"Woman's Face Is Focal Center of Her Ensemble" ..Alden Smith

Only when a woman puts her best face forward, a face that harmonizes with hat, dress and other elements of her costume, is her charm and personality expressed at best advantage, says Alden W. Smith, optometrist, quoting Betty D'Muriel, fashionist.

"A woman literally can have different faces to go with the various hats, dresses and coats in her wardrobe," says Miss D'Muriel. "Subtle changes in the color of lip-stick and rouge are often necessary to obtain the most harmonious effect. Slight variations in the use of eye-brow pencil or mascara can alter the general facial tone, imparting a freshness and a mysticism that intrigues acquaintances."

"Many smart women who wear spectacles—and most smart women do—now have wardrobes of eyeglasses of various types and designs which enable them to put their best face forward with any hat or costume. Clever shaping of lenses can produce subtle facial effects, bring out glamor, dignity or vivaciousness, as the occasion requires," continues Miss D'Muriel. "A woman with a spectacle wardrobe can have a half-dozen faces at her command."
