Oh, What Fun  
It is to Ride  
In a One Horse  
Open Sleigh!

As much a part of Christmas as holly and mistletoe and plum pudding are gay holiday trips to visit friends and family. Whether it's "over the hill to Grandmother's house" in an old-fashioned sleigh or a modern streamlined Greyhound bus... it's all good fun at Christmas-time, according to Les Prince of the Beacon Drug store, local agent for Greyhound.

FLOOD CONTROL ENGINEER  
URGES BIG DRAIN PROJECT

Inclusion of the Laguna Dominguez drainage system in the list of flood control projects which Los Angeles is seeking Federal funds for next year was urged late last week by Chief Engineer H.E. Hedger of the flood control district, following new studies.

Flood control engineers now exceed the estimated annual cost by more than 30 percent, Hedger economically justified because told Supervisor Oscar Hauge, in the estimated annual benefits whose district the old Nigger

## My Neighbor Says:

Always expel air from a hot-water bottle after you pour the water into it by gently pressing the bottle upward toward the stopper. Never fill bottle more than two-thirds full.

When there is sickness in the home, particularly sickness of a contagious nature, it is one's duty to protect the members of the family who are not sick from possible infection. Carelessness in the matter of thrusting a pile of soiled clothes into the wash has caused epidemics.

Don't throw away apple peelings. They make delicious jelly if put into a casserole, covered with cold water and cooked slowly in the oven until tender. Then strain and add one pound of sugar for each pint of liquid and boil until it jellies.

BIRTH RATE  
INCREASING  
IN STATE

The state department of health concluded today that there apparently is no particular problem relative to any sudden increase in population by births among migratory agricultural workers in the San Joaquin valley.

Contrary to expectations, the department said, total births in eight San Joaquin valley counties during the first nine months of this year showed an increase of only 333 over the same period of 1938. The state-wide total was 76,961 births, an increase of 1,010 from the similar nine-month period of last year.

For Los Angeles county, the department reported a total of 28,688 births during the first nine months of 1939, compared with 28,356 in the 1938 period. The figures for the city of Torrance were 256 births during the nine months this year and 263 in 1938.

The percentage of white births for the state as a whole showed a slight increase this year, amounting to 82.6 percent of the total births, compared with 81.3 percent last year.

Slough area lies.

Cost of the alternate project urged by Hedger's office is estimated at \$1,942,700, and would provide only the initial unit of the ultimate development. This unit, at the lower end, could be used in the ultimate plan, however, it was explained.

**Suitable for Industries**  
Hedger asked the Army engineers to reconsider the list of projects and include the Laguna Dominguez alternate project to provide needed relief to the area which is suitable for heavy industrial use. It adjoins Torrance, and is conveniently located near main power lines of the Southern California Edison Company, as well as railroad lines and Harbor district. Opening of Figueroa street will provide direct connection with the harbor and the metropolitan area.

The alternate project would not prevent flooding of the old slough or Johnson Lake during heaviest storms, but would materially relieve it, permitting the water to run off much sooner. It also would relieve the heavy drainage off Los Angeles municipal airport, which is being developed with paved runways, and would relieve the overload on the Hawthorne and Inglewood storm drains.

**Rote Teaching Declines**  
AUSTIN, Tex. (U.P.)—Texas school teachers are giving their pupils more practical instruction and possibly less "book learning."
