

TOY LOAN LIBRARY IN NEW SITE

While city street department workers under the direction of Superintendent "Andy" Gascoigne were moving her Toy Loan headquarters and Girl Scout building from its El Prado location to Madrid near Carson, Mrs. Maude Messner, the toyarian, sat in her car yesterday afternoon answering questions from a score of wide-eyed youngsters.

"Yes, we're going to have a new location," she told her eager questioners who were alarmed because of their toy center was being moved away. "We'll have our Toy Library on Madrid just a short distance off Carson street and will continue our toy distribution there."

"You can bring your toys back to me at my car here where the Toy Library used to be all day Friday and Saturday. I'll be at our new location, ready to loan you any playthings you like."

"Why are they moving the building? Well, I'm told that the owners of the land here on El Prado, the Dominguez Land company have sold these lots so that homes can be built on them. Now the city of Torrance is moving our Toy Library to some city-owned property on Madrid and we'll continue our work there."

Taxpayers Seek Revival of 10 Payments Plan

Agitation has been started for legislation to reinstate the 10-payment plan of paying delinquent taxes, which expired last Aug. 20, according to reports this week at the Hall of Records.

County supervisors have received a letter from the Pacific Land and Title Company of Hermosa Beach, subdividers of the Redondo Villa Tract, where there are a number of parcels that have been sold to the state for non-payment of taxes.

Taxpayers now are required to pay interest at the rate of one percent a month from date of sale of the property to the state, to date of redemption, plus costs of advertising and whatever penalties are imposed by law, amounting to eight percent on first installments and three percent on second installments. Property is sold to the state in July of each year for non-payment of current taxes.

Payments Show Decrease
The Hermosa Beach concern is one of several that has urged the 10-payment plan be reinstated. Several hundred property owners in the tract would benefit greatly, because many persons are not able to pay the penalties on top of the delinquent taxes, as it would leave them no equity in their holdings, the latter explained.

Indication that the discontinuance of the 10-payment plan is affecting the ability of property owners to redeem their property was seen today in reports from the tax collector's office that October payments had dropped to \$692,103, as compared with \$1,108,986 for September, and \$1,092,588 for August. Many payments received during August were not credited on the books until September.

CHANGE SUPERVISION
Jurisdiction over the Torrance relief garden project was transferred from WPA to SRA this week. There will be no loss of vegetables already under cultivation in the large garden north of the Columbia Steel plant.

AT JOINT MEETING
Members of the Lomita Amaranth lodge attended the reception and meeting in honor of the order's grand royal matron at Redondo Beach last night.
