Our club celebrated its moving to the Moose hall with one of the finest free dinners ever served for a similar occasion. A good turnout of members from other clubs visited us. ### Hagberg Demands Held 'Poppcock'

To his campaign for abolition of the city dog tax, Joel Hagberg, Welteria resident, who was unsuccessful two years ago in his try for a city council seat, added a demand at Tuesday night's council session that Councilman John V. Murray "sign or face recall" for what he claimed were illegal activities around a polling place at the gubernatorial election last year.

But Murray, when Hagberg asked for a statement concerning his political activities, flatly informed the Walterian that "you haven't got all the facts and I'm not going to resign." And Mayor William H. Tolson characterized Hagberg's demands that the city "return all the monies collected from dog-owners, refund me the \$10 fine I paid for refusing to pay for a dog license and make a public apology for countenancing the dog-tax evil" as "all a bunch of poppcock."

The mayor said the city contracted with the South Bay Humane society for pound services and thus is freed of the expense of maintaining its own pound and employing dog-catchers and pound-keepers. The society issues dog tags, collects stray and deceased animals for the amount it collects in dog licenses.

### SOCIETY and Club

#### WOMEN OF THE MOOSE HAVE BUSY MONTH

September has been a very busy month, with the Publicity committee sponsoring card parties, a trip through the Herald offices, a special program which included a talk by Editor Grover C. Whyte, initiation of two candidates, Pearl Tower and Blanche Tower, and preparing the booth for the Factory Frolic Days with entire chapter taking an active part all three days, according to Auguste Barnett, publicity chairman.

The Women of the Moose have learned through their international activities that publicity is no dull subject, nor one that only those in the profession can appreciate. By following the recommendation for publicity work, established in 1927 by their Grand Recorder Miss Katherine Smith of Washington, D. C., the Women of the Moose have come to recognize publicity as one of the most vital and fascinating subjects of the day for the layman as well as the professional worker.

Because the Women of the Moose bases its program on the objective of serving the needs of homes and communities, everywhere, they endeavor to make available to all Mooseheart standards.

Senior Regent Katherine Gossiaux asks a good attendance for the regular meet, Oct. 6 as interesting reports by the library, Moosehaven, Mooseheart, and publicity chairman will be given.

The library committee with Vertie Grimm will have charge of special programs in October according to Auguste Barnett, publicity chairman.
