Pet Milk On Market 55 Years

Milk in cans! Believe it or not, that was a revolutionary idea just 55 years ago this month when the Pet Milk Company was founded.

This month on Pet Milk's fifty-fifth birthday, the evaporated milk industry has grown until 23% of all cans of food consumed in the United States is evaporated milk. Pet Milk is the staff of life today for many thousands of babies who are thriving and growing steadily on the Pet Milk prescribed by their doctors. Among them, more than 100 sets of triplets and the only two sets of quadruplet babies born in recent years in the United States—the Kasper boys and their sister in Passaic, New Jersey, and the Badgett girls in Galveston, Texas.

Weird Garb Worn by Jane Addams Club Neophytes

Braving numerous snickers and hearty laughter from many were the following Gauchettes: Nell Mills, Thelma Franko, Ruby Zaver, Ida Haslam, Phillis Motter, Evelyn Johnson and Catherine Holmes.

Miss Jean Burpee, niece of David Burpee, famous hybridist of Philadelphia, helped usher in at the Waldorf-Astoria Hotel in New York recently, the new "Tetra" Marigold, first flower ever created by the use of a chemical for reproduction from seeds. It was developed by doubling the chromosomes of the Guinea Gold marigold, a feat accomplished by treating the marigold with colchicine, a chemical extracted from the bulb of the common autumn crocus. Miss Burpee is a student at the Sarah Lawrence School in Bronxville, N. Y.

Valentine Motif Makes Luncheon Delightful Preliminary to Review

More than 125 were in attendance at the beautifully appointed Valentine luncheon given by members of the Central Evangelical Guild at Guild Hall yesterday. Mrs. Roseann Winters as program chairman presented Mrs. Dorothy Jamieson in a review of current literature.

* Mrs. Jamieson stated that there is a copy of "Life of Lincoln" by Carl Sandburg, depicting Lincoln's war years' life available at the library.

"The Sea Island Lady" by Frances Griswold was given a warm recommendation to fans of "Gone With The Wind" and other Southern locale fiction.

Dealing with conditions in the South immediately following the Civil War the book covers a 60-year cycle with Emily Fenwick as its charming heroine. "Incredible Era" by Samuel Hopkinson Adams, an authentic study of the life of Warren Harding, is an interesting book particularly timely in view of this year's political outlook.

Adams has had to rely upon the direct testimony of witnesses whose veracity "ranged from George Washington to Ananias" in his compilation of material for this work due to the peculiar conditions surrounding his subject.

"Maud" by Richard Lee Strout the book with which Mrs. Jamieson concluded her discussion is the life story of a glamorous girl of the 80's. She is a real character, is still living and presents an unparalleled personality picture. Material for the book was compiled by the son in law of "Maud."
