

# Here's "PARADISE" . . .

## Compared to Other Oil Fields... Say Veteran Workers

**B**LOOMING Flower Gardens . . . Green Lawns . . . Paved Streets . . . Ornamental Street Lighting . . . Attractive Modern Homes . . . ALL IN AN OIL FIELD!

Yes indeed, the Torrance Field of the Chanslor-Canfield Midway Oil Company is striking evidence that Industry and Beauty CAN thrive side-by-side, as the accompanying sketch and pictures illustrate.

This is the only development of its kind in the history of the oil industry. Little wonder then, that in comparing the C.C.M.O. project at Torrance with other oil fields, veteran workers call it "PARADISE!"

### Fully Improved Industrial Sites Now Available at Reasonable Terms!

Approximately 2000 acres in Torrance are under development by the C.C.M.O., . . . of which 100 acres in fully improved Industrial Sites are now available. All utilities, such as gas, water, sewers and power are provided. Railroad sidings and street paving have been laid. Los Angeles Harbor is only a few miles distant over wide highways. Sites for large and small industries are now offered at attractive prices and terms.
