Niteshirt Game Tuesday

TWO BALL CONTESTS ARE FREE

Have you ever seen some of our most dignified business and professional men running around in old-fashioned nighties?

Of course you haven't—but you will next Tuesday, night, 8 o'clock at the city park ball diamond—and it won't cost you a cent!

All arrangements are being completed today for the "Niteshirt game" between a group of local business and professional men and a team representing Torrance factory workers. This costume-contest will precede a "regular" softball game between teams representing the Torrance high school alumni and the city recreation department.

Want Big Crowd

There will be no admission charged for both spectacles. The Torrance Coordinating Council is sponsoring the entertainment at the city park to introduce the first annual "Factory Frolic" which will be held here Oct. 28, 29 and 30.

All players in the "niteshirt game" will be required to don the old-fashioned long nightgown and house-slippers. The Coordinators hope the park ball field will be jammed to capacity by fans who will wear for the first time the detailed program which has been arranged for the "Factory Frolic."

Bowling Standings

WOMEN'S LEAGUE		
Team	Won	Lost
20-30 Club	33	18
Shamrock Beauties	35	21
Burnett's Beauties	34	22

MEN'S LEAGUE		
5-Point Cafe	32	20
Triangle Machine	29	23
Miller Transfer	21	31
Hawthorne Elites	20	32

Berry Harvest Nearing End

Practically all of the second crop of local strawberries has been picked and the volume of young berries, Boysenberries and other bush berries is decreasing, according to the monthly crop report of the county agricultural department. Returns on this year's celery crop were exceptionally low and the crop was sold in California markets.

Home ownership made easy!

Build or buy through FHA
... repay the Timeplan way

WHEN you arrange a Bank of America FHA Timeplan loan, you establish a credit relationship for every other personal or family financial need. Then, too, when you borrow to buy or to build through Bank of America, you benefit through the vast experience which this bank has acquired in financing one hundred million dollars under FHA—the greatest total for any bank in the nation.

If you are planning to buy or build, you will find it helpful and profitable if you first see Bank of America—the branch in your neighborhood.

BENNETT TAKES LEAD IN PISTOL SHOOTING HERE

Smoke-Eaters And Cops to Play Ball

A challenge flung by the police department was immediately accepted by the fire department and on Aug. 15 one of the two units will be able to claim the softball championship of the city's public safety department.

Providing, of course, that Director John Stroh is able to keep the peace in his role as chief umpire of the game to be played at the city park. No admission will be charged. The teams will be limited to home fire members of each department.

Zamperinis May Enter Meet in L. A. Sunday

The annual Industrial track meet, which will be staged at the Los Angeles Coliseum next Sunday afternoon, may exhibit both of the Zamperini brothers—Pete and Louie—in some of the events. Pete has told friends here he expects to enter the 220-yard dash and efforts are being made by those in charge of the meet to get Louie to run in a special 1,500-meter race.

Bill Gill, former Fresno State track star who has many friends here, is also reported entered in the Industrial meet which is open to any amateur athlete. Gill lives in Wilmington. A number of former U. S. C. track luminaries are also expected to participate.

Louie Zamperini has not broken training—a distance runner can't get out of condition if he wants to remain a distance runner—and is now training to compete in the 1940 Olympics in Finland.

Local Tennis Club Member Wins Title

Members of the Torrance Tennis club are congratulating their first champion this week. She is Louise Shanahan, who won the women's single title for the Harbor District at a tournament concluded last Sunday at San Pedro's Peek park.

Miss Shanahan defeated Billie Ann Niland of Redondo Beach, who is also a member of the local club, 6-3, 7-5 to win the top rating.

County Supplying Revamped Footgear To Own Indigents

Output of the county rehabilitation division's shop now is sufficient to recondition footwear for the entire clientele of the bureau of indigent relief, according to E. L. Duffy, manager of the rehabilitation division.

Production of the division, which now is under jurisdiction of the charities department, has been tripled during the past six months. The division now averages 150 jobs daily.

Indigents now may have immediate service on shoe repairs, or they may exchange the old for reconditioned footwear. The shoe shop also makes sturdy work gloves by facing cotton gloves with leather strips, and repairs footballs, basketballs and other play equipment.

Cats Belled by Law
VULCAN, Alta. (U.P.)—Cats in Vulcan haven't tasted bird meat for some time now. A new law insists that cats wear bells about their necks.

TORRANCE

If Motor Officer Percy Bennett continues to "pour lead" into bulls' eyes at the Torrance Pistol club range for the next 11 months as he has done so far this fiscal year he may break Marion Freeman's first place rating of the past two years. Bennett, according to records compiled by Statistician William H. Stanger, shot 21 strings for an average of 273.48 points last month. Freeman, defending champion, fired three strings for 280.33 points.

