

## Dr. W. J. Harrison Brings Medical Experience of 23 Years to City

Continuing a notable career in his chosen field of the general practice of medicine, general and industrial surgery, Dr. W. J. Harrison, M.D., has opened splendidly-equipped offices at 1339 Post avenue. His entry into this community is accompanied by excellent recommendations from institutions, firms and individuals he has served during the past 23 years.

Trained in the School of Medicine of Loyola University in Chicago where he graduated in 1916, Dr. Harrison has continued his studies with periodic attendance at clinics and other medical centers in order to keep in pace with the latest trends in his profession.

He came to Torrance from Douglas, Arizona where he was an assistant chief surgeon for the Phelps Dodge Copper company at the firm's model hospital. He plans to reside here as soon as he finds suitable quarters.

Dr. Harrison served in the medical corps of the U. S. Navy during the World War. He enlisted for four years and when he was honorably discharged in 1921 he became resident surgeon for the Santa Fe Railway at the Santa Fe Hospital in Los Angeles, an institution which is regarded as one of the outstanding hospitals in the Southland.

Upon completion of his tour of duty there he spent the next nine years on the staff of the Los Angeles General hospital, specializing in orthopaedic surgery. Dr. Harrison continued his experience in medicine and surgery with the Los Angeles County health department where he was consultant and emergency surgeon for several years.

Later he became associated with Drs. Wilcox and Johnson of Long Beach, noted industrial surgeons and then went to Douglas, Arizona at the invitation of the Phelps Dodge company. Dr. Harrison said this week that he has found Tor-

... qualified by experience

rance to be an "unusually comfortable community where your residents really enjoy the good things of life. I trust that I may share their community spirit and become an active participant in the welfare of the city."

### Doc Stork Takes Earned Rest After Rush Week

In contrast to the "rushing business" enjoyed by Dr. Stork during the week ending Oct. 12 at Torrance Memorial hospital—19 new arrivals being ushered in there—only two youngsters were born during the past week at the local institution.

A son was born to Mr. and Mrs. A. F. Basile of 927 Arlington avenue last Friday and Mr. and Mrs. H. Ralph of Redondo Beach welcomed a son on Sunday.

## SHOP TALK

by RAY BROOKS

### HAVE YOU HEARD . . .

That George Moore, prop. of the hardware store of the same name, and local rep. for Sherwin-Williams paint, recently was handed a page clipped from a Dublin, Ireland, newspaper on which was an advertisement announcing the recent arrival of a shipment of Sherwin-Williams "Black Out Black" . . . designed to cover windows during air raids.

That the experience related by Mrs. Stella Young, long time Torrance high teacher of civics, citizenship, etc., is especially timely now that so many aliens are scrambling for American citizenship. Appears that in a night civics course several years ago Mrs. Young was on the point of hysterics trying to teach a male Greek (or something) the fundamentals of the American system of government. So dumb was this alien he not only failed to remember the names of the three main divisions of the U. S. government, but he could not even pronounce them. (One eye he bounced into class, shouted, "Hail! Miss Young! I getta dose names now! Today I buya three chicks. I name dem Legislative, Executive and Judicial!")

That J. C. Penney's Hillman Lee starts the Xmas ball rolling early this year with a bang-up Doll Show this week-end for all the little girls in town. On display at the store will be dozens of plain & fancy dolls of all kinds, enough to bring plenty of Ohs & Ahs from all little girls who like dolls . . . and name a few who don't!

That Carney Emmett, starting slightly over a year ago in the El Prado Furniture Store with little capital & no stock, has just recently plunked down the dough for a brand new Dodge delivery truck, is plenty proud of the new bus. Shop Talk's brass plated Medal of Honor goes to Carney as the Merchant of the Year who started with not even a nickel; now has a nickle.

That Sartori Safeway's mgr. Jim Rawl, deserves a cherry coke on the house for the clever way in which he sold Mr. & Mrs. Shop Talk a basket of fruit (the which they seldom eat). Jim had filled a small basket with assorted this & that, made it look so tempting that the buyers were glad to pay a quarter for it, has several different kinds to munch on instead of stuffing on one kind until they were sick of it.

That Irrian head pennies will be worth many times their value the first week in November when Les Prince's Beacon Drug stages its annual Rexall 1c Sale. In addition, Les will offer hundreds of fine bargains in all kinds of drug & drug sundries, expects to do a whoppin' business come Nov. 1, 2, 3, 4.

That Charlie & Ethel Dunham, old time citizens of Torrance, are bustin' with pride at the splendid new neon sign atop their service station out on Carson St. Sunset gas put up the sign which boasts the powerful, new green Neon, so superior to the old.

