### Chinchillas Due Soon in Walteria

In preparation for the start of a new Walteria industry, 50 pairs of chinchillas will be placed in pens early next month at the chinchilla farm now under construction at 224th street and Ocean avenue.

When completed, the first unit will have accommodations for 92 pairs of the valuable little rodents. Construction of additional units is scheduled to follow completion of the \$2,500 home and first section of pens which will be equipped with electric heaters.

A high wire fence encloses the one and a half acre farm site, which will be landscaped with trees, shrubs, flowers and lawn.

Valued at \$1,500 each, the rabbit-like animals thrive on carrots, alfalfa, cereals and concentrated food pellets—but no lettuce. Ardree B. Stanger and Joe Sake, owners of the farm, described as ideal their Walteria site in the lee of the Palos Verdes hills and overlooking Walteria and Torrance.

Requiring freedom from extreme dampness and heat, chinchillas take a minimum of six months to raise for sale as breeders.

### Geyer's Attitude On Defense Hit by Mrs. Colden

In a statement this week expressing "complete approval" of the foreign wars plank in the Democratic national platform, Mrs. Clara N. Colden, candidate for the Democratic nomination to Congress in this district, took issue with the attitude toward defense expressed by Congressman Lee E. Geyer in his Washington news letter of July 6.

"The Democratic platform," said Mrs. Colden, "stated: 'We will not send our army, naval or air forces to fight in foreign lands outside of the Americas, except in case of attack.' This," she commented, "specifically provides for our taking any action necessary to uphold the Monroe doctrine in this hemisphere, and also to defend Hawaii and the Philippines if they are attacked."

Reading from Congressman Geyer's news letter, she quoted: "I repeat my pledge to the people... I will not vote for war unless WE ARE INVADED." (The capitalization was Geyer's.)

"This attitude, if followed by a majority in Congress, would at once scrap our Monroe Doctrine, to which this country has been pledged by every administration, whether Democratic or Republican, for more than 100 years," Mrs. Colden declared. "And how safe would we be," she asked, "if a strong aggressive power should establish itself in another part of the Americas, and we wait idly by and do nothing until we are invaded?"

Drawing a geographical defense line around the borders of the United States is the "essence of nonsense," she declared.
