At Last!

THE ULTIMATE IN HOME ENTERTAINMENT

COMBINING within one beautiful console cabinet all the functions of Radio, Phonograph, and Recorder, this most versatile of all musical instruments inaugurates an entirely new era in Home Entertainment!

RECORDER makes permanent recordings of your own voice, or anything spoken, sung, or played before the microphone. Also records your favorite radio programs, taken directly from the air. Or it records on one record a blending of your own voice or music from the microphone with a program coming in over the radio.

PHONOGRAPH, with automatic record changer, brings the World of Music right into your own home, and enables you to enjoy the music you like when you want it.

RADIO provides glorious tone and brilliant performance unknown before in ordinary radios. Separate bass and treble tone controls with visual indicators. Designed for use with Television attachment!

CABINET, superbly beautiful, with spacious record compartment, is designed to eliminate the bothersome necessity of removing bric-a-brac from the top every time it is used.

THE SENSATIONAL NEW

Packard-Bell

Miss Beryl Wallace, of Earl Carroll's 'Most Beautiful Girls in the World,' recording her voice on the Packard-Bell Phonocord.

PHONOCORD

RADIO • PHONOGRAPH • RECORDER
