

Oldsmobile Sales Show Big Gain

Final returns from the New York automobile show reveal that Oldsmobile retail sales in New York during the nine day period of the show were 52 percent greater than the auto show sales recorded there a year ago, according to A. Mullin, local Oldsmobile dealer.

"Reports received to date from other major auto shows also show substantial increases," said D. E. Ealston, general sales manager. "Retail sales of our new cars throughout the country are climbing sharply. The factory is working at capacity to meet the daily requests from dealers all over the country for additional shipments of new cars."

"Reports from the various automobile shows and from our dealers at other points indicate that Oldsmobile's new 1939 styling is meeting with general approval and that the 1939 mechanical developments are registering strongly as well. Among the latter, the chassis feature which seems to be attracting major attention is the new Oldsmobile

Suit May Bar Congressman from Holding Office

Claims that Mayor Thomas M. Eaton, of Long Beach, cannot resign from that office pending disposition of a taxpayer's suit naming him with other city officials and that consequently he cannot be sworn in as congressman from the 18th district, were advanced by Democratic party leaders this week.

The action, on file in Superior Court, seeks to recover some \$5,000 paid by the city to a company in which the mayor allegedly was sales manager and stockholder, for goods purchased by the municipality. A California statute forbids resignation of an elected official while he is facing either criminal or civil action involving his official acts, the Democrats asserted. Neither can a mayor be sworn in to one elective office while still holding another, the same source declared.
