monthly fig-  
ures for this year and 1936 are:

During this month there were  
five permits issued for new  
homes, five for alterations and  
repair jobs, two for private gar-  
ages, one for an oil derrick and  
one for a sign.

City Engineer Frank Leon-

ing building permits during the  
past week: for five six-room  
frame stucco residences and gar-  
ages, costing \$5,175 each, to  
Evelyn and S. H. Yarian of Los  
Angeles; for a re-roofing job  
on a house at 1724 Andreo ave-
