City's Share of Liquor Fees Is \$861

Cities and unincorporated areas in Los Angeles county will receive a total of \$823,173.19 as their share of fees derived from liquor licenses during the last half of 1937. On the basis of actual licenses issued, Torrance will receive \$861.77.

From the standpoint of the state as a whole, the allocation will amount to \$991,962.33. This represents 50 percent of the total fees earned during the last six-months period of 1937. The state's share of this income, after administration costs are deducted, goes into the general fund.

KOCH NOT QUITTING BUSINESS

To emphasize the fact that he is NOT quitting the furniture and home furnishings business, J. C. Koch, proprietor of the Star Department Store is offering some exceptional Easter values from his enlarged furniture stock. Koch recently sold his stock of clothing and shoes to a firm of liquidators who are now conducting a closing out sale of these departments at The Star, but Koch wants it distinctly understood that The Star is continuing in the furniture business with an enlarged and more diversified stock of home furnishings.

Firestone Dealer Has New Tire

To meet the needs of millions of motorists who are demanding a new high quality tire at a low price, the Firestone Tire & Rubber company announces the introduction of the new Firestone line of tires, Don Miller, Torrance Firestone Station manager, stated today.

Offered in a complete range of sizes for passenger cars and trucks, the Firestone Convoy Tire incorporates all of the famous Firestone safety features. The patented Gum-Dipping process is employed in its production. Every cord in every ply is saturated with liquid rubber to minimize internal friction and heat. This adds nine pounds of rubber to each 100 pounds of cord and provides a "commensurate measure of extra protection against blowouts."

Further emphasizing the top quality rating of the tire is Firestone's patented construction feature of two extra layers of Gum-Dipped cords under the tread. This not only strengthens the tire, but also acts as a safeguard against punctures.
