## COOKING RANKS HIGH AS MASCULINE HOBBY

MORE and more men are openly admitting that they enjoy cooking and are going for it as a hobby, according to Leo Nejeleski, one of the leading spirits in the restoration of man's primeval right to cook. "Not a week passes," Nejeleski says, "that I don't discover among my acquaintances and friends, more and more men who enjoy cooking. Some make a fetish of complex and involved foods. Others go in for simple dishes. But there is one thing all of them have in common—and that is the deep and sincere enjoyment they derive from the preparation of food."

LEO NEJELESKI

It is not necessary for a man to be able to cook any and everything to qualify as a cook, Nejeleski continues in an article entitled, "Come On In, Men—Cooking's Fine," in the May issue of Good Housekeeping Magazine. Many a reputation has been founded on the repeated and masterful preparation of one dish.

Nejeleski contends that the man who cooks gets more pleasure from eating. He opposes the idea that eating should be indulged in from habit and declares that a man does not have to be a gourmet to pamper his sense of taste. "Eating can be fun," Nejeleski says. "And it costs no more that way. Even a child enjoys his food more if he has some part in cooking and seasoning it."

Artichoke Bowl Happy

SALINAS (U.P.) — Monterey county, the "artichoke bowl" of the United States, is rejoicing over the prospects of an entirely new field and market for its "chokes." As a result of the inspiration of the landscape decorators of the Golden Gate Exposition to use artichokes in laying out its gardens, an increased demand has resulted for the plants.

FAMED JOCKEY WEDS STARLET... Jackie Westrope, 22, jockey who first gained fame in 1933 when he rode 301 winners—highest since 1908—and 17-year-old Nan Grey, movie starlet who were married in Phoenix, Ariz.

LEADS FASHION DISPLAY... As fresh and appealing as spring's sweet air, Chanel's white pique evening dress embroidered in white, with a spray of cutout pique flowers on the bodice, leads the fashion display in a recent issue of Harper's Bazaar. White pique gloves with daisies at the wrist complete this picture in white.

Cleanup Sale Just That  
CLEVELAND, O. (U.P.)—Mrs. Charles A. Otis, chairman of a "white elephant" sale conducted by the Cleveland Garden Center, took off her galoshes while working at the sale. When she looked for them later she found they had been sold for 50 cents.

Skill Without Sight Won  
EXETER, N. H. (U.P.)—Fred G. Carver had never handled a tool previous to becoming totally blind, but he is now so expert with the hammer, knife, chisel and saw that dealers keep him busy filling orders for his fine work.

## RELIEF AUDIT ASKED BEFORE FIXING BUDGET

An analytical audit of the county charities department's problems and procedures, which represent an expenditure of more than half the amount of taxes levied against local residents each year, is being sought by Superintendent Rex Thomson, of the department, according to a letter he filed with the board of supervisors today.

"May I suggest to you that the board of supervisors seriously consider requesting that an analytical comparative audit be made of this department's problems and procedures under the direction of the grand jury, or by such nationally respected professional organization as Public Administration Service of Chicago or by the California Taxpayers Association's governmental research division," he said.

## City May Offer L. A. Fire Service

A recommendation by John Stroh, public safety director, that the city offer to extend fire protection service into the Los Angeles Shoshone strip for \$5,000 a year, was made to the city council Tuesday night.

Stroh said that investigation showed the city fire apparatus made 61 trips into the adjoining Los Angeles territory from 213th to Plaza del Amo and between Western and Normandie avenues during the past five years. These runs cost the city about \$50 each, he said.

If such a contract was authorized, Stroh pointed out he would have to hire two more firemen. The council referred his recommendation to the city attorney for a report on the legality of such an offer at the next meeting.

## New Paint Can Resist Thermite Bomb's Heat

LONDON (U.P.)—A mineral paint that can resist the intense heat of a thermite bomb has been produced by the research chemists of Imperial Chemical Industries.

Actual tests have shown that beams and floors treated with the substance have remained undamaged after a bomb has burned itself out, while a similar structure, untreated, would be consumed by fire in less than half an hour.

All-American Fireplace  
SANTA CRUZ (U.P.)—An All-American fireplace is being built into Tanglewood cottage, residence of Mr. and Mrs. T. Schoneg. The fireplace will be composed of stones from every one of the 48 states of the Union.

# TONS OF BARGAINS

Smart housewives are no longer content with just 3 or 4 bargains! Today thirty people know that every item of the many hundreds of items on the shelves of A & P markets is priced so low that A & P literally offers tons of bargains every day. These bargains are possible because of A & P's policy of dealing direct with producers, buying in big volume, shipping the most direct and inexpensive way, by eliminating fancy fixtures and costly services! We pile up big savings, and share them with our customers. That's why we say A & P has the lowest! That's why housewives by the millions crowd A & P markets every day and get the most for their money.
