fied of his position in the drawing until he actually receives his questionnaire, an eight-page document which inquires minutely into every phase of our man's history and present circumstances.

Local Classification
The list of numbers will be published by the newspapers and broadcast by the radio, however, and if John is the least bit interested he will find out when his number comes up far in advance of the formal notification. He will have five days to return the questionnaire properly filled out. It will then be up to the local board, composed of three persons of high standing in the community, to go thru the lengthy forms and classify the registrants in four classes.

May Appeal Case
First selections for training will be made from the "Class one" group, those in good physical condition, having no dependents and not engaged in essential industries. Those "deferred" and placed in the other three classes are subject to call later if and when the first list is exhausted.

This will all be done without John being consulted personally, and he will be notified of his classification by postcard. If he thinks he has been discriminated against, however, he can carry his case to a board of appeal, of which there will be 20 in California. If his appeal is based on the grounds he is physically unfit for service, there will be a similar number of medical boards organized to hear his arguments.

26,000 From State
In round numbers, army officials estimate that about one in 40 of those registered will be drawn for service by the first of 1941. Additional numbers probably will be called during the remainder of the initial 12 months, and the entire program has five years to run.

General Mittelstaedt expects the California registration will total approximately 965,000, and of this total probably about 26,000 will be drawn for service by Jan. 1, according to present plans.

"Fear not, little flock; for it is your Father's good pleasure to give you the kingdom." Jesus' words from Luke are the Golden Text in the Lesson-Sermon on "Reality" on Sunday in all Churches of Christ, Scientist.

One of the Bible selections presents these passages from Luke: "And in the synagogue there was a man, which had a spirit of an unclean devil, and cried out with a loud voice, saying, Let us alone; what have we to do with thee, thou Jesus of Nazareth? art thou come to destroy us? I know thee who thou art; the Holy One of God. And Jesus rebuked him, saying, Hold thy peace, and come out of him. And when the devil had thrown him in the midst, he came out of him, and hurt him not. . . . and the people sought him, and came unto him, and stayed him, that he should not depart from them. And he said up to them, I must preach the kingdom of God to other cities also: for therefore am I sent."

The Lesson-Sermon also includes this passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine metaphysics is never to be mistaken for a form comprehensible by and adapted to the thought of the age in which we live. This system enables the learner to demonstrate the divine Principle, upon which Jesus healing was based and the sacred rules for its present application to the cure of disease."
