

# Hospital Given Honor Rating for 10th Year

This community institution meets all 10 requirements for national endorsement

Official announcement was made in Philadelphia Monday that Torrance Memorial hospital was again included in the 1939 list of 2,720 approved hospitals in the United States and Canada to receive the complete endorsement of the American College of Surgeons. The announcement, made at the 22nd annual Hospital Standardization Conference, was received with much appreciation by Mrs. Jared Sidney Torrance, president of the local hospital's board of directors.

This was the 10th year that the local institution has been so honored by the College. In revealing the 1939 list of outstanding hospitals, Dr. George Crile of Cleveland, chairman of the Board of Regents of the College, declared:

"On the first List of Approved Hospitals of the American College of Surgeons 22 years ago, the names of only 89 hospitals appeared. The balance of the approved hospitals have in that relatively short interval earned a right to appear and be retained on the Approved List. Even those originally approved which still appear on the list have had to strive for betterment in order to meet enlarged conceptions of the Minimum Standard requirements in the light of mechanical and scientific progress."

## Need Public's Support

"Behind the statistics has been a powerful impulse to improvement engendered by Hospital Standardization, and this impulse has been shared by a great many hospitals that have not yet won approval. They are working zealously to overcome difficulties, and they will succeed in doing so if the public gives them the support that it should, in view of the benefits that it will derive."

"One out of every 14 persons in a community, on the average, is a patient in a hospital each year. Does it not therefore behoove the public to encourage adequate care of these patients, and also to cooperate with the hospital in health conservation efforts?"

"Medical science, solicitous for the welfare of the patient, has set a high standard of approval for hospital service; equally solicitous, and demanding equally high standards, should be every enlightened community."

## Lists Requirements

Dr. Malcolm T. McEnch, associate director of the College and in charge of its hospital activities, stated:

"There is no reason why any hospital caring for the sick today cannot meet the requirements of the Minimum Standard, which, briefly stated, embrace:

1. Modern physical plant, assuring the patient safety, comfort, and efficient care.

2. Clearly defined organization, duties, responsibilities, and relations.
3. Carefully selected governing board with complete and final authority in the management of the institution.
4. Competent, well trained superintendent responsible to the governing board for carrying out all the policies of the hospital.
5. Adequate and efficient personnel, properly organized and competently supervised.
6. Organized medical staff of ethical, competent physicians and surgeons.
7. Adequate diagnostic and therapeutic facilities under competent medical supervision.
8. Accurate and complete medical records, readily accessible, for research and follow-up.
9. Regular group conferences of the administrative staff and of the medical staff for reviewing activities and results so as to maintain a high plane of scientific efficiency.
10. A humanitarian spirit—the primary consideration being the best care of the patient."

## Twin Tradition Maintained in Stroh Family

Each generation of the Stroh family for as far back as present members can recollect or have record of has had one or more pairs of twins.

The arrival of twin daughters to Mr. and Mrs. Leo O. Weaver of Downey at Torrance Memorial hospital Oct. 8, maintained that record. Mrs. Weaver is a niece of Police Chief John Stroh, himself a twin with his brother Jake of Colorado.

"I have twin uncles and twin cousins and my mother's mother was a twin," Stroh said. "The whole family—and there are plenty members of it—welcome the Weaver babies as real Stroh descendants."

On his first visit to the plant since his elevation to the presidency of the Columbia Steel company, William A. Ross made a thorough inspection of the local steel factory and conferred with key executives last week.

Superintendent Henry T. Lintott is in San Francisco this week on a combined business and pleasure trip.
