Today, Mrs. Jamieson has learned, 134 colleges have been the recipients of the college set. The Carnegie Corporation also worked out a similar set for secondary schools.

Intended for high schools and public institutions, such as libraries, this set is none the less rich in subject material but is less specialized in content.

The Los Angeles County Public Library is one of the few public libraries to which this splendid gift has been granted, since, primarily, it was intended for schools and colleges.
