

Young Democrats to Present Candidates

Torrance Young Democrats will present more candidates for state assembly at an open forum meeting Monday evening, August 5, at 7:30 p. m., at the hall, corner of Torrance boulevard and Portola avenue. The public is invited to attend and question the speakers following their 10-minute talks.

—Want Ads 25c—

PUBLIC MEETING

The public is cordially invited to an open Technology meeting next Tuesday night at 7:30 o'clock at 1915 Carson street. Motion pictures, entitled "New Frontiers," dealing with electrical industrial equipment will be screened.

KEEPS 30 PIPES

LINCOLN, Neb. (U.P.)—Nebraska's Gov. R. L. Cochran has 30 pipes, but he makes no hobby of collecting them. "My Scotch instinct just won't let me throw any of them away," he explained.

New Type Model Plane Escapes Handlers Here

Last Thursday Phillip Hoffman and Bernard Friedman went out to fly one of Bernard's rubber-powered model airplanes from a big field on Western avenue opposite the Columbia Steel plant.

On its third flight the plane began to soar on the hot air currents. The boys chased the model but lost it after pedaling on a bicycle past 190th street.

The next day the model was returned by an unknown gentleman. It had been found in a Japanese field near the General Petroleum plant. Evidently it had circled back and covered a territory of about two and one-half miles.

Highly Streamlined

The plane is a special original design, created by young Friedman and has many interesting features. Called "The Lemon" because of its lemon coloring, the model has a wing span of 34 inches and is of highly streamlined design. The wing is set above the fuselage on a streamlined structure called a "cabane."

It has twin tails, for aerodynamic reasons and also to provide three "points" for the model to rest upon because it has but one landing wheel.

The two most interesting features, however, are the one-bladed, counterbalanced, folding propeller, a very efficient device, and the automatic, one-wheel retractable landing gear. Bernard designed these features that make a soaring glider out of the model as soon as the power of the rubber motor is expended.

Modeling is Bernard's hobby—one that is shared by thousands of other boys. They are not limited to designing, building and flying rubber-powered models, but they also construct model airplanes powered by gasoline motors.

Building Gas Model

There are a number of local boys interested in "gas modeling" and the hobby as a whole. Kenneth Hedges and David Delano are two of the most adept modelers here in addition to young Friedman. The latter is now designing and building a small gas model for a South Gate manufacturer. His first plane is almost complete and will be tested soon.

A "gas model" is a miniature of the big planes. Problems of design, weight, stress and tensile strength of the commercial planes are also problems of the gas model. They, too, have the bugaboo of vibration to overcome, proper distribution of weight and proper handling of aerodynamic forces.

Townsend Club Activities By Vernon F. Glidden

Several hundred Townsendites gathered at Torrance City park last Sunday where they enjoyed a picnic dinner and a splendid program at the band stand. This was opened with the singing of "America," salute to the flag and prayer by Rev. Paul Deitrich of Long Beach.

Robert Z. Adams, who has spent the last year in work at Washington, D. C., and in the middle and eastern states, told of his experiences and brought encouraging reports of the progress of our movement. Visitors were present from the 16th and 18th Congressional Districts and much enthusiasm was manifested. Mr. Miller of Redondo Beach, Mr. Geo. Geiger of San Pedro, and Will Hoover of Los Angeles appeared on the program. Rev. Deitrich gave several humorous readings.

Good things are being planned for our club each Friday evening in August and a cordial invitation is extended to the public to meet with us.

People who attempt to pass the car ahead without room and time to make it, destroy the pleasure of driving for themselves and others.

New Equipment Permits City to Expand Street Improvement Program

NEWEST THING IN GRADERS... Shown above inspecting the city's new Caterpillar Diesel motor grader, purchased for \$5,060, are, left to right, Councilman James Hitchcock, chairman of the Street committee, demonstrator for the Shepherd Tractor and Equipment Company of Los Angeles in the driver's seat, Street Superintendent William Gascoigne and City Clerk A. H. Bartlett, who is

feeling the "bite" of the grader's scarifier. The machine, latest of its type on the market, is equipped with an electric starter and a cab has been mounted over the driver's seat. The purchase price included a 500-gallon copper-lined fuel tank to be installed at the city yard. The grader has a top speed of 18 M.P.H.

Resign?

"Bully Round Roosevelt," says Henry A. Wallace, shown entering White House, Critics demand he resign as secretary of agriculture, in order to campaign as Mr. Roosevelt's running mate.

