

Liquor License is Denied Local Club

Revocation of eight Los Angeles county liquor licenses, suspension of 10 others and denial of 18 applications for licenses has been ordered by the state board of equalization. A license was denied the Border club of Torrance because of asserted misrepresentation of fact in the application.

"Ever hear the story about the dear old lady at Christmas time?"

Mrs. Fussenfume was a lovely little old lady who always thought of everyone at Christmas. She gave nice gifts and everybody looked forward to receiving a present from her. But Mrs. Fussenfume had a mind as sharp as a tack and she drove the clerks to tears with her so often repeated phrase... "I want just the right gift."

All that was long ago, however, because for years now Mrs. Fussenfume has been the easiest person in the world to wait on... you see she learned to shop at the BEACON DRUG for "just the right gift!"

Certainly the BEACON cannot offer tons of gifts like Macy's in New York... but every Christmas it does have a large and selected choice of GOOD gifts, RIGHT gifts... and what's important... MODERATELY PRICED gifts!

If you're a "Mrs. Fussenfume" you, too, should learn the advantages at Christmas shopping at the BEACON.

Pueblo Urgently Needs Renovation

(Continued from Page 1)

home conditions are similar to those we observed.

True, families whatever their nationality have the power to keep themselves clean. But how are you going to keep fresh without baths and bathrooms are at a premium in the Pueblo.

One woman whose house we visited, told us she had lived there for more than 10 years and never had a toilet or bath facilities.

Offer Poor Protection
The garbage collection service is equal to that provided by the city in the rest of Torrance. The back yards are not overly clean and could be vastly improved.

One sewer line was apparently out of order and was allowing stagnant pools to collect under and beside some of the dwellings.

Shacks which had received an interior covering of well-board were fairly impervious to drafts but there were a number of places whose bare walls allowed too much ventilation.

Knot holes and wide cracks made those dwellings cold even late in the morning.

The general trend of reports from Pueblo residents we interviewed indicated a desire for better living conditions—not much improvement but just enough to give them shelter without leaking roofs, solid walls to keep out the cold nights and bathtubs.

Constant Fire Hazard
There is considerable overcrowding—families of six or more living in three small rooms. How they pack them in is still a mystery to me but they do it.

Kitchens, as such, are almost non-existent. Food preparation is done in either one corner of a living room or else performed in

shed-like additions to the dwelling. Drop lights with one yellowish lamp provide a murky illumination.

Rev. Lingenfelter believes that the Federal Re-Settlement Administration would cooperate in improving Pueblo conditions.

He thinks that if the city council would take direct action, such as authorizing the county department of health to make a survey and recommendations, the single tenement section of Torrance could become nothing but a noisome memory.

HEALTH OFFICER CITES DANGER FROM HOUSING

Claiming poor housing and overcrowding forces them into close contact with tuberculosis, Dr. J. L. Pomeroy, Los Angeles county health officer, has revealed that 25 percent of the active cases of tuberculosis in Los Angeles county area has occurred among Mexicans.

"The incidence of tuberculosis among Mexicans is in no way a reflection upon the character and make-up of the Mexican as a citizen. In many respects we find these persons especially responsive to our public health work, and especially obedient to our rules and regulations. It is the circumstances connected closely with their economic status which tends to force them into poor housing and close contact which makes the spread of the disease so rapid," Dr. Pomeroy declared.

While only seven or eight percent of the population is Mexican, it was shown during the fiscal year 1937-38 that, out of 2,087 new cases of tuberculosis of the lungs, there was a total of 481 Mexicans. Of 562 deaths from tuberculosis during the fiscal year 1937-38 there were 102 Mexicans, or approximately 20 percent. About one half of all the cases developed within three years of their becoming residents of this county.

Another fact Dr. Pomeroy pointed out as being particularly important is the tendency of tuberculosis to spread among persons under 20 years of age, namely children in a Mexican family, where one or another parent is affected. Considering cases for the entire group under 20 years of age, 55 percent of all cases were among Mexicans, it was revealed.

Frosh is senior EVANSTON, Ill. (U.P.)—At Northwestern University, a frosh may be either a junior or a senior.

Stanley Frosh, from Denver, is a junior; his brother, Alvin Frosh, is a senior.

Store Building Being Erected in Lomita

Construction of a new store building adjacent to the Telephone building on the south side of Lomita boulevard east of Narbonne has been started by W. J. Haneline. The new structure is designed to accommodate two or more stores whose interior arrangements will be completed upon leasing to prospective occupants, it is reported. This is the first business building started at the Narbonne-Lomita corners in several years. It will have a stucco finish on its 48-foot frontage.

Honor Former Lomita Teacher

In honor of Miss Hilda Jellison, who served as principal of Orange Street school in Lomita for 15 years, a pot-luck dinner-meeting, arranged by the P.T.A., was attended by many parents, former pupils and community leaders Tuesday evening. Mrs. Earnestine Manette, who succeeded Miss Jellison as principal this semester when the latter was transferred to the 92nd Street school, was a guest at the party.

History Lives In 'Antoinette'

"Marie Antoinette" as it will be revealed at the Plaza theatre in Hawthorne today, is a triumph of the motion picture art. More than that, it is a triumph for Norma Shearer.

Magnificent in its pagantry, with eye-filling beauty of brilliant costume and setting, flawlessly cast with such famed film names as Tyrone Power, John Barrymore, Anita Louise, Joseph Schildkraut, Gladys George and scores of others, these are secondary to Miss Shearer's absorbingly-human interpretation of a woman's sometimes carefree, oftentimes desperate, seeking for happiness.

The story has gripping power on the screen because it is so simply told. Miss Shearer's "Antoinette" is a girl eager to be in love and to be loved, who finds herself married to a morose husband, a role superbly played by Robert Morley, young English actor making his first motion picture appearance. When he fails her and his country through weakness of mind and spirit, she seeks escape in new pleasures and dangerous flirtations. But in the end, she cannot escape her destiny as the last Queen of France.

Director W. S. Van Dyke II, not content with merely scratching the surface of history, has probed deeply into the hearts of his fascinating characters, and gives them vitality and realism as people motivated by desires, hates, loves and ambitions, no different from those of today.

Jacobs Appointed Rural Carrier for Lomita P. O.

Postmaster Birda Paddock has been notified of the appointment of Gordon S. Jacobs as rural carrier out of the Lomita post-office, to take effect Nov. 28. Jacobs will take the place left vacant by the death of Otis Peterson who was killed in an automobile accident.

Jacobs is well known in Lomita where he lived as a boy and attended the public schools.

His wife, the former Miss Adelaide Groover, is a member of an old established family there.

Since the death of Peterson, George Schmidt, Lomita florist, has been acting as a substitute carrier and was highly commended by Postmaster Paddock for the excellent service he maintained. Schmidt will continue to act as an auxiliary service man during the Christmas rush.
