*Beauty and You*

by PATRICIA LINDSAY

So meticulously turned out is attractive BRENDA JOYCE that she has the poise of a queen! And her beauty is radiant.

**Evening Beauty Should Be Faultlessly Groomed, Radiant and Casual**

THE girl who makes herself like a painted, stiff doll for an evening party just doesn't know how to make the most of her beauty! True beauty should be casual and radiant, neither of which can be achieved unless one's grooming is faultless.

If you wish to, you may wear a more elaborate coiffure at night, a more daring dress and have your make-up a bit exotic—but the whole picture should look natural rather than studied, and you should definitely act as if you were not aware of the exciting impression you are making!

Such poise is possible when you know your hair will stay in

place all evening, your facial beauty will not fade after the first dance, and your dress fits so perfectly and is so becoming that you can forget about it altogether. It will still look lovely whether you walk, or sit or dance.

It is not easy to be casual about one's beauty especially if one has spent a couple of hours being made beautiful! But the girl who is stiff, self-conscious and slightly nervous cannot radiate the "oomph" necessary to attract people to her.

You take a good long look the next time you see a truly radiant, popular beauty of any age.

**Many Local Relievers Fail to Get Their Full Share of Food Supplies**

**Walterian Gets Jail Sentence**

After pleading not guilty and asking for a jury trial Saturday, Charles G. Whittington, 36-year-old oil worker living at 23855 Park street, Walteria, changed his mind Monday, plead guilty and was given 25 days in the county jail. Whittington was arrested last Friday afternoon for driving while intoxicated, according to police records.

She will seem carefree in her laughter, her gestures, her tantalizing flirting it will be difficult for you to believe that she possibly spent half an hour in a scented bath, an hour getting a facial, another hour or two either primping her hair or having it done, and who knows how long shopping for and fitting the clothes she so carelessly wears!

But you can wager that any beauty of society is a clever woman who has learned well the intricacies of perfect grooming and has achieved a fascinating poise which puts you (and men!) off your guard, simply by being so sure of herself that she has everything and everyone under control!

This beauty, who usually gets a lot of attention wherever she goes, doesn't necessarily follow current fashion to the law. No indeed. She sees to it that what she wears (its color, its cut, its material) does something for her, brings out her beauty of coloring and figure.

She chooses her make-up in the same wise manner. I've known some beauties who spend barrels of money on keeping their figures slim and their skin flawless, who stick to the same shades of make-up for year round! They do not go in for sun tannings or bleaching and once they find a lipstick with a perfect texture and of a shade that flatters, they buy it by the half dozen!

Usually great beauties dress their hair simply! That may sound odd, but it is true. Thus their hair requires the minimum of fussing with and they do not have to be over on the alert wondering if each lock is in place. Varied ornaments dress it up for gala occasions.

If one's clothes fit well and are in good repair it makes things easy. Any poise is destroyed if you keep tugging at a closing or tripping over a too long skirt, or pulling at a strap. Any girl can step out with assurance if she keeps her beauty schedule up to date. But she who neglects it and then rushes around trying to slap on glamour the nth hour before a big date, will not have the radiant, casual air which makes some girls so outstanding they are called the "belles" of their day.

Pointing out that "there are no tricks in the Federal Surplus Commodities food stamp plan," L. H. Lowe, senior cashier and manager of the F.S.C.C. stamp store at 1215 El Prado, said this week that 27 percent of the total Torrance relief load or 263 out of 966 individuals receiving aid are not taking advantage of this opportunity to receive extra food-stuffs at local markets at no cost.

**POLY QUEEN**... Seventeen-year-old Jeanne Defosset may not be roly-poly, but she's a poly queen. She'll preside over annual Poly Royal of California State Polytechnic college at San Luis Obispo.

**All Women Bid to May Day Fete at Narbonne High**

The girls' field at Narbonne high school will be the scene of the gala program May Day which will continue thruout the afternoon. All women of the surrounding area are cordially invited to come, whether they have girls attending school or not. There will be a charge of 25 cents for the May basket supper later in the evening.

A program of hockey, badminton, archery and other girls' sports will highlight the day. Musical selections by the Glee club and the little symphony orchestra will be given. In addition, a group of girls will present a fashion show. The purpose of the program is to acquaint mothers of the community with special educational opportunities for girls in school.

**WARM BUS SERVICE**  
Motor bus service is maintained over a 600-mile route from Damascus to Bagdad across the Arabian Desert, where temperatures range up to 145 degrees.

"I cannot understand why more persons who are on one of the six forms of relief do not double their purchasing power of food-stuffs by using the Federal stamps," Lowe said. "Some have told me that they believe there is some trickery involved but I have assured them there is none."

Those purchasing yellow stamps and receiving 50 percent more of value in blue F. S. C. C. stamps may buy their foods at any local market, receiving identical quality as those paying cash. There are some 17 different foods, listed as surplus commodities, available to blue stamp holders, all of the finest grade, fresh and new foods.

**Reports Local Survey**  
Each family eligible to purchase these stamps must buy a minimum of \$4 per month per person in the family and not over \$6 per month per person in yellow stamps. Then they receive half again as much in blue stamps which are used for the purchase of surplus commodities as cold, hard cash to local food dealers.

Lowe said that 703 persons in Torrance or 73 percent of the total relief case load are increasing their food purchases by using F.S.C.C. stamps. A further breakdown of his survey showed the following interesting figures: Of the 331 local persons listed on S.E.A. rolls, 78 or 24 percent are not using the stamps; Of the 222 on W.P.A., 32 or 14 percent are not now buying the stamps;

Of the 13 receiving aid to the blind, seven or 50 percent are not stamp users;

**Store Hours Given**  
Of the 27 receiving aid to dependent children, 12 or 50 percent are not obtaining the extra foods, such as butter, eggs, vegetables and meats available to F.S.C.C. stamp buyers; Of the 73 on general (county) relief, 13 or 20 percent are not participating in the plan, and of 300 receiving old age assistance (county), 121 or 40 percent are not stamp users;

The local F.S.C.C. stamp store on El Prado is open every day except Sunday, Lowe reported. The hours are from 9 a. m., to 2 p. m., every weekday except Saturday when the store closes at 11 a. m.

"On account of the length of the line of those purchasing food stamps on the 4th and 19th of each month, it is better for the convenience of Old Age Assistance, Aid to Blind and Aid to Dependent beneficiaries that they purchase stamps either before or after those dates," Lowe said.

**CHEVROLET'S Exclusive VACUUM-POWER SHIFT**

**easiest of all gearshifts to operate...**

**80% Automatic...Only 20% Driver Effort!**

*because* **ITS ACTION IS EASIEST!**

Tests prove Chevrolet's to be the easiest steering column gearshift to operate. Compared with the two cars next in sales, Chevrolet requires only 2.8 ft.-lb. of effort for a cycle of shifts, against 8.5 for Car B and 14.8 for Car C.

*because* **ITS LEVER AND ITS "THROW" ARE SHORTER**

Because Chevrolet's gearshift is operated by vacuum, it requires less leverage. The lever and its travel or "throw" are the shortest, and that means the quickest shift. Length of Throw: Chevrolet, 4 1/4"; Car B, 7 1/2"; Car C, 10 3/4".

*because* **IT'S EFFORTLESS IN TRAFFIC**

Stop and Go—Red and Green—Halt! Start! That's traffic. And that's where Chevrolet's easy shifting is appreciated. Vacuum does 80% of the work; only 20% is done by the driver. No tugging, no shoving!
