## Winemakers Get Reminder

Makers of wine for family use in this community were reminded this week of certain internal revenue department regulations pertaining to their activities.

Not more than 200 gallons of untaxed "not for sale" wine may be made by a family and proper forms should be filled out not later than five days before operations begin. The permit must be renewed each succeeding year beginning July 1.

Tax exemptions do not apply to wine made by a friend and given the consumer, wine produced by a single person unless he or she is the head of a family, wine produced by a married man living apart from his family, wine made at a winery operated by two or more heads of a family or wine to furnish persons not members of the producer's family.

Under no circumstances shall production exceed 200 gallons unless the producer first qualifies under internal revenue regulations as a bonded winemaker.

Home winemaking application forms may be obtained from the district supervisor, alcohol tax unit, room 142, federal office building, San Francisco.