In third place Henry March with 13 strings and Statistician Stanger with five strings are tied with an even 270. Hugh Ekersley, 17 strings for 289.94, is fifth. The next five high scoring members of the Pistol club are: Dr. John Beeman, five strings, 269.40; Henry Van Gorder, 21 strings, 267.86; Ollie Modicus, 14 strings, 267.71; Loren Maddux, 16 strings, 266.06; and Ralph Grant, five strings, 264.60.

Miss Doris Ekersley, 16-year-old daughter of Pistolier Hugh, holds 30th place in the month's tabulations with five strings for 225.60. Mrs. R. Moore, in the "not qualified" group shot one string and scored 223 points. Following the leading ten marksmen, other members of the Pistol club scored as follows for the month of July:

Member	St.	Av.
De Bra	14	264.24
Ashton	29	263.89
Green	22	263.86
Moore, R.	9	260.30

Fishing Improves In High Sierras

Trout fishing in both streams and lakes throughout the High Sierra region is improving and should be at its best this month. Reports received from various popular resorts in this fishermen's paradise indicate that the back country is now opening and for those not wishing to pack in, conveniently accessible lakes and streams are now offering fair to good results. Mosquitoes are still to be contended with at the average elevation in the High Sierra region.

LAKE HENSHAW FISHING SHAD

Good fishing has been enjoyed by sportsmen at Lake Henshaw for the past few weeks, with many fine catches of bass, crappie and blue gill brought in. Mudsuckers and artificial lures are best for bass while worms and "go-getters" have been successful for crappie and bluegills. More than 150 row boats are available for fishermen at popular rates, also outboard motors are for rent. Prospects for continuation of good fishing are reported excellent.

Venice Plans Annual Mardi Gras, Aug. 11-14

The mammoth fourth annual Mardi Gras celebration at Venice, August 11th to 14th inclusive, will be a spectacular four-day festival of open air acts, street dancing, gay parades of colorful floats, evening romps of revelers, fireworks, the famous "Miss California of 1938" bathing beauty parade and revue for sections of California's representative at the Atlantic City national "Miss America" competition and many other attractions. The above scenes depict some of the numerous merry-making events of the Venice Mardi Gras for the entertainment of young and old alike. Pacific Electric trains run at convenient times between Los Angeles and Venice, and the low roundtrip and commutation fares from all communities to Los Angeles via Pacific Electric and Motor Transit Lines make this a great opportunity for fun at the beach in surf and sand with the additional Mardi Gras attractions.

Six Patients Enter Hospital

Six new patients were received at Torrance Memorial hospital during the past week. Charles T. Rippy, former city attorney, entered last Friday morning for an appendectomy. He is making a good recovery but has not been allowed to receive visitors as yet.

Mrs. Emma Allgood, 1732-B Cabrillo, underwent an operation last Wednesday and is reported improving nicely. Mrs. Myrtle Cokely of the C.C.M.O. community, wife of F. W. Cokely, shop worker, entered Saturday for medical treatment. Mrs. Mary Henry of Harbor City has been undergoing medical care since last Wednesday.

Mrs. Christine Rittmiller, 1929 Carson street, wife of Harold Rittmiller, employed at Grubb's Market, was received Tuesday for surgery. Esther Paintmaier, 13 years old, of Wilmington, entered Saturday for an appendectomy.

Well, Folks . . .

Some hot weather! But we don't care. We got lots of good Garden Hose and Sprinklers. Just wet everything down in the evening. You will sleep then.

And Mr. Fisherman . . . we got the tackle. You go and get the fish. There are lots of big ones out there in that pond.

Ladies: Those Thermos Bottles are so fine to carry on that picnic lunch.

And some folks are painting the shady side of their house these hot days. Of course, it's SHERWIN-WILLIAMS PAINT!

Trade In Your Worn, Smooth Tires On NEW Firestone's Today!

EQUIP YOUR CAR WITH THE SAFEST TIRES MONEY CAN BUY

A RECENT survey indicates that 59 million tires now in use are, or will become smooth during 1938. Last year more than 52,000 deaths and injuries were caused directly by punctures, blowouts and skidding due to smooth, worn, unsafe tires. Protect yourself and family. Help prevent this terrific toll of highway accidents by making your car Tire-Safe with Firestone Triple-Safe Tires with this three-way protection—

1. Protection Against Blowouts. Firestone Tires run up to 28 degrees cooler, because every cord in every ply is saturated with liquid rubber by the Firestone patented Gum-Dipping process. This counteracts the internal friction and heat that ordinarily cause blowouts.

2. Protection Against Punctures. Two extra layers of Gum-Dipped cords under the tread add strength to the tire and give extra protection against punctures.

3. Protection Against Skidding. The scientific tread design gives longer non-skid mileage and stops your car up to 25% quicker.

Join the Firestone SAVE A LIFE Campaign during National Tire Safety Week by equipping your car with a set of new Firestone Triple-Safe Tires—the safest tires that money can buy.
