## MODERNIZE YOUR MECHANIZED EQUIPMENT WITH CHEVROLET TRUCKS

at today's low prices!

YOU KNOW THE LEADER IN TRUCK SALES  
MUST BE THE LEADER IN TRUCK VALUE

Truck buyers are careful buyers—they thoroughly analyze and compare all types of trucking equipment—they want to make certain that they'll get the make and type of truck best suited to their business requirements.

It is a significant fact that more truck users choose Chevrolet than any other make of truck... because Chevrolet trucks could not have established their record of leadership in 1940 and maintained it for six out of the last eight years had it not been that Chevrolet trucks deliver more dollar-for-dollar value than any other make.

All models and types of Chevrolet trucks may still be purchased at today's low price levels, so it would be wise to consider replacing some of your trucking equipment with new Chevrolets now.
