### Thrifty Buyer Praises New Firestone Tire

"When Kenneth Sutherland, who served four years with the 13th Canadian Black Watch, first saw the new Firestone Convoy Tire, he was amazed that he could obtain such value at the low price at which it is offered to the public," said Don Miller, manager of the local Firestone Auto Supply & Service store. "Motorists everywhere are saving 25 percent with this new high quality tire at a new low price," said the local store manager. "With every facility of its huge factories, warehouses and plantations in full operation, the Firestone Tire & Rubber company has been able to save money at the source of supply, in the manufacturing process and through its efficient distribution methods. These savings have been passed along to the motorist in the form of lower original costs."

### Two Stick-Ups In Palos Verdes

Torrance police as well as officers of Redondo Beach, San Pedro, Gardena, Wilmington and deputy sheriffs were notified Saturday to be on the look-out for two young men who held up and robbed a man and a young woman near the Hollywood Riviera clubhouse early that morning and then, a half hour later on the Lomita road in Palos Verdes Estates, staged another stick-up. The second victim was a Hermosa Beach resident.

The first robbery was about 1 o'clock in the morning, according to information received here. Ed Wagoner and Betty Earl, both of Los Angeles, were robbed of their valuables and keys to Wagoner's car. A few minutes later Leonard Chester of Hermosa Beach reported that he had been held up and robbed of a small amount of money as he was driving along the road that runs thru the Palos Verdes Estates and comes out in Lomita.

The victims agreed that one of the bandits was about 25 to 27 years old, had light hair, was wearing a leather jacket and dark trousers. The second one, they said, was about the same age with dark hair and a thin-looking face. Both were believed amateurs in robbery and they were driving a black Ford coupe or sedan. In both robberies not much over \$10 or \$12 was obtained.

### Lomita Students Raising Chickens

A chicken raising experiment by three boys in the agriculture classes at Narbonne high school is proving to be a highly successful project. Bob Biller, combining good care with an equal amount of luck, has managed to raise his 70 chickens without a single loss. They are almost a month old, and with good care he expects to market all 70.

Wade Sherman was the unluckiest of the boys. When the heat in one of his boxes went out at night recently, 15 of his chicks died. Bob Goss is having better than average success, losing only five out of 60 he started with. The boys will take their chickens home this week.

The boys undertook the project by an agreement that the Future Farmers club would furnish the feed for six weeks, if the chicken raisers furnished their own feed after that period. When the chickens are large enough, the three boys plan to donate enough of the fryers to satisfy the appetite of the Future Farmers at a chicken fry to be held at the Lomita school's barbecue pit.
