THE ONLY TIRES MADE THAT ARE SAFETY-PROVED ON THE  
SPEEDWAY FOR YOUR PROTECTION ON THE HIGHWAY

A merciless sun beat down upon the speedway as Wilbur Shaw drove to victory on Firestone Champion Tires. The blistering heat of the main stretch and the granite-hard surface of the turns and the back stretch put tire safety to the test supreme! Record after record was shattered. Speeds reached as high as 160 miles an hour on the straightaways, as 53 of the fastest drivers in the world waged a breath-taking battle for gold and glory.

Never before in all the history of the motor car have tires been put to such a tortuous test. And never before has any tire so firmly established itself as a Champion in construction and performance, as well as in name. Here is dramatic proof of the extra strength which the revolutionary new Safety-Lock cord body provides in Firestone Champion Tires—of the extra protection against blowouts assured by the new and advanced Firestone patented Gum-Dipping process—of the extra mileage resulting from the tougher, wear-resisting rubber compounds in the sensational new Gear-Grip tread.

No longer can there be any question of which tire is *safe*. One tire—and only one—provides these exclusive safety construction features. One tire—and only one—has been on the winning cars at Indianapolis for 20 consecutive years. Motor car manufacturers enthusiastically adopted the Firestone Champion Tire for their 1939 models. Order your new car equipped with this amazing tire. Or drive in and let us equip your present car with a set of new Firestone Champion Tires, the one tire—and only one that is *safety-proved* on the speedway for your protection on the highway.

Listen to the Voice of Firestone with Richard Crooks, Margaret Speaks and the Firestone Symphony Orchestra, under the direction of Alfred Wallenstein, Monday evenings, over Nationwide N.B.C. Red Network.
