

## SEEMS LIKE YESTERDAY

By C. KESSLER

•MINNIE THE MIMIC.  
AFTER THE HOUSEMAID AT THE VAN RALSTON'S  
HAD BEEN TO SEE MARIE DRESSLER, IN  
"TILLIE'S NIGHTMARE."

## Continue Bus Hearings to February 14

(Continued from Page 1-A)  
corrected. Included in the corrected resolution were provisions for the employment of bus drivers "at the current union wage paid by the Asbury Rapid Transit System" (62½ cents an hour) and the employment of a supervisor, R. C. Cole, assistant manager for Asbury, at \$2 per day. His job is to "do everything necessary and requisite to establishing and temporarily maintaining said public transportation service."

"We do not plan on operating the municipal buses permanently," Tolson informed Examiner Gorman. "If the Asbury application for unrestricted service is granted the city will cease operating buses. Our lease is only from hour to hour or day to day."

Attorneys conducting the cross-examination of the city witnesses were Lester Luce of Gardena, Max E. Utt and Woodward, May for the L. A. Railway, Orville A. Schulenberg and A. L. Owens for the Motor Coach line.

**Comer Is Blunt**  
Invited by Examiner Gorman "to be as blunt as you wish because we want all the facts you can give us," Postmaster Earl Comer, first to be examined, emphasized "we don't want to take any kind of a transportation service which is less than we had before"—referring to the Pacific Electric. "We don't want to take a bus here, transfer to the Gardena municipal or line, go a few miles and then transfer again to another bus line or street car. Neither do we want to be hamstrung with no transportation at all," Comer said.

Mrs. Kathryn Buffington, piano teacher, testified she has been traveling to Los Angeles about twice a week on the street car—and since Jan. 15 by bus—for approximately 10 years. She declared the Asbury line has been giving good service since its entry here and appreciated the 11 p. m. bus out of Los Angeles because she could attend the full program of concerts in that city.

**Amend Fare Schedule**  
Don L. Campbell, general manager for the Asbury line, amended the fare schedule on his firm's application for an interim permit. The new fares which would be charged are:

Torrance to L. A. 30 cents (no change);  
Torrance to Manchester and Hoover, 25 cents (five cents increase);  
Torrance to Imperial and Hoover, 20 cents (five cents increase);  
Lomita to Los Angeles 40 cents (no change);  
Round trip, Lomita to L. A. 60 cents (10 cents increase);  
Lomita to Manchester and Hoover, 35 cents (five cents increase);  
Lomita to Imperial and Hoover 30 cents (10 cents increase);  
Lomita to Gardena 20 cents (five cents increase).

**Resolutions Presented**  
Mrs. Hillman Lee was the first of seven witnesses who testified as to the time when approving resolutions in behalf of Asbury's application were adopted by eight different local organizations. In addition to these endorsements, Attorney Ware introduced and had accepted for exhibits, letters from the Rotary and Kiwanis clubs, United Workmen, the Torrance National Business and Professional Women's club and the resolution of the Torrance Retail Merchants' Association.

Those who identified resolutions were Judge Robert Lessing

## My Neighbor Says:

February is the proper month to clip a rubber plant. Take a sharp knife, cut the slip on a slant and rub some earth on the cut end. Put slip in a jar half filled with water, let it stay in the water until roots sprout, then pot it in rich earth. After it is potted keep quite wet.

Basting threads may be removed easily by clipping them at six-inch intervals and pulling them out with the blunt ends of scissors. In sewing snaps on garments sew all the halves on one side. Brush them over with chalk. Press against the other side of the garment and the chalk marks will show where each additional half should be attached.

Put a tablespoon of one of the following into each cup before adding custard for baking: Caramel sirup, maple sirup, brown sugar, mixed with cinnamon, grated sweet chocolate, candied fruits, sliced nuts or coconut. The extra ingredients may also be sprinkled over the top of each cup when it is half-baked.

(Released by The Associated Newspapers)

## FOOD STAMP CARDS OUT ON FEB. 6

Identification cards which will entitle relief clients all over the county to purchase food stamps of the Federal Surplus Commodities Corporation will not be available until Tuesday of next week, February 6, because of the vast amount of work involved, according to county charities officials.

