BUY AS CAREFULLY AS WILLARD BUILDS

No battery is built more carefully than a Willard. In fact, every Willard Battery must pass 74 inspections before it leaves the plant. That's one big reason why Willard Batteries so consistently outlive and out-perform ordinary batteries.

When you buy your next battery, choose carefully. Other batteries may look as good as a Willard, but don't jump to the conclusion that like appearance means like performance. Find out what's INSIDE the battery before you buy.

Would Restrict Jobs to County Residents

Employers in Los Angeles county will be urged by the L. A. chamber of commerce to "keep Los Angeles" jobs for Los Angeles residents in cooperation with a move launched recently by the board of supervisors.

The chamber also asked that the county enforce rigid restrictions denying relief to non-residents of the county, because new arrivals and "outsiders" are causing a heavy expenditure for relief, while some are competing with the persons who now pay taxes to the county.

Wheels Stripped From Stolen Car

A roadster, stripped of all four wheels and tires, was reported to police yesterday as being on South Western avenue across the street from the smelting works. Police learned it had been stolen in Los Angeles Tuesday night.

Find Oil Traces On P. V. Slope

Oil production possibilities on the north flank of Palos Verdes took a forward step Tuesday with the finding of streaks of oil sand below 1,100 feet in Rolling Hills Petroleum's wildcat on Highway 101 between Redondo and Waverly.

The test is reported 800 feet west of McClaren No. 1, which yielded small amounts of oil for a short time from 1,625 feet. Marie Humphries, one of the first women to take charge of drilling operations in the state, is supervising the work.

HAS GASOLINE STOLEN
Leslie Prince, local druggist, reported late last week to police that the gasoline tank of his car was drained while it was parked in the alley near his home at 1618 Acacia street.

Letters to the Editor

THOUSANDS AIDED
Editor,
Torrance Herald:

The Tenth District Publicity Director wishes to extend her most heartfelt thanks to all the club and sports editors and reporters who co-operated so magnificently in publicizing the Annual P.T.A. Football Carnival. Thousands of undernourished children in our public schools will be aided by milk and hot lunches purchased with the funds raised by this highly successful carnival.

(Signed) Mrs. H. R. Williams.

Christmas shopping and wet weather combine to make November and December the most dangerous months of the year.

Although the holiday season usually is associated with happiness, tragedy often strikes as the result of heavy street traffic and pedestrian movement.

Approximately 24 percent of all 1936 Los Angeles county traffic fatalities occurred in the last two months of the year. Largely responsible for the heavy death toll was the increase of accidents involving pedestrians.

Increased alertness and obedience to law on the part of both motorists and pedestrians are needed if any reduction in holiday accidents is to be accomplished.

Pedestrians are urged to look both ways before crossing a street. Avoid jaywalking and stay inside the pedestrian lanes. In wet weather play safe and make greater allowances for stopping distances required by vehicles on the slick streets.

Motorists and pedestrian alike can do his part by remembering that the Christmas spirit should be radiated, not consumed.

You Need Permit To Cut Yule Tree

Don't plan on going to the mountains to cut down a free Christmas tree. Officers have been appointed this year to apprehend persons having illegal possession or engaged in cutting Christmas trees on national forest lands without written permission of the U. S. Forest Service.

Several trespass cases were successfully prosecuted last year because defendants failed to secure permits before cutting trees. There are areas in several forests where tree cutting is allowed but a permit is required in all cases.