That Sam Levy has scheduled a showing all day next Saturday of the famous line of Gossard Corsets, girdles, foundation garments. A special factory representative will conduct the show, demonstrate to all local femmes how to wrap themselves up in a two-way stretch, look 20 years slimmer.

That Jack Murray, city councilman and Plymouth-De Soto salesman for Allen Paul, recently gave his young son Louis a point or two or three about salesmanship, wound up by presenting the neophyte with the follow tips on what a young man needs to be a good salesman:

The Curiosity of a cat  
The Tenacity of a bulldog  
The Determination of a taxi driver  
The Diplomacy of a wayward husband  
The Patience of a mother  
The Friendliness of a child  
The Enthusiasm of a chorus girl  
The Simplicity of a jackass  
The Assurance of a college boy  
The Persistence of a bill collector

Cyclists Roll Down South TAMPA, Fla. (U.P.)—Bicycles were good enough for Dominick Misco and Hobart Cook, both 21, when they decided to come here from Bristol, Va. They pedaled the 950 miles in eight days, riding about 10 hours each day.

BRITISH CENSOR IN ACTION . . . Picture shows the man behind the news "somewhere in France." This British censor, one of many, must aid in checking all letters and news emanating from the war front. Picture was released by the British War Ministry.

L. to R.: Herb Hertzberg, Lloyd Sapp, ex-Senator Walter McGovern, Dick Gallagher and Commander Scott

### Bus Team Scores High In Traffic Safety Quiz

How far from a railroad crossing should you stop your car when there is an approaching train? Under what three conditions would a car coming from your left have the right of way? These and similar traffic problems, rules and regulations were fired at thirty-two teams of Exposition Exhibitors by Herb Hertzberg of the California Motor Vehicle Department, sponsor of a "Traffic Safety Quiz" on Treasure Island.

After three months of elimination rounds, four teams in the finals met in the California Building at the Exposition before a radio microphone to decide the winner. Out of a possible 900 score, the Pacific Greyhound Team came out on top with a score of 866. Commander A. W. Scott, radio commentator and captain of the Greyhound Team, accepted the "Leland Cutler" trophy from ex-Senator Walter McGovern, San Francisco Police Commissioner. Supporting Commander Scott on the Greyhound team were Dick Gallagher, traffic representative; and Lloyd Sapp, bus driver.

## Job Insurance Benefits Will Be Increased

Maximum benefits under the California Unemployment Insurance Act will be increased Dec. 1 to \$18 a week, according to an announcement received here by Ed Bird, manager of the local state employment office at 1927 Carson street. The former rate was \$15 a week under provisions of the California Unemployment Reserves Act before the Act was amended at the last session of the state legislature. Under the new measure minimum benefits are increased from \$7 to \$10 a week.

As of Dec. 1, benefit claimants, to collect a maximum of \$18 a week, must have earned \$2000 from July 1, 1938, to July 1, 1939. The gross total which any claimant may receive is \$468—\$18 a week for 26 weeks. The former maximum rate was \$15 a week for a total of \$390 over 26 weeks, before the Act was amended.

Minimum under the amended measure is \$10 a week for a total of \$260 spread over a period of 26 weeks. To qualify for the \$160, claimants must have earned \$300 between July 1, 1938, and July 1, 1939. Former minimum was \$7 a week for a total of \$182. A claimant to have been eligible for the minimum rate under the old Act had to have earnings of \$156 during the base period. This has been increased to a minimum of \$300 to qualify for minimum benefits under the amended act.

Such earnings must have been in subject employment for an employer having four or more workers. To collect unemployment insurance, claimants must be unemployed, physically able to work and willing to accept suitable employment.

The amended law contains a voluntary provision for the inclusion of heretofore exempted groups. Such group include establishments with fewer than four employees, agricultural workers, domestics, maritime employees and other lines exempted in the original act. For such workers to participate, both workers and employers must agree to accept jurisdiction of the Act for a period of at least two years, and employers must petition the California Commission at Sacramento for acceptance under the amended measure.

### Vineyard Workers Vie In Killing Rattlesnakes

CLOVERDALE, Cal. (U.P.)—"Rattle, rattle, who killed the last rattlesnake," is the game that is played on the Hot Springs ranch near here when vineyard crews begin their season's work of getting the snakes out of the vineyards.

This year, 47 rattlers have been killed. Ted Smalley won the contest by killing 19 in one day.

In northern China sails are often used to help propel wheelbarrows.
