### Yule Seal Sale Now In Progress

This week 16,000,000 Christmas Seals will be received in the mails by residents of Los Angeles county. Thanksgiving was the official opening day of 32nd annual Christmas Seal Sale of the National Tuberculosis Association, of which the Los Angeles County Tuberculosis and Health Association is the local representative. Every authentic Christmas Seal is identified by the crimson double-barred cross of the National Tuberculosis Association. Funds raised by the Christmas Seal Sale help to finance tuberculin skin tests, chest X-rays and nutrition conferences in the public schools of Los Angeles county.

"Since the first Christmas Seal sale in the United States in 1907 the death rate from tuberculosis has been reduced to one-fifth of its terrible yearly toll," states Miss Leslie Jones, executive secretary of the Los Angeles County Tuberculosis and Health Association. "However, despite the progress made in the control of tuberculosis, it is still a leading cause of death in California."

"If every four consecutive years every high school student could be checked by means of a tuberculin skin test and chest X-ray where necessary, much progress could be made toward stamping out tuberculosis," states Miss Jones. "Every Christmas Seal bought and used is a step towards this goal and a pledge to protect the home from preventable disease."

### Rooney Rides to New Record

Mickey Rooney rode a race horse to a new track record during a workout at Hollywood Park prior to the championship race as Wallace Beery stood on the rail and clocked the time.

It was the opening scene for "Stablemates," now showing at the Plaza theatre in Hawthorne, which was filmed at California's newest racing plant at Inglewood.

Spectators, touts, owners, handlers, trainers, riders and followers were on hand to give the sequence the realistic color of a large track during the season. All of the long shot scenes were filmed on Sunday and Monday because of racing on the remaining days.

Another track, a replica of Hollywood Park, was constructed on the sixty acres adjoining the M-G-M studios, so that close-ups could be filmed there while the regular track was open to the public.

Mickey arrived back from Nebraska, where he had been working in scenes from "Boys Town," just in time to start the new picture.

### Card Party Series Starts at Waleria

First of a series of Tuesday night community card parties was held this week at the Waleria recreation center on Park street and attracted a large number of residents of that area.

The card parties are in addition to the regular Friday night divy entertainments and dances held at the Waleria center, according to Dale Riley, city recreation director.