Gourd-Shaped Tiny Egg Exhibited by Local Poultryman

"I've handled a lot of eggs but I've never seen one like this," H. W. Craig of 1533 220th street, said Tuesday as he exhibited the strangest-looking example of "hen-fruit" ever seen at The Herald office.

The tiny egg was shaped like a miniature gourd. It had been produced by one of Craig's Austra-Whites—appearing in a moment of indiscretion.

Old Tax Payments May Net County About \$100,000

The county has received \$24,125 in "down payments" on tax-deeded property sold at the recent sale that ended July 16, but expects to receive about \$100,000 between now and August 16, according to Frank B. Murphy, deputy in the office of County Tax Collector H. L. Byram.

Only 10 percent, or 1,216 of the 11,456 parcels offered for sale during the two-week auction were sold, but the owners of 3,877 more parcels who were back in their taxes paid their taxes up so their holdings could not be sold. In most cases taxes were paid up to date.

But 5,668 or nearly half of the parcels did not attract as much as a single bid, mostly due to unpaid street assessments, and these parcels were deeded to the state. In 782 other instances court orders prevented sale of the tax-delinquent property.

Plan Regular Sales

Bidders had to deposit the first year of delinquent taxes as soon as the bidding closed, and must pay the remainder of the unpaid taxes, aggregating five years, within 30 days. The bidding was not spirited except in a few instances.

Regular sales of property that is tax delinquent for more than five years will be held July 1 of each year, unless the 1941 Legislature puts back into effect the moratorium which prevented such tax sales not only during the depression but up until this year. Anyone may make a request for a special sale of a specific parcel at any time, however, and the property may then be obtained for less than the total of the delinquent taxes.

Southern Californians Go for Eggs In Big Way

Every day 1,500,000 eggs are eaten in Los Angeles and the surrounding metropolitan district, Paul K. Wilson of the county agricultural department said today in announcing that the egg business adds up to nearly \$15,000,000 annually.

New marketing requirements on eggs as provided by state law have been received enthusiastically, both by the trade and the consuming public, Wilson said. The new designations are "specials," Grade AA, Grade A and Grade B.

Firemen to Be Blood Donors LANSING, Pa. (U.P.)—In honor of the late Fire Chief Walter L. Frain, who never overlooked a call as a blood donor by persons unable to pay professional donors, the local fire department has organized the Walter L. Frain Blood Donor's Association to carry on his work.

I LOST 42 POUNDS IN 60 DAYS

Now Eat Candy and Grow Thin New, Easy Way You can lose ugly pounds and have a slender, graceful figure. No drugs. No exercising. No weakening diet. You simply follow this easy AYDS Candy plan and lose weight. Mrs. C. Miller, Chicago, writes that she lost 42 pounds in 60 days and feels 100 per cent better.

MONEY BACK GUARANTEE Learn how some lost up to 25 pounds a week. AYDS delicious Candy contains vitamins A, B, and D, and essential nutrients. Satisfies hunger without excess fat or calories. AYDS is backed by a \$1,000.00 Purify guarantee. So it's safe. Only \$2.00 for a 30-day supply. Free delivery in plain wrapper. Satisfaction guaranteed. Start now to reduce. AN IDEA FOR TODAY ROAST BEEF WITH YORKSHIRE PUDDING

Choose a 2 or 3 standing rib roast of beef. Place it fat side up in an open roasting pan. Season with salt and pepper. Do not cover. Do not add water. Insert a meat thermometer so that the bulb reaches the center of the thickest part. Put in a slow oven (300° F.) and roast until desired degree of doneness is reached. The thermometer will register 140° F. for a rare, 160° F. for a medium, and 170° F. for a well-done roast. Allow 18 to 20 minutes per pound for cooking a rare roast, 22 to 25 minutes per pound for a medium, and 27 to 30 minutes per pound for a well-done roast.

Yorkshire Pudding
1 cup flour
1 teaspoon salt
1 cup milk
2 eggs
1 tablespoon beef drippings

Sift flour, measure and mix with salt. Add milk gradually, stirring to form a smooth paste. Add eggs which have been beaten until light. Place drippings in a 9x13-inch pan and pour in batter. Bake in a moderately hot oven (400° F.) for thirty to forty minutes. Cut in squares and serve around roast of beef.
