Mrs. Buffington's Piano Pupils Present Monthly Program

"God Bless America" played by Mary Louise Acord and Richard Mitchell with Mrs. Buffington at the second piano was the initial number of a varied and interesting program at the program meeting of piano students of Kathryn Buffington presented recently at her studio-home, 1533 Marcellina avenue.

Piano solos and numbers for two pianos provide an interesting variety to the programs which are being presented on the fourth Saturday of each month. Discussion and suggestions follow each number to stimulate interest and attention and plans are outlined.

Mrs. Buffington encourages the monthly meetings as an aid to developing poise in playing before others. As the studio is equipped with two pianos, students are encouraged to participate in this stimulating and interesting feature of preparing programs together.

Social Hour Follows

A violinist and accompanist will provide an innovation for the March recital.

For February the soloist was Marjorie King who sang two songs "Over the Rainbow" and "The Umbrella Man" assisted by Margaret Ridge, accompanied at the piano by Mrs. Buffington.

Forty members of the Rolling Hills Garden Club met on Monday night at Town Hall to hear Murray McNeil present a talk on "Beautiful Lawns and Gardens." McNeil, who is president of the Southern California Horticultural Institute, accompanied his discussion with a series of motion pictures in color.

The elements required by flowers, lawns, potted plants and vegetables to stimulate growth were explained graphically by pictorial contrast of plants grown side by side under the same conditions, with one plant fed the required amount of certain elements such as iron or manganese, and the other grown with a deficiency of the elements. Potted azaleas and camellias were noticeably affected in size and speed of growth.

Don Falconer, president of the Garden Club, introduced the speaker, Mrs. C. Ed Jones, also of Rolling Hills, is secretary.
