## RE-ELECT TOM F. McGUIRE

(Incumbent)

Torrance Municipal Election

**TUESDAY, APRIL 9**

CONTINUED PROGRESS  
FOR GOOD.

## THINK THIS OVER!!!

- "The LEAST that may be expected of a city government is that it will guard the public health, enable citizens to live in security and comfort, and maintain an efficient educational system; and also, that in doing these things public money be justly collected and honestly expended. If one follows out in detail this necessary work of city government he will be impressed with the fact that these are matters of BUSINESS almost exclusively, rather than matters of politics.
- WHAT THEN SHOULD BE DEMANDED OF PUBLIC OFFICIALS? "All should possess the same BUSINESS CAPACITY and zeal for the interests of their employers (the public) that are required in the sphere of private enterprise." James and Sanford, "Government in State and Nation" p.32.
- It is obvious from the foregoing authority that to be a successful Councilman one must be a BUSINESS MAN in the sense that he is capable of understanding complex business problems and of making important decisions respecting the rights of 10,000 persons. THINK BEFORE YOU VOTE.

## Carson Due for Two Major Improvements

Carson street, which this week gained a new food market center known as the Carsonmart between Cabrillo and Andree, is certain to bear even greater traffic in the near future than it does now.

**DRAFTING PLANS**  
The other is the construction of a bridge over the Long Beach flood control channel which would continue the highway thru to Long Beach boulevard and thence east on Carson to Orange county city.

City Engineer Leonard Young is already at work drafting tentative plans for the re-routing of Carson thru El Prado park by way of a double lane diagonal and various improvement associations are supporting the project for the construction of the connecting bridge in Long Beach.