The stamps were to be placed on sale today at 30 or more offices of the F.S.C. in this community and other sections of the county. About 100,000 persons now on relief in this county will be able to buy the stamps if they wish.

Full effect of the plan is not expected to be felt until after all relief clients have received their monthly checks as cash is required for purchase of the stamps. Precautions have been taken by authorities to prevent abuses of the plan and to insure against clients purchasing more of the stamps than they are entitled to.

Latest figures from relief agencies show that on December 31 there were 159,756 cases of relief in the county. Of these 82,994 were aged pensioners, indigents, blind aid or child aid cases on county rolls, 36,599 were state relief administration clients and 39,163 were WPA cases.

**POWER LINE DOWN**  
A power wire from a Pacific Electric line was flung down across El Prado beyond the Santa Fe viaduct this morning during the rainstorm. It is believed a bolt of lightning dislodged the wire.

for the Torrance Coordinating Council, which also discussed the municipal system "but did not go on record as favoring it." Secretary L. J. Gilmeister for the Transportation committee of the Chamber of Commerce, Rev. B. H. Lingenfelter for the Los Angeles-East Torrance Chamber of Commerce, Mrs. Gertrude Ralston for the Torrance Woman's club and the Torrance Legion Auxiliary, Vernon F. Glidden for the Torrance Townsend club and J. W. Loughridge for the Walteria Civic Organization.

**Want Ads 25c**  
Get home cooked meals for as low as 35c. See Lexie's, class 28.

## R. R. Commission to Hear City's Bus Plan Feb. 9

(Continued from Page 1-A)  
the Los Angeles utilities and transportation board.

City Attorney John E. McCall reported that he had conferred with Major Bean, general manager for the Los Angeles board, regarding the latter's memo of last Friday requesting the drivers of the municipal buses not to pick up any passengers in Los Angeles (north of 116th street) until after the board's hearing of Feb. 9.

**Cooperation Noted**  
McCall informed the council that Major Bean said he had discussed the matter informally with his board and each member was of the same opinion that passenger service in Los Angeles territory should be deferred until after the hearing. This does not affect service in Waverly, Lomita and Torrance, where passengers are picked up and let off any place en route.

After the council session, members of the Torrance board and McCall conferred again on the bus situation and the attorney pointed out that the Los Angeles officials fully understand the predicament in which this area was left following the discontinuance of passenger service by the Pacific Electric on Jan. 15. Both McCall and Mayor Tolson declared the Los Angeles board and Major Bean were "very cooperative" and desired to give the Torrance bus problem "every chance of equitable solution."

Mayor Tolson reported that since the city began giving bus service, temporarily pending the outcome of the Asbury firm's application for a permit to operate in this area, only 15 passengers had been picked up in Los Angeles city territory.

## No Change In Water Levels

Water levels in the Torrance locality showed practically no change for the past year, according to the annual report of the Los Angeles department of water and power, which maintains checks on water wells throughout the county.

The water level last summer was 19 feet below sea level, hydrographers records showed. Three wells were checked in the Torrance district. One showed no change, another showed a loss of three-tenths of a foot, and the third showed a gain of six-tenths of a foot, all figures being comparisons with the previous year.

In the Lomita district, seven of 11 key wells checked by the city showed a gain of an average of nine-tenths of a foot, and the other four wells showed a drop of 1.45 feet. Surface of the water in the key wells varied between 12 and 30 feet.

The water department's wells in the Lomita district were not pumped all year.

**No. Torrance Folk to Discuss Zoning**  
A special meeting of the North Torrance Improvement Association will be held Friday night, Feb. 2, at the Perry school to discuss the proposed zoning of that area. All property owners are especially urged to attend altho the meeting is open to all North Torrance residents.

Stop brake trouble now! Have them adjusted for only 25c. See classification 99a.

# SAFeway CO-OPERATES -WITH U.S. GOVERNMENT FOOD STAMP PLAN to MARKET SURPLUS FARM PRODUCTS

## BLUE STAMP VALUES

These surplus foods can be purchased with Blue Food-Order Stamps or with cash. Note the low prices at your Safeway.

## BEANS, RICE, FLOUR

White Beans	Large Size 1-lb. In Cello bag	6¢	2-lb. bag	11¢
